

THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, JUNE 5, 1922.

## THE SCHOONER MAUD

Captain Raold Amundsen's exploration ship which is about to start on a journey to the frozen North, carrying food and other equipment to last for seven years. The party on the trip will be in constant communication with the rest of the world by means of a powerful radio set, by which they will report their progress.

## DUBLIN OBSERVES KING'S BIRTHDAY

Dublin, June 4.—Dublin yesterday witnessed a spectacle, omitted for many years past, when 7,000 British troops stationed in the city paraded in Phoenix Park in a revival of the annual observance of the King's birthday. Notwithstanding the number of men on parade, it was declared that only 200 men had been drawn from each battalion and other units, three brigades being represented in the review.

This was the first time a review had been held since 1914. General Sir Neville Macready, commander of the forces in Ireland, was the inspecting officer.

While the parade was in progress machines from the air force detachment manoeuvred above the reviewing grounds.

The Royal Hibernian Pensioners, veterans of the old Irish regiments, some of which have already been disbanded and others soon to be, were accorded places of honor.

God Save the King was played by eighteen massed bands. After the inspection officers and men doffed their caps and cheered repeatedly for King George.

**GAVE CONCERT IN D. S. C. R. HOSPITAL**

The musical comedy players from the Queen square theatre, Marty Dupree and her company, provided a fine sacred concert programme at the Lancaster D. S. C. R. hospital yesterday afternoon and gave the patients a rare and greatly appreciated treat. The manager of the theatre had announced that the company would be glad to give entertainments for local hospitals and similar institutions, and members of one of the G. W. V. A. special committees accordingly asked if concerts could be given at the Lancaster and the East St. John hospitals during the stay of the company in St. John. The committee was assured that the players would be glad to give the concert, while Lancaster hospital was favored in being first, the East St. John hospital is not to be forgotten. Dr. J. A. McCarthy had one of the large wards arranged for the concert party and as many as possible of the patients were there. The keen delight of the members of the audience and their gratitude were easily seen.

**RECITAL IN ST. DAVID'S.**

An organ recital of high merit was given in St. David's church after the evening service last night and was greatly enjoyed by a large audience. Byrnie Currie, the organist was assisted by Mrs. J. M. Barnes, pianist, and Mrs. T. J. Givie, violinist, and the programme given was one well calculated to delight lovers of good music. The numbers were as follows: Pastoral in A major, by Guilmette, piano and organ; Intermezzo by Henry Dunham, organ; chorale in A minor by Caesar Franck, organ; Ave Maria, by Bach, organ; violin, piano and organ; Fantasia, by Clifford Demarest, piano and organ; Prelude in E flat, by Bach, organ.

Dr. J. V. Anglin left on Saturday to attend the annual meeting of the American Psychiatric Association, whose sessions are to be held this year in Quebec city from June 6 to 10.

**PREST-O-PLATES**  
Mean Plenty of "Pep"

THEY are the backbone of Prest-O-Lite Batteries. Better than ordinary plates, they make Prest-O-Lite Batteries better than ordinary batteries.

Prest-O-Plates combine a peculiar porosity with an unusual hardness, which explains their quick delivery of power in cold weather, and great heat-resisting, non-buckling strength in summer.

Prest-O-Lite Batteries are specified by the majority of leading Canadian manufacturers, and this list is growing.

How is your battery working? Is its pulse low? Come around and consult our specialists. We prolong the life of all batteries, and we never tell you that you need a new battery until you do. Drive around and get our friendly expert advice.

## STOPS 50 YEARS' DYSPEPSIA

Mr. James amazed at quick results with Dr. Caldwell's Laxative Syrup Pepsin.

Sufferers from dyspepsia and indigestion often think they can get permanent relief by chewing charcoal tablets, mint lozenges and such things. But constipation usually accompanies dyspepsia and a medicine is required that contains ingredients for both conditions.

Mr. G. James of 6 Norfolk Ave., Galt, Ont., found such a fortunate combination in Dr. Caldwell's Laxative Syrup Pepsin, which gave him relief from 50 years of dyspepsia. With the same remedy Mrs. Ellen Laird of Picton, N. S., now in her 87th year, freed herself from a lifetime of chronic constipation.

This remarkable medicine is a vegetable compound of Egyptian Senna and other simple laxative herbs with pepsin, the greatest of all the digestants. It acts mildly and gently and does not gripe, and hence it is ideal for old people. It is so safe, however, that thousands of mothers give

Mr. G. James, Galt, Ont.

it to babies in arms. Every drug-just sells Dr. Caldwell's Laxative Syrup Pepsin, and a dose will cost you less than a cent. People who once use this medicine never afterwards resort to strong physics, calomel, etc.

**HALF-OUNCE BOTTLE FREE**  
Two bottle combination, as seen if you do not need it, because at this summer, let us send you one of these bottles of Dr. Caldwell's Laxative Syrup Pepsin FREE OF CHARGE so that you will have it to hand in case of need. Simply send your name and address to Dr. W. B. Caldwell, 21 Front St., Bridgeport, Conn. Write me today.

## Great Fire at Bonne Bay, Nfld.

(Canadian Press Despatch.)  
Halifax, N. S., June 4.—The business section of Bonne Bay (Nfld.), was swept by fire which caused a loss of \$250,000, according to advices received in Halifax today.

The following losses were reported: Court house, government store, three stores and residence, S. G. Peck's, customs house, Bank of Nova Scotia, shop and three stores, J. P. Halliburton; residence and two stores, John Roberts; two store each, Stephen Taylor and Thomas Rose; shop and warehouse, T. A. Gardin; shop, J. A. Cohen; store each, W. Roberts and William Wheeler; residence, Charles Read.  
Insurance is estimated at \$125,000.

## URGES POWER TO BEAT DEAR COAL

Ottawa, June 4.—P. M. Draper, secretary-treasurer of the Trades and Labor Congress of Canada, in speaking at a meeting of the Trades and Labor Council on the coal situation not only charged that the price paid by people for coal was excessive, but strongly urged that the government should set up a board of experts to evolve some system whereby the potential electrical power of the country could be converted for domestic purposes and so make Canada independent of anthracite coal imported from the United States.

## NATIONAL CHAPTER I. O. D. E. ELECTS

Vancouver, B. C., June 4.—The national chapter I. O. D. E. faced an election this year as the result of Miss Arnold's announcement that she cannot stand for a third time. At yesterday's session the election was held resulting as follows: President, Mrs. H. E. Doolittle, Toronto; first vice-president, Mrs. H. F. Burkholder, Hamilton; second vice-president, Mrs. Selwyn Holstead, Toronto; third vice-president, Mrs. A. U. Depenier, Vancouver; fourth vice-president, Mrs. Ryrie, fifth vice-president, Mrs. Randolph; sixth vice-president, Mrs. J. D. Hay; secretary, Miss McCallum; treasurer, Mrs. Warren Darling, Toronto; organizing secretary, Mrs. Malcolmson; educational secretary, Miss Constance King, Toronto; Echoes secretary, Mrs. Baker, Toronto; standard bearer, Mrs. McClymont, Quebec; Miss Jean Arnold was made honorary vice-president.

## SPEAKER IN BED

Cleveland, June 4.—Tris Speaker, manager and centre fielder of the Cleveland Americans, has been ordered to bed by the club physician as the result of an attack of bronchitis. The doctor said he would be out of the game several days. Catcher Steve O'Neill is confined to his bed with an attack of influenza and Catcher Numanaker is laid up with a broken finger.

## REPAIRS WILL BE COMPLETED IN SHORT TIME

Accident at Musquash Plant on Friday Evening Causes Break in Wood Stave Pipe.

The Musquash development work has been practically completed, and but for an accident which occurred on Friday the first test of the machinery would have been made this week, Mr. Shepherd, a member of the engineering firm of Mitchell & Mitchell having arrived in the city for that purpose. The accident will not delay the completion of the work very long. Regarding it Mr. Shepherd said last night:

"Early on Friday evening an accident occurred at the ten-foot diameter wood stave pipe at a point where the latter is supported in an earth embankment. While a wood stave pipe of this character is being filled for the first time temporary leakage occurs along the pipe until the wood staves swell or the steel band encircling the pipe are tightened at the points of leakage. As is customary the pipe was being filled slowly through one of the two small filler gates in the large control gate in the intake house at the East Branch dam, an operation which would ordinarily have taken two or three days. During the evening while the small filler gate was being operated a leakage occurred in the control gear which rendered closing of the gate impossible and left the gate partly open. As the gate is some eighteen feet below water level repairs could not be effected immediately and more water than intended leaked through the pipe. The temporary leakage at the fill caused part of the latter to be washed out, thereby allowing the pipe to settle and ultimately break."

"It may be stated that there is practically no loss of material of which the pipe is constructed, and the repairs to the fill and the pipe will be effected in a matter of two to three weeks."

## Amundsen Expedition Gets Away

Seattle, June 4.—The auxiliary power schooner Maud, bearing the Amundsen Polar Basin Scientific expedition sailed from Seattle at 8:40 yesterday afternoon for Nome, Alaska, on the first leg of a five-year voyage through the Arctic ice packs.

Captain Oscar Wisting, sailing master of the Maud, commanded the vessel, Raold Amundsen, chief of the expedition having decided to proceed to Nome by steamer, sailing today.

The United States army tug Mahopac and a flotilla of cruisers from the fleets of the Seattle and Queen City Yacht clubs escorted the Maud up the Puget Sound.

## MENTAL HYGIENE STRONG FACTOR

"The Essential Spirit of Health and Happiness is Mental."

Ascribing the birth of the modern public health movement to the pioneer studies of Louis Pasteur, Dr. James Roberts, Medical Officer of Health for Hamilton, speaking on public health organization at last week's convention of the Ontario Health Officers' Association, said:

"In addition to the control of communicable diseases, supervision of water supplies, sewage, housing and elimination of nuisances, we do not hesitate to include in the category of public health activities such subjects as infant welfare, school hygiene, public health education, industrial, dental hygiene and personal hygiene."

Results in mental hygiene promised more than others. "The essential spirit of health and happiness is mental, and has a future as far beyond that of physical-disease control as the mind of man is the greater objective for which we build the healthy body," he contended.

The present system of health administration, in my opinion, reflects quite characteristically the rapidity of the evolutionary changes in our ideas with respect to the causation of disease and the method of prevention, and, in my opinion, leaves much to be desired," said Dr. Roberts, who wondered if it would be necessary for an educated lay public to point out the way to the medical profession.

The more direct interest of the District Health Officer in the work of the local boards had a stimulating influence on the work of the local officers, and led to the awakening of a keener interest in health matters in very many communities. School inspection was imperfect and industrial was no yet beyond the stage of experimental research.

"In the domain of mental hygiene, problems of delinquency, incorrigibility and criminality are receiving some attention. The question of how to increase the degree of the thrifty and capable and shift from their shoulders the burden of the unenterprising rich and unenterprising poor is still in the novitiate stage," he said.

Most of the difficulties in providing an adequate service, Dr. Roberts attributed to the fact that the unit of administration is too small. Prevention should occupy a more prominent position in the medical profession, and there might be a consolidation of effort and uniformity of purpose among voluntary associations, which might be amalgamated into one effective auxiliary.

**HON. S. E. PINGREE DEAD.**  
Hartford, Vt., June 4.—Hon. Samuel B. Pingree, the oldest surviving governor of Vermont, is dead. He was born in 1852. During the civil war he commanded the Eighth Vermont regiment.

**LENINE STRICKEN?**  
Riga, June 4.—Soviet representatives in Riga said yesterday that they had heard nothing of the report that Premier Lenin of Russia had suffered a stroke. With reference to the report that Maxim Litvinoff and Karl Radek had left Berlin for Moscow immediately upon hearing the news that Lenin was stricken, the Soviet agents declared that Litvinoff passed through Riga Thursday, going to Riga and that Radek passed here Friday en route to Moscow. Lenin has Apoplexy.

Moscow, June 4.—Confirmation was obtained today of the report that Nikolai Lenin, the Bolshevik premier, had suffered an apoplectic stroke. It is declared his condition is serious but that he is improving.

**TCHITCHERIN LEAVES.**  
Genoa, June 4.—M. Tchitcherine, the Russian Bolshevik representative, left here for Moscow yesterday.

## Snowy white without boiling

THAT dull, grey, streaky look that you always had to boil out of your clothes is never there when you use Rinso. It soaks the dirt, softens it, loosens it so thoroughly that it all runs away in the rinsing, leaving the clothes sweet, snowy-white and fresh as new.

It's because Rinso is the new, modern scientific washing preparation that works in an entirely new way. It washes by soaking. It is altogether different from ordinary soaps and washing powders. So, it should be used differently. Do not pour Rinso itself into the tub. Make your Rinso liquid first, as per directions.

**IF YOU USE A WASHING MACHINE**  
Soak your clothes in the Rinso suds as usual—for one hour, two hours, overnight, or whatever time is convenient. Then add more Rinso solution and work the machine. Rinse and dry—you'll have a clean, sweet, snowy-white wash.

**Rinso** Made by the makers of LUX

At All Grocers

**N. B. MEN HONORED BY KING GEORGE**

The Imperial Service Medal has been awarded by King George to Andrew Crozier and Neil Johnson, St. John's, for their services in the war.

Gonzague Boulianne, St. Leonards; John Kean, Campbellton; Alexander Barnett, Joseph E. Evans, Abraham Bell, Martin C. Daly, David S. Geldart, James Gillespie, Joseph Joyce, Phillip C. LeBlanc, Maxime LeBlanc, Julian T. Leger, Donald McKenzie, Albert W. McKewen, Alexander McLeod, George A. Magee, William T. Smith, James T. Sturges, William Union, John C. Weldon and

Thomas W. Woods, all of Moncton; Michael Brophy, Red Pine; John McConnell, Red River; Joseph Mann, Plattsburg; Matthias H. Somers, Berry's Mills; and Charles H. Sterling, South Devon.

The Knox troop of boy scouts held its closing meeting on Friday night, celebrating the occasion with a banquet. The committee in charge of the supper consisted of Mrs. R. M. Legate, Mrs. A. Brown, Mrs. F. Fenimore and Mrs. W. McCallum. Harold Wetmore, the scoutmaster, T. Sturges, James T. Sturges, William Union, John C. Weldon and

**Back of every Eddy match!**

On Canada's first birthday, Eddy's were already 16 years + 1. When the last spike was driven on the Canadian Pacific Railway in 1886, Eddy's had passed their 35th milestone. When Ottawa was still Bytown—seven years before it became Canada's capital—Eddy's were making matches for Canada's total population of 1,850,000 people.

Deep-rooted in Canadian soil before Confederation, Eddy's are more Canadian than the Dominion. The business romance of this great pioneer industry is the history of Upper and Lower Canada for three-quarters of a century—since 1851!

Eddy's have seen the number of match consumers grow from less than 1,850,000 to 9,000,000.

In the great Eddy family of 2,500 loyal Canadian workers are found many who have seen service for over 40 years—from father to son and daughter.

And never a strike since 1851!

With a payroll of over \$2,500,000 a year, the gigantic Eddy plant spreading over 75 acres is now producing 120,000,000 matches a day of superlative quality—equal to 5,143 miles of matches end to end.

This long-continued supremacy is the result of unflinching adherence to the Eddy ideal—the most for the money.

"Eddy's" is the Canadian word for matches!

**EDDY FACTS**  
Eddy matches are packed and counted under Government supervision  
—in 35 styles of various lengths to suit every individual requirement.  
—with various colored heads.  
—in washed tin.  
—from selected, clean, straight grained Canadian white pine, kiln-dried.  
—to stand every strain of striking on any surface.  
—carefully inspected before being packed.  
—every process for making boxes, packing board and printing is done by Eddy's.  
—Eddy's was the first word for matches in 1851.  
—Eddy's is the last word in 1922!
