## LOCAL NEWS

**BIRTHDAY PARTY**  
At the home of Miss Josephine O'Brien, 25 Merritt street, about forty of her friends gathered last evening in honor of her birthday, and a pleasant evening was spent in games and music. Refreshments were served and the party came to a close in the early hours of the morning.

**VETERANS' BUILDING CO.**  
The annual meeting of the shareholders of the War Veterans' Building Co. Ltd., was held this morning in the rooms of the Wellington row, with M. E. Agar, vice-president, in the chair. The report of the president, Mayor Schofield, who was unable to be present, was submitted and adopted. The report of the secretary-treasurer, Geo. L. Warwick, showed that the building was free from debt. The old board of directors, namely, Mayor Schofield, M. E. Agar, F. C. Beattie, R. T. Hayes, M. P. P., and George L. Warwick was re-elected and at their subsequent meeting they elected His Worship the president, Mr. Agar vice-president and Mr. Warwick secretary-treasurer.

**IN FREDERICTON TODAY.**  
Lieut.-General Sir Henry Burstall, accompanied by his aide, Major W. Neilson, Brigadier-General A. H. Macdonell, and Lieut.-Colonel J. B. Sparling, left early this morning for Fredericton, where General Burstall was to inspect the U. N. B. Q. T. C. Fredericton cadet corps, and No. 3 company of the Canadian Machine Gun Brigade. On his return to St. John tomorrow at noon General Burstall will be entertained at luncheon as the guest of His Worship Mayor Schofield, and in the afternoon will inspect the St. John cadet corps. He will address the Canadian Club at a luncheon tomorrow evening, and later will inspect other units at the army. On Thursday he will complete the inspection of the district at Moncton and will proceed from there to Ottawa.

**CHARGED WITH OBSTRUCTION**  
A by-law case in which E. S. Buchanan was charged with obstructing the street railway at the corner of Sydney and Union streets, and also with driving without a proper number plate, was taken up in the police court this morning. John Wood, morman on a West St. John car, said he was coming along Union street on Friday night, at Sydney street when he saw a team driving down the middle of the track followed by an automobile driven by the defendant. He said he stopped the street car to allow the team to turn out but the automobile came within a few feet of the car and stopped. It stayed there a few minutes and then backed up a few feet and stopped in the centre of the track. After about fifteen minutes the automobile turned out and proceeded along its way. Besides the West St. John car there were four Haymarket square cars delayed.

Frank Dixon, conductor, in corroborating the evidence of the morman, said that the defendant had a 1920 number on his car. He said he did not give any reason for obstructing the track. Arthur Allen, a teamster, said he saw the street car stalled and he saw the automobile standing in the centre of the track with ample room on either side to pass the street car. The case was postponed until tomorrow afternoon. H. S. Keith appeared in the interest of the defendant.

## HERE REGARDING NEW C. P. R. BRIDGE

(Continued from page 1)  
Mr. Smith said that he was not to say that in twenty-five years experience there was not a year in which inconvenience and loss were not encountered by the restriction of head room. He said there were two vessels in the harbor which could load above the falls if the change asked for was made, but were restrained from doing so. One consigned to his office had spar height of ninety feet. He said that was the time to remedy the conditions.

**A Concrete Case.**  
Mr. McIntyre said that recently two vessels were constructed with 90-foot masts. He said one of these was loading part of the cargo above the falls before the spurs were put in. Her full cargo will be about 600,000 feet and the loss to the shippers by not being able to load all the cargo above the falls will be about \$1,200. He said that refusal to change the height of the railway bridge would injure the shipping industry here.

Mr. Elkin, replying to Mr. Lafleur, said that a 90-foot track would be the extreme variation of a vessel going through the falls. Mr. Smith said at stake tide the vessel could be absolutely controlled and would go through almost in a straight line.

**Would Mean Subway.**  
Mr. Hare said if the full height was given to the railway bridge a subway would be necessary to obviate the level crossing. An overhead crossing could be put in if the bridge were raised not more than four feet above the present proposed level.

At the request of Mr. Lafleur, Mr. Smith said he would have his tug boat captain at the bridge this afternoon at 2.30 when an inspection would be made. Commissioner Bullock asked on what representation the present height of the bridge was approved.

Mr. Lafleur said there was none. He explained that it was understood that, as the height was 2½ feet more than the old bridge, there would be no objection to it.

**The Legal Aspect.**  
Replying to Dr. Baxter, Mr. Lafleur said there was no notice of the bridge published in local papers as it was a reconstruction.  
Mr. Fairbairn explained that the plan of the C. P. R. was to reconstruct the bridge to give as much head-room without disturbing the road crossings at either end of the bridge. He said he would not have dared suggesting the raising of Douglas avenue three or four feet. It was not until the piers were three-quarters completed that it was learned that the height was not satisfactory to everybody.

The meeting adjourned with the understanding that an inspection of the site would be made at 2.30 this afternoon.

## GORMAN HURT; HE MAY NOT BE ABLE TO RACE

St. John Speed Skater Sends Word to Frank White—His Foot Injured.

Charles Gorman may not be able to skate in the championships. This news which will cause universal regret, came by wire from Gorman to Frank White this morning. The St. John flyer who has been doing such splendid work wired to Mr. White that he had injured his foot and feared that he would not be able to skate. The keenest sympathy will be felt for him, and whether he gets into the last big event or not his fellow citizens will give him a great reception on his return. Word received by Mr. White previously had been that Gorman was improving all the time, and stood a good chance to bring back more honors to St. John. The mishap that has apparently spoiled his chances will be regretted almost as much in Montreal as in St. John, for he has in that city a host of admirers.

## REV. F. T. SNELL DEAD IN HAMPTON

Baptist Minister Had Long Career on Both Sides of Ocean—Once a Printer Where Dickens Labored.

Many friends will regret to hear of the death of Rev. F. T. Snell, which occurred at his home in Hampton, this morning after a lingering illness. He was born in Cornwall, England, on September 26, 1848 and early in life moved to London with his father, who was a contractor. When just a lad he went in a printing establishment in Fleet street, where the famous printing office of Charles Dickens, was once located. After a short time he held a position as a compositor. When a young man he decided to study for the ministry and for four years he edited a small religious paper, known as the King's Messenger. During that time he came under the influence of Rev. C. H. Spurgeon, famous Baptist minister, who sent him to a school of Guernsey where he succeeded in establishing a Baptist church.  
In 1880 Rev. Mr. Snell moved to the United States and was pastor of Baptist churches in Tifton, Georgia, and Augusta, Wisconsin, but he returned to England and did evangelistic work there until 1897 when he returned to America and was pastor of the Ravelock Baptist church Kings county for several years.  
He was called to Aetons, Mass., where he was pastor of the Evangelistic church and the Newton avenue Baptist church until 1905 when he returned to New Brunswick and was pastor of the New-castle Baptist church until called back to Blackville, where he was pastor until 1909. He was called to Alma, Alberta county, and was pastor of the Baptist church there until his health failed in 1914, when he moved to Hampton to make his home.

He passed peacefully away this morning after a long life of usefulness and the news of his death will be received with regret by a large circle of friends in Canada and the United States. Besides his wife he leaves two daughters, Mrs. C. B. Wetmore, Hampton, and Mrs. H. R. Bishop, San Francisco, Cal., and two sons, Frederick W. and Howard E., at home. Funeral will take place on Thursday afternoon at 2.30 from his late residence.

## WHO PINCHED THE MAYOR'S FEDORA?

In these days when retrenchment is the order and a decided stand on one matter and another might mean a feeling of resentment on the part of many citizens against our chief magistrate, there are not many people who entertain any great desire to be in that gentleman's shoes, but there is one citizen who last night went to the other extreme—that is of the mayor's wearing apparel—and walked off with his perfectly good fedora.  
It was after the board of trade banquet that the unintentional exchange was made. After the guests had departed all that was left for the mayor with which to cover his head was a rather ill-fitting hat, which might possibly be the result of a process of elimination as the departing guests found that their particular headgear had disappeared. At all events, the mayor is out the price of a good hat.

**MRS. WIGMORE ENTERTAINS**  
(Ottawa Journal, Saturday.)  
Mrs. R. W. Wigmore entertained at a delightfully informal tea yesterday afternoon in honor of Mrs. Frank Lewis of St. John, N. B. Mrs. F. L. T. Morrell presided at the daintily arranged tea table, prettily centred with daffodils and marigolds, and Mrs. Beverly Sherwood cut the ices. Those assisting were Miss Elsie Sharrin and Miss Hazel McGarvey. Among those invited were Mrs. J. A. Calder, Mrs. Gideon Robertson, Madame S. Shimmin, Miss Helen Boudinot, Mrs. A. H. Anderson, Mrs. Mackenzie, New Westminster, B. C.; Mrs. Wendell Clarke, Mrs. A. N. Marshall, Mrs. R. H. Farrow and Mrs. William Ode and others.

Shirtings and Skirtings. Shown in a white ground with colored stripes. . . . \$1.40 to \$1.75 yard

## TAKE TIME BY THE FORE- LOCK, MR. PROPERTY OWNER!

It is false economy not to protect that building of yours from the destructive action of rain and melting snow and ice, by failing to equip it with the Gutters and Conductors necessary to carry away the flow of water.

Slowly but surely water will eat into and decay whatever wooden portions of the structure are long exposed to its ravages.

Slow up of the process of depreciation and time to have this work done. We shall be pleased to submit quotations on any work you may require.

Now, before the Spring rains set in, is the time to submit quotations on any work you may require.

## OAK HALL

## A Word to those who Contemplate Buying Furniture

—A hat or a suit that will last you one season you would not think of buying unless you had shopped around in a few of your favorite stores.  
—Should not this same rule apply when purchasing furniture—a thing that will last you at least ten years, and in most instances double that time.  
—Furniture is something that you come in contact with every day in your life, and when purchasing it, careful thought and consideration is essential.  
Those who contemplate the purchase of home furnishings in the reasonable future may therefore be safely assured that now is the opportune time to buy.

The fact that Everett puts so much care and thought into all its selections, and presents such unusual and superior home furnishings has perhaps been construed by you as an indication of high prices.

It is not necessary, however, for you to make a personal comparison of values to convince yourself that you can actually save money by buying at Everett's. The fact is that this store marks all its merchandise in the first place at the lowest price for which it can consistently be sold, and with no anticipation of future reductions.
