ECUMENICAL COUNCIL OF METHODIST CHURCH

Will Meet in Toronto Two Years Hence For Fourth Session

In October, 1911, the next ecumenical council of the Methodist churches of the world will be held in Toronto. This was decided upon by the commission of the western section of the Methodist Episcopal Church, now in session at Ocean Grove, N. J., at which Rev. Dr. Carman, Rev. Dr. Briggs, Justice Maclearen and H. H. Fudger are the Canadian representatives.

The conference is held every ten years for the purpose of discussing all problems relating to Methodism and the work of Methodism throughout the world. It receives the statistics of the different Methodist bodies, from which a careful tabulation is made to show the growth every decade.

The conference here will be the fourth, the first having been held in London, the second in Washington and the third in London.

The decision of the central committee to hold the fourth council in the western hemisphere led the commission in session at Ocean Grove, which is really the American sub-committee. Some time later the central committee will parcel out the number of delegates to represent each section, and at the general conference of the Canadian Methodist Church in September, 1910, the Canadian delegates will be appointed.

When the council meets here it will be one of the largest and most representative ever held in the city. Many hundreds of delegates will attend from all over the world, and one result of the sessions may be the ultimate union of various branches of Methodism, such as took place recently among the New Connexion, Free Methodists and others in England.

MAGISTRATE'S OPINION

Will Be Appealed on Ice-Cream Question.

Higher courts will have an opportunity of passing upon Magistrate Kingsford's opinion, twice given, that ice cream is not a food which may be sold in a restaurant on Sunday. J. W. Curry, K.C., will appeal against the conviction of John Liston, West Queen street, and James Mumby, the fines of \$1 and costs were imposed yesterday.

MAGISTERIAL DECREES.

Two years in the Central Prison was the portion of Ernest Campbell in the police court, yesterday morning upon conviction of theft of \$107 collected by him in trust for the 48th Highlanders of which regiment he was a member. This was the last of the first behind the bars. He is only 20 years of age.

Frank Hetherington was put away for the same length of time for theft of brass. Hetherington is an old offender and his sentence was that he should complete an unfinished term at Kingston from which place he was on parole.

Minnie Newall, vagrant, six months in the Mercer, was one more added to the list of street waifs of whom the magistrate is rapidly clearing the public ways and private resorts.

OUTRAGES ON ANIMALS.

Two acts of incredible brutality were perpetrated upon animals in the city on Wednesday. Acid was thrown upon a valuable collie dog owned by K. Huff, 84 Pembroke-street, when he was allowed out for a short time, and the same thing was done to N. Shapiro's horse. No hint as to the doer of the deeds has come to either the owners or the police.

Ingersoll Old Boys.

A large number of Ingersoll Old Boys will attend the reunion to be held in their home town on Aug. 15, 16 and 17. Special rates are being given on the railways for the trip.

Don't Form Impressions

of what "Hop-Tone" tastes like from any other drink you have ever taken. You can't. It's entirely different. The best way to do is to drink "Hop-Tone" and then form your impressions of the other drinks. You'll choose "Hop-Tone" every time.

HOP-TONE

Appeals strongly to your sense of taste, its bitter-sweet flavor making it deliciously cooling and thirst-quenching. If "Hop-Tone" were merely just as good as other drinks we wouldn't say much about it, but—it's better. Perhaps the best thing about it is that it is genuinely helpful to your system. For all ages at all times.

Drinks Only Half as Good Cost No Less. Request Hop-Tone From Your Druggist or Grocer. J. J. McLAUGHLIN, Limited. Fine Ginger Ale, Lemon Drinks, Sodas, Sarsaparilla.

A substantial menu has been prepared for the high tea, and there will be many other attractions. All interested in this deserving work are asked to make it a point to be present.

DEAL FOR HARBOR LOT WILL REMAIN CLOSED

Discovery of Enlarged Area Doesn't Worry Mayor—City Hall Jottings

Mayor Oliver asserts emphatically that the sale of the Cherry-street land to the National Iron Company will not be re-opened. He admits that while the boundaries were correctly stated in the recommendation approved by the city council, there was an error in declaring the area to be 22 acres, the actual extent being 26.55 acres. However, the city's right of way for thru sidings has to be deducted.

The Ontario Jockey Club notified the city that should the course of Eastern-avenue be changed thru any alteration in the location of the septic tanks, the city will be held responsible for damage to the Woodbine property. The city's electrical pumps, for which tenders will shortly be invited, will, with the street lighting, utilize practically all the power which the city has contracted to take from the Hydro-Electric Commission. There will be 18 pumps, costing \$20,000.

City Stands Pat.

The mayor says that the city will not be heated in the establishing of the electric distribution plant unless the Electric Light Company submits a proposition much more reasonable than any of those already brought forward.

Property Commissioner Harris does not think it necessary to advertise the fact when laundry licenses are applied for. He says his department notifies all the residents in the district where a laundry seeks to locate, and they can easily lodge a protest.

The parks department is making herculean efforts to exterminate the tussock moth. Nearly 12,000 trees have been sprayed, and nearly all the \$5000 appropriated has been spent.

NOT HER OWN BOY

Mrs. Edith Cooper Bound Over to Keep the Peace.

For administering summary punishment to George Childs, a neighbor's little son, Mrs. Edith Cooper was bound over for one year by Magistrate Ellis to keep the peace. She was charged with assault and her defence was that young Childs was abusing her little boy.

Isaac Pichard, charged with keeping a vicious dog, said it was always chained up. The complainant was John Fitzgerald, and Constable Carlin explained that if the dog bit Fitzgerald he must have been trespassing on Pichard's property. His worship dismissed the case.

WORSE AND WORSE.

Clouds continue to accumulate about the fair name of Alex Farrowitz. He was arraigned in the police court charged with obtaining money under false pretences. To this was added forgery, and then, by Postoffice Inspector Henderson, another theft of a letter in transit, was added. All arise out of the same set of facts.

In addition to his record printed yesterday, word comes of a ten year sentence imposed in 1901 in New York for which he is now on parole.

Sound Horses in Demand.

During the last fortnight or three weeks Mr. Macdonald has sold from his stable on Cumberland-street 18 head of horses, the majority of them being saddle horses and hunters. Shipments have been made to Montreal, Windsor, Buffalo, Brantford, and as far out as British Columbia. Sound young horses are scarce in Ontario, and the farmer will have plenty of buyers waiting upon him if he has anything to suit the market.

British Firms Outclassed.

MELBOURNE, July 22.—Official papers have been issued, explaining the success by the Commonwealth government of the tender of Pratt & Whitney, an American firm, for the erection of a small arms factory in Australia for the government.

One English tender was \$500,000 as against \$340,000 bid by the Americans, and required three years to build, as compared with the American firm's one year.

Hearse Chauffeur Arrested.

CHICAGO, July 22.—Eugene R. Boden, a chauffeur of an automobile hearse, was arrested for speeding in Michigan-avenue at Gardfield Boulevard yesterday. He was on his way with a body to Oakwood cemetery.

Steamer Brazil Grounded.

AMHERSTBURG, July 22.—The steamer Brazil grounded on Bar Point this afternoon and in trying to release herself broke her crosshead pin. The tugs Harding and Aldrich are towing her to the Great Lakes Shipyard for repairs.

Band in Allan Gardens To-Night.

By permission of Lt.-Col. A. E. Goodenham and officers, the Royal Grenadiers' Band, under the direction of Mr. J. Waldron, will perform the following program in Allan Gardens this evening from 7 to 10: March, Legion of Honor, R. B. Hall; overture, I Puritani Bousquet; fantasia, Dream Pictures, Lumbye; sextet, from "Lucia," Donizetti; scena ed aria, from "Erni Verdi" (soprano, H. Keen); selection, The Gingerbread Man, Sloane; song, "Britannia," Grant and Murray (H. Meade); Venetian melody, Tom Lea Bar; Monte; patrol, The Night Riders; Bellard; descriptive, Down in Tennessee, Knowler; medley, 1909, J. Waldron.

Mrs. Clark Still Unconscious.

For the past 80 hours Mrs. Anne Elizabeth Clark has lain in an unconscious condition at the General Hospital, suffering from apoplexy and brain trouble. She was found unconscious at the corner of Carlton and Sherbourne-streets on July 15. Last night she was reported to be getting weaker. Mrs. Clark is 60 years of age and resides at 192 Carlton-street.

SLOT SALES UNRELIABLE

Often Miss Fire and Rob the Kid of His Copper.

The World has been informed that there are a large number of slot machines in the city and on the Island, which receive money and give up nothing in return. The presumption is that they have accidentally got out of order.

That is generally the excuse offered by the owners or lessees when complaints are made, but the excuse does not alter the fact that people lose money in them to the extent of from 10 to 20 cents on the dollar.

The deputy chief of police advanced the statement recently that there are no by-laws or city regulations providing protection for the public against fraud of that kind, the issue, he held, being entirely between the owner of the machine and the person defrauded, who must institute proceedings if he wishes redress.

Of course the ordinary man would not think of starting a lawsuit for the recovery of a copper, and the children, who are the greatest patrons of the machines, are the greatest losers, not having the means, the owners get away with the coppers.

A representative of The World tested thirteen machines on East Queen-street last evening as an experiment, and found ten machines in order.

One would not even receive money, being apparently plugged full; another worked only after the owner had tussled with it and dropped in several coppers, and the third was strictly out of business. The proprietor blamed his weakness on the wet weather.

CATTAPANI CASE TO-DAY

Said to Be Ill, and May Not Appear in Court.

Prof. Carlo Cattapani, awaiting trial for offences against decency, will be called in police court this morning. The prisoner is in the hospital as the result of a severe attack of nervous prostration and he may not be well enough to appear.

The police are very anxious to have him do so, even though he be only again remanded, as they want to take his picture and measurements to send on to New York to ascertain whether he has any record there.

Among the effects found in Cattapani's tent at Toothpick Point at the Island after his arrest were strange letters from a number of boys, written in a queerly unmanly strain. Two of these were from New York, and spoke guardedly of secret matters.

The New York World of yesterday has this to say of the professor: "The Marquis Carlo Cattapani di Cordova, as he styles himself, has had it in his head to make a fortune. He is believed, than Baron Munchausen ever dreamed of. A few years ago he thrilled newspaper readers—or tried to—by his tale of the deadly plot against his life that led to the finding of his body tied to the tracks of the New York Central at the foot of West One Hundred and Fifteenth-street."

Brantford Horse Wins. GALT, July 22.—(Special.)—Two dogs belonging to Messrs. Pedder and Ferguson of Doon developed rabies, a few days ago and were shot. It is feared a number of other dogs have been bit.

To Such Base Uses. The promoters of the Newmarket canal have not labored in vain. Starting yesterday, the York Radial Railway Company will fill in for a distance of 1600 feet near the town, a space over which rails are now carried by trestle. The bridge work which was constructed in 1906, will be entirely removed. The filling will be accomplished with earth from the canal.
