MAYOR BAIRD IS WELL PLEASED AT CITY'S NAME

Incorporation as West Town or Will Soon Be a Reality—Suburban News Items.

TORONTO JUNCTION, March 25.—The bill to incorporate the Town of Toronto Junction as the City of West Toronto was passed this morning by the private bills committee of the legislature. Mayor Baird and Town Solicitor Anderson were present to urge the passing of the bill, but there was no opposition. In addition to the incorporation of the city, the bill gives the municipality the power to raise \$25,000 to provide proper school accommodation, to consolidate the debentures for the purpose of raising \$100,000 for improvements; to validate tax sales and to hold the municipal elections on New Year's Day. A short discussion took place over the last clause of the bill, and it was thought that an amendment would have to be made to the Municipal Act, but as this power was extended to North Toronto last year, the clause finally carried. The bill will now come before the legislature.

Mayor Baird said to-night: "I am well pleased at the way the bill was received. I believe it will benefit the town in every way."

Following the period of exceptional activity that has been indulged in by the local police during the past few days comes the news of a happy event having occurred to-night, in which a popular member of the force figures prominently. The occasion was the marriage of Police Constable J. Lavery to Miss Mary Ellen Mantle of 59 East Annet-street. The ceremony was performed by the Rev. J. D. Fitzpatrick at the rectory, 238 Crawford-st., Toronto. The officer and his young bride are extremely popular in town and the happy event caused not a little local interest.

Boys Will Meet Again. Partial arrangements had been made by the Juniors, Shamrocks to hold a

Positive Cure for Deafness.

A large proportion of all cases of impaired hearing and deafness is due to disease of the middle ear and eustachian tubes, caused either by acute inflammation or chronic catarrh. Nearly all these cases can be cured, or the progress of the disease arrested, by inflation of the ears through the nose. It is sure death to the microbial life which maintains the inflamed condition, and also through its healing properties restores the diseased organs to a healthy, normal condition.

It is not mere theory. The result of actual experience proves that ninety-nine cases in one hundred can be cured and stay cured by the use of Catarrhoxone.

Catarrhoxone is a new scientific remedy for all diseases of the nasal and respiratory passages caused by microbial life, and if you are affected with catarrh, asthma or bronchitis, it is well deserving of your attention. You simply breathe the medicated air, it does the rest—nothing can be simpler. Complete outfit, sufficient for two months' treatment, price \$1, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

WORKERS COMMITTEE REPORTED ON THE STONE

ordered at Hagersville and it was decided also to order a trial tone of stone from the Metropolitan Railway at \$18 a ton delivered.

The water, fire and light committee recommended the laying of a water main along the extension of Balliol-street on the initiative. The revision of the present water rates bylaw was also recommended and a bylaw was proposed. The changes proposed in the bylaw are in regard to the hours of sprinkling lawns and the increase of the meter rates from 7 1/2 cents per thousand to 10 cents. The hours of water sprinkling will in future be between 5.30 and 8.30, according to the size of the lawns.

The finance committee recommended a number of accounts for payment. The magistrate's report for the half year was presented and elicited a remark from Councillor Douglas that the town received \$2 only of the \$30 or thereabouts for fines reported.

In connection with the planting of trees as suggested by the Ratepayers' Association G. W. Ellis promised the co-operation of the association with the town, and said that property owners on each street affected by the plan formed as committees to find the number of trees required.

The clerk will call for tenders from nurserymen for trees, and the matter was referred to the board of works.

The Young Men's Club of the Eglinton Methodist and Presbyterian churches will give an entertainment on Thursday evening, March 26, at the Methodist Church, Mr. Jack Murray, mimes; Ozburn Junior string quartet and an address by Mr. Victor Cairns of the Y.M.C.A. Debating Club, with some of the best local talent, will constitute the program.

NEWMARKET

Local Member For North York Gets Great Reception.

NEWMARKET, March 25.—(Special.)—One of the most enthusiastic Conservative smokers ever held in North York was that of to-night in Newmarket town hall. The big building was packed to the doors and hundreds were unable to gain admission. T. H. Brunton was a model chairman, and the appearance of "Herb" Lennox, M.L.A., was the occasion of a great ovation to North York's popular member.

A special car arrived from Toronto shortly before 8 o'clock, bearing Hon. Dr. Pyne, R. R. Gamey, M.L.A.; W. H. Hoyle, M.L.A.; J. Dargavel, M.L.A.; Dr. Jessop, M.L.A.; J. Dargavel, M.L.A.; C. Calder, M.L.A.; Hon. Frank Cochran, M.L.A.; W. R. Smythe, M.L.A.; A. McCowan, M.L.A.; and J. Duff, M.L.A.

All the speeches which were necessarily brief, were received with the greatest enthusiasm. "Jimmy" Fax failed to connect, but two by Mr. R. Mathers, were splendidly given. Duvall's Orchestra of Newmarket furnished excellent music throughout. A special car for the south left shortly after midnight.

LAMBTON MILLS

Conservatives Hold Rousing Meeting, Which Was Largely Attended.

LAMBTON, March 25.—(Special.)—A Conservative "smoker" was held in Bryan's Hall here to-night. The hall was crowded and the enthusiasm unbounded. Dr. Pyne, M.L.A., Dr. Forbes Godfrey, M.L.A., Capt. T. G. Wallace, Dr. Hackett, A. D. Wilson, Wm. Edwards, pres. W.Y.C.A., were the speakers. Dr. Emerson Bell presided.

LIVE STOCK INSURANCE

Live Stock Insurance has so far not received the attention it deserves in Canada, but a company is now being organized which will provide the necessary facilities to the farmer and breeder for protection against death from whatever cause for his live stock. The company to be known as the Ontario Live Stock Insurance Co., has an authorized capital of \$500,000 with head office at 168 East King-street, Toronto. The provisional directors are Hon. Thomas Clarendon, M.P., Toronto; Peter Christie, M.P., Manchester, Ont.; John Bright, Myrtle, Ont.; T. A. Graham, Clarendon, Ont.; Wm. Greenwood Brown, Toronto; Charles C. Van Norman, Toronto; E. C. H. Thibodeau, Beaverton, Ont.; J. Stark, Metropolitan Bank (Market branch), secretary.

VIOLATED BUILDING PERMIT.

Owner, Contractor and Workmen Haled Into Court.

Charles W. Thompson was charged in the afternoon court yesterday with erecting or causing to be erected a building on the Don Esplanade which does not follow the specifications under which the permit was granted. Mr. Thompson said he was with the contractor, who altered the plans. The bylaw, however, makes the owner responsible, and as Magistrate Kingsford took a serious view of the case, he remanded it until Monday, so that Thompson can get a lawyer.

For Adams, the contractor, S. C. Biggs appeared. Adams said that the chimney was a trifle larger than at first intended, and composed instead of fire brick had been used.

The case against the workmen for continuing the work of building when they knew the plans were revoked was also adjourned until Monday.

These men knew of the revocation of the permit, and are liable. "The first of its kind," said Mr. Mackelcan.

"We'll make this a stated case," said Mr. Diggs. "I appear for them, and don't think the city can say when the men should or should not work."

HARVARD EXPELS SON OF NOVELIST.

CAMBRIDGE, Mass., March 25.—Harvard Crawford, a son of F. Marion Crawford, the novelist, has been expelled from Harvard for failure in his studies, and sailed yesterday for his home in Italy. Young Crawford had had an unenviable career at Harvard. For three years he tutored for entrance, only to fail at the examinations. He finally entered last fall.

Receiver For D. U. R.

DETROIT, March 25.—An evening paper says it is asserted in financial and legal circles of the city that the D. U. R. is preparing to go into the hands of a receiver in preparation for reorganization of the company, which will allow it to grant three-cent fares.

STUDHOLME PLEAS AT PARTY'S PROSPECTS

Will Welcome the Independents—Use of Automatic Gun Discussed.

Allan Studholme occupied two hours less six minutes of the night session of yesterday's legislature in what was a considerable improvement on his last speech, and which displayed all the pliancy and a forlorn hope.

For most of the time he was addressing empty seats, as the quorum in the house gathered behind him and left Mr. Meeson a solitary occupant of the treasury benches. He enunciated the labor platform, and contrasted the conflicting statements of the two parties as to the results achieved by the government. He hailed the possible accession of A. Wright and Kelly Evans to the independent ranks.

He attacked the legal talent in the government, of whom he counted four, and thought they should be paid larger salaries to devote their time to government business and not to attending to party politics, as the provincial secretary did. He was going to hold up every man in the government for what he had done amiss and to meet them at the public platforms. He reproached the speakers on the debate.

THE DIFFERENCE.

"Take all the discussions. When you were on the stove, Mr. Kettle, you were blacked than Mr. Pot, who is on the stove to-day." He hoped to see the independent ranks in the house would be just as independent as he was, and would vote for bills on their merits and not according to the government's instructions.

He had worked for electric power and public ownership and no man in Canada was more anxious that the power to the elbow of the minister of power.

He indicted the Salvation Army for bringing mechanics out as farmers and gave instances, and declared that white men would be crowded back to the mountains and the Indians to the British Columbia. The filthy and terrible conditions in Toronto where men and women were herded together, were a sufficient comment on the immigration policy.

USE OF AUTOMATIC GUN.

W. H. Hoyle withdrew his bill which was intended to permit the use of the automatic gun by sportsmen.

E. A. Dunlop said that the way to protect game was to limit the size of the bag, to stop the sale of shot, and to make it impossible to buy shot. He compelled people to use a gun inferior to the one they objected to the bill.

Premier Whitney objected to the bill which was referred to the committee in legislation only recently adopted.

Allan Studholme thought if a mistake had been made the sooner the bill was introduced the better. He did not represent the rich people in Hamilton.

"Why not?" asked the premier. "They are in your constituency."

James Torrance explained that the rich people had declared that he was only elected because there was a strike on.

"My own employer said I was a very good iron moulder, but I could not represent him," proceeded Mr. Studholme when the premier rose again.

"I don't think it is the house I have laughed, but laughed still more when Mr. Studholme acknowledged the courtesy," he remarked.

"I want to finish my story now," and went on with his argument.

Three of Major Craig's bills were withdrawn on the understanding that they be embodied in the minister of education's measures. They were all educational amendments.

W. K. McNaught's bill regarding the sale of liquor was referred on second reading to the provincial board of health, which Mr. Hanna thought might consider it this session.

C. A. Brover withdrew his sheep-worrying dog bill.

NEED GOVERNMENT GRANT.

Victoria Industrial School's Sewage System Held Back.

When Beverley Jones, J. J. Kelso and Chas. Perrier, superintendent of Victoria Industrial School, approached Hon. Mr. Hanna regarding a grant for the institution named, the provincial secretary did not offer them any encouragement, on account of the institution having been the recipient of \$15,000 last year. The interview was reported to the Industrial School Board yesterday, but no discouragement was felt as better results were hoped for in a second interview, preparation to which Dr. Godfrey, M.L.A., has promised to exercise his influence. The main requirement for the school is a new sewage system to cost \$6,500, which cannot be gone ahead with unless an appropriation from the government is received. Other contemplated improvements are: Additions and changes to No. 3 cottage, \$6,000; Renovation and renewal of present barn, \$5,500; A new chime, \$1,100; A telephone exchange, \$700; granolithic sidewalks, \$1,200; outside lavatories, 1,900. Two septic tanks 36 feet x 7 inches, and 4 filtration beds of 49 square feet each are required in the new sewage system.

PARKS ENQUIRY ENDED.

Bookkeeper in Parks Department Contradicts Ex-Commissioner.

The park's inquiry has concluded with the evidence of Sidney Adelard, bookkeeper of the parks department for 15 years, taken at his home, where he is confined by illness. Judge Winchester, counsel, and Mr. Chambers were present.

Mr. delard stated positively that the Stone & Wellington accounts were split to amount to less than \$200, thus avoiding the call for tenders.

MEAT PRICES UP.

CHICAGO, March 25.—J. Ogden Armour, one of the packing trust kings, returned to-day from New York in most optimistic spirits as to the return of prosperity. The price of all kinds of meat began to soar.

Lamb today \$1 a hundred. Mutton and lamb took on an added value of from three to five cents a pound. Pork, cheapest of all meats, and legal circles of the city that the failure to boost pork higher is due to the fact that Chicago has received this winter more hogs than in four years.

EACH TOWNSHIP MAY HAVE RURAL HIGH SCHOOL SOON

Hon. Dr. Pyne Announces the Government's Policy of Public School Extension.

To amend the Public Schools Act; to amend the Department of Education Act, and respecting separate schools, fifth classes and continuation schools were the three bills introduced by Hon. Dr. Pyne in the legislature yesterday.

These bills embody an extension of the government's policy in respect to the public schools. They provide for the organization of separate continuation classes. The policy follows the line endorsed at a conference between trustees and inspectors during the 1907 meeting of the Ontario Educational Association. In future there will be continuation schools and fifth classes, a distinction being drawn between two grades of what were hitherto termed indiscriminately secondary classes. The continuation school (a name applied in England, Germany and elsewhere to work of similar character) will impart instruction in advance of and inclusive of that prescribed for the fifth class of the public school and may employ one, two or three teachers.

The continuation school will be, to all intents and purposes, rural high schools, and, under the new classification, already number over one hundred. The amendment of the government is to develop these schools so that before long there will be one in every township in the province.

The amendment of the government is to develop these schools so that before long there will be one in every township in the province.

The object of supplying teachers having the special qualification in elementary agriculture and horticulture and in workshop training needed in rural schools and in small industrial courses, will be provided at the Ontario Agricultural College, supplemented by the normal school training. Each course will be one of three months and the traveling expenses and board of the candidates will be paid.

The amendment of the government is to develop these schools so that before long there will be one in every township in the province.

Chambers' express orders and witness, on same instructions made out vouchers without seeing invoices.

The pay sheets had never been padded, although the time sheets might have been.

Chambers' evidence previously given was that the splitting of vouchers had probably been done by Mr. Adelard for his own convenience.

Williams' New Restaurant.

The contract for remodeling the restaurant of Albert Williams has been given to Messrs. Sexton & Co. The plans are for a new marble front and vestibule, an antique English grill room, with a large Louis XIV ball room and banquet hall, with a capacity for seating 200 guests, together with several smaller private dining-rooms which, when completed will make one of the most complete restaurants in Toronto. Mr. Williams is sparing no expense and has given Messrs. Sexton & Co. instructions to have everything first-class.

PASTOR RESIGNS.

The resignation of Rev. Alex White, pastor of First Avenue Baptist Church, was presented to the congregation Sunday. It will take effect in May, when he goes to Sault Ste. Marie as a successor to Rev. Dr. Spencer, who has been called to British Columbia.

Killed by Bull.

BELLEVILLE, March 25.—John Atkinson, a farmer living in Percy Township, about four miles north-east of Warkworth, was killed in his barn by a bull.

He went into the stall where the animal was tied to put a ring in its nose. As he went to snap the ring in the bull's nose it crushed him against the side of the stall with such force that fatal internal injuries were caused, and death soon resulted.

ELECTRO-CHEMICAL

Rheumatic Rings

Are Guaranteed to Cure Rheumatism and Neuralgia, also Female Disorders arising from Uric Acid. The Electro-Chemical Ring is not an ignorant claim of faith cure, but a scientific means for the elimination of uric acid from the blood. The secret, the power, the merit in the ring lies in the combination of the various metals of which the ring is made. No matter what the trouble is, if it is caused by excess of uric acid, the Electro-Chemical Ring will effect a cure. Looks just like any other ring, can be worn day and night. We guarantee these rings to do all we claim, or will refund the money. Send size of finger when ordering. Mailed to any address on receipt of \$1.00.
