ADVENTURES OF THE TWINS

By Olive Roberts Barton

THE GIANT'S DINNER TABLE

Nancy and Nick flew across the room.

"My, what lovely flowers!" said spoonful, and you should have heard Mrs. Giant as she sat down to dinner. "Ho, ho! So they are!" declared Mr. Giant as he sat down to dinner. "I thought they were nice, too," specially the roses!" said Polly Giant, and she sat down to dinner. And all the time the Twins were hiding away in the heart of the biggest pink rose, listening to every word that was said, and peeping out curiously through the pink leaves to see what was going on! Just then Mr. Giant took a spoonful of soup. And you should have heard Mrs. Giant as she sat down to dinner.

THE WHOLE FAMILY WAS LAID UP WITH SEVERE COLDS

On the first appearance of a cough or cold our advice to you is to get rid of it before it has a chance to grow worse; gets settled on the lungs, and causes bronchitis, pneumonia or other serious lung troubles. Dr. Wood's Norway Pine Syrup will immediately relieve the cold or cough on its inception. Mrs. David Ayres, Kearney, Ont., writes: "Our whole family was laid up with severe colds, and we didn't seem to be able to get any relief from anything we used until, one day a friend came in and told me we would be sure to get rid of our colds if we used Dr. Wood's Norway Pine Syrup. I decided to take her advice, and in no time our colds were all gone. Now, knowing the value of your remedy, we will always keep it on hand so as to have it in case of emergency." Dr. Wood's Norway Pine Syrup is 35c. a bottle; large family size 60c.; put up only by The T. Milburn Co., Limited, Toronto, Ont.

her place again with Nick's help, and although the three giants watched carefully, not another thing did they see. "I'll put some tobacco water on the rose bushes tomorrow," said Polly. "I meant to do it this morning, but I forgot. That's good for rose-bugs." The Twins shivered. What if she had! But there! I almost forgot to tell you what the Beantalk giant family had for dinner. First they had fifty barrels of bean soup, then they had three fried potatoes; after that they had omelette on toast with ten tons of mashed potatoes, and a dish of stewed corn-stalks big enough to fill a church. Christmas-tree salad came next, followed by enough ice-cream and cake to do a thousand children a thousand years.

But something dreadful happened! Mr. Giant upset the pepper. And instantly the three of them were sneezing their heads off, nearly. It was exactly as though North Wind and West Wind and Old Whizzy Tornado were all blowing at once. So how could you ever expect the Twins to hold on to their hiding places? There wasn't anything much to hold onto anyway, and with three cyclones all coming at them, it was simply impossible to hang on. Nancy and Nick flew across the room and landed right in Mrs. Giant's work basket along with her needles and thread and thimble and tape measure and scissors and everything. Mrs. Giant's thimble was as big as scrubbing bucket, so you may know what an immense affair the basket was. Quite large enough for a wee boy and girl to get lost in.

But they did not get lost. They were going to have another adventure. (To Be Continued)

PULPITS INTERCHANGED.
The Methodist ministers in the city observed their regular monthly interchange of pulpits at the morning service yesterday.

GIRLS' COUNCIL HOLDS DISCUSSION

The Girls' Council held an interesting supper meeting at the Y. W. A. cafeteria on Saturday night. Miss Grace Marshall, the president, was chairman. There was group discussion on the theme of "Honor." One of the members from each group gave a summary of the discussion in the general meeting afterwards. A short service on "Citizenship" was conducted. Miss Gladys Jardine was the leader for a hearty singing during the evening. The next event in the general programme of the C. G. I. T. in St. John is the rally in the Main street Baptist church on Saturday, when the public speaking contest will be held and the girls will compete in giving addresses on Famous Women.

SPEAKS ON TURK IN LOCAL CHURCH

Centenary pulpit was supplied yesterday morning by Rev. James M. Rice, B. A., of Fairville, who spoke on the power of the Gospel of Christ. Mrs. L. M. Curran sang "It Must Be Well." The beautiful flowers at the altar were in memory of the late Rev. William Narrows, who died in 1892, and whose last charge was in Centenary. In the evening Rev. A. E. Knochly gave a vivid picture of the terrible Turk, who massacred many homes murdering the people because they had espoused Christianity. Rev. Mr. Knochly is a Persian and is a minister of the Baptist Church in New Brunswick. He has given up a regular parish to speak for the Armenian Relief Fund of Canada.

CHILDREN'S CONVULSIONS
To the mother who is somewhat weak or nervous from constant family cares and worries, the added burden of a child who is on the verge of sickness or sudden convulsions is almost the last straw before her own breakdown or serious illness. Under certain conditions of home life the mother may not be in contact with the child during the day, or at least a large part of it. She may come home at evening and find the child in the throes of a sudden convulsion, which had been present might have been averted by close observation. Mothers must learn to keep close watch when any such symptoms begin to appear. It often happens that a number of children's diseases are apt to begin with convulsions. You must understand that the convulsions of the child may be said to take the place of an initial or first chill which occurs in the adult. They really come on quite gradually, but on account of lack of observation and careful attention, in many instances, they appear to be of rather sudden occurrence. BIG FERTILIZER CARGO COMING
It Will be Distributed From St. John to Agricultural Societies

The steamship Thomas Halland, it was learned last night, is expected to leave Baltimore today for St. John with the largest cargo of fertilizer chemicals which ever left that port and with the largest which ever entered the harbor of St. John. There are more than 5,000 tons in the shipment, which is being brought to this province by the New Brunswick Agricultural Societies (United). From St. John the fertilizer will be distributed to the various agricultural societies of New Brunswick.

AWAIT PRESBYTERY'S ACTION
Rev. Dr. Hill, of Yarmouth, conducted the services in the First Presbyterian church, West St. John, yesterday. The congregation of the church is awaiting the action of the Presbytery of Miramichi with regard to the call which it has extended to Rev. W. McN. Matthews. The Miramichi Presbytery.

Careless Shampooing Spoils the Hair
If you want to keep your hair looking its best, be careful what you wash it with. Do not use unprepared shampoos or any thing else that contains too much free alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is Mulsified coconut oil shampoo, which is pure and greaseless, and is better than anything else you can use. Two or three teaspoonfuls of Mulsified is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, wavy, and easy to manage. You can get Mulsified coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

Break congestion
Apply Sloan's. You don't have to rub it in. Just pat it on gently. It sends fresh, new blood circulating swiftly through the tissues. Breathing becomes easier. Congestion clears away. Soon the cold is gone. Get a bottle from your druggist today—35 cents.
