NEW YORK CURB. New York CURB.

New York, March 19.—Trading on the curb followed its own course and showed no evidences of outside pressure. Oil stocks did particularly well. Boston & Wyoming and Allied Oil were slightly higher. United Texas also displayed strength. The New York Petroleum Exchange says that oil market is steadily improving, one of the most encouraging developments strongly in evidence yesterday was a revival of inquiries and the decided increase in the volume of export business.

PAPER MILL STARTS UP. Cornwall, March 19.—The Toronto Paper Company mill started up this week with three machines on full time, but was compelled to shut down at .ntervals on account of th lowering of the water 'n the canal to permit of work proceeding with the raising of the steamer Britannic. As soon as this is completed the mill will run the full week, instead of four days, as has been done for some weeks.

Record of Saturday's Markets

TORONTO STOCKS

Wall Street buoyancy had some effect upon the Toronto stock market on Saturday, and speculative business was aroused in a few issues. Steel Corporation attracted some following, and the price was advanced to 43. Sugar was stronger, and Brazilian made another small move. Better support was also accorded Toronto Rails, and the insiders in Spanish kiver lent a helping hand to that stock. General Electric was strong, and the market heard that the statement to he presented at the annual meeting would be the best in the history of the company. ket influence was not forthcoming, and Dome ... 1800 1750 most of the hudness was that of the D. General Electric was strong, and the market heard that the statement to be presented at the annual meeting would be the best in the history of the company.

Some of the investment shares were stronger, and there was an improved demand for the bank stocks. With woon-tinuance of a buoyant New York market broader speculation is expected in the active stocks on the Toronto market.

Chicage, March 19.-Liquidation was n today with support lacking and was on today with support lacking and was a responsible for a sharp break in wheat at the finish, which caused other grains to descend. At the close wheat was down 24c to 34c with March \$1.52 to \$1.52% and May \$1.42 to \$1.42%. Corn was off ½c to 1c. Oats were down %c to %c, while lard was higher and pork and ribs lower. Buying against hids was the main factor in checking the ecline in wheat, which started its downward trend early in the session. Crop reports were generally excellent. There were traces of moisture in Oklahoma and Missouri and barometric lines indicated that the whole southwestern wheat belt would get a wetting down over Sunday, the forecast being for unsettled conditions. The market was generally bearish, the bears covering early and enquintering little difficulty in obtaining wheat. After the shorts had completed their covering the market collapsed and finished near the low point.

Corn was quiet. The feature was the buying of July on resting orders, credited to a leading elevator interest.

There was a good trade in oats. Prices, however, averaged slightly lower, because of the decline in other grains.

Strength in hogs was responsible for a firmer provision market, but prices eased off on selling of lard by commission houses. esponsible for a sharp break in wheat

TAKEN OVER IN APRIL

Ottawa, March 19.—In the course of an article on the present railway situation, The Journal suggests that some possible reorganization of the board of directors of the National Railways is under consideration. It also says:

"The arbitration proceedings in the case of the Grand Trunk expire, according to present arrangements, on April 9. Counsel for the railway, however, have applied for an extension of time. The government, it is known, is not inclined to grant an extension. The arbitration proceedings are expensive, and, in addition, their protraction is delaying the task of absorbing the Grand Trunk system and getting the National lines on a process of the Grand Trunk system and getting the Various I lines on a getting the Lard—Tierces, 20c to 21c; tubs, 21½c to

DOME, McINTYRE and HOLLINGER appear attractive purchases at current prices, and with ample power supply expected in April, we believe these dividend - paying issues will quickly advance to much higher prices. Company earnings are about due for a big boost, and buying at once appears wise.
