86 Pages of Personal Advice
Free to Any Man

MY DEAR READER:
In the handsomely printed little book or private pocket compendium for men (containing 8,000 words and 40 half-tone photo-reproductions) which I publish and gladly forward by mail, free, sealed to any man anywhere in the world who sends me the coupon below. I have included certain parts that contain some very important advice or suggestions of a strictly private nature which, I believe, cannot be found in any of the Private Hygienic books for men that are now sold at high prices all over the country. It will thus be seen I have endeavored, through the medium of my free book, to give my readers absolutely free of cost really MORE, in some respects, than others offer and make a large charge for. All you have to do to get this free book of mine is to use the coupon below, or if in my neighborhood, I extend an invitation to you to call at my office, and see my mechanical VITALIZERS (described below), but that really with yourself. Over a million of these little free books have now been sent to men who wrote for them, as I want you to do, and who live in all quarters of the globe. I publish this free book in English, Swedish, Danish, Finnish, German, French and Polish, but I always send the English edition, of course, unless otherwise instructed. Kindly use the little coupon.

SANDEN, AUTHOR.
In reference to manly strength, I believe it is now more generally acknowledged than ever before that the manly man stands back of all achievement in the world, a truth which any of us can easily verify if we but look about us with impartial eyes.
As a matter of fact, the man who is debilitated, unstrung and enervated cannot, for perfectly obvious reasons, expect to approach those real and masterful attainments which seem but a natural and easy accomplishment for him whose nerve, force, brain power and many strengths are perfectly normal. Hence, while we acknowledge the debilitated, weakened man to be handicapped in every walk of life where real manhood counts, yet it would indeed be cruel of me to here so state the fact in public print were I not of the honest opinion that there is every hope for the unmanly man to restore himself to a state of health and vigor, if he but clear his mind of abnormal fears, and then make a fair, square effort to redeem himself.
There are two specimens of humanity for which I have no earthly use. One is the man who, though now strong and vital, yet plunges into disease.

WHAT THE FREE BOOK TEACHES YOU
The little free illustrated book of special private instruction referred to above, is meant really to be a self guide for all men through the years before and after marriage and onward to a ripe old age. It is written in perfectly plain language, entirely free from technical terms, so that any one may easily grasp the full power of its good advice from two or three careful readings. It attempts to point out a safe road to new manhood, or new manly strength, and as such is dedicated to mankind generally. One part of this book fully describes my little VITALIZER referred to above.

FURTHER AID FOR VALLEY RAILWAY

Provincial Government Admits Request Has Been Made For Additional Bond Guarantees—Questions by Opposition Member Are Evaded

Fredrickton, March 24.—The statement that the St. John and Quebec Railway Company is seeking additional aid from the provincial government in the form of an extra guarantee of bonds to the amount of \$10,000 per mile was officially confirmed for the first time in the House today in reply to queries by Mr. Dugal.

The government's replies contained the information that this request had been made; that statements had been submitted monthly by inspecting engineers; that the expenditures have been checked by a chartered accountant, up to December 31, 1913; that bonds have been sold covering 170 miles; that three sections from Gagetown to Centerville are under construction; that \$225,000 has been retained by the government as an interest fund to protect the province against any shortage after the road is in operation and that security has been provided by the company for the bonds during the period of construction.

The government did not tell what estimates the engineers have furnished or what amount has been paid the contracting company on account of work done.

No detailed survey has been made of the route between the Mistake and Westfield or between Westfield and St. John or for a bridge crossing the St. John harbor or for a right of way.

The government ignored Mr. Dugal's question whether the members were aware of the statement made by Hon. H. F. McLeod, a former colleague, in the House of Commons, that the items which entered into the construction of the Southampton railway "had to be taken and not true or correct," saying that the items were not furnished to the government and that they had no information regarding the details.

The question as to whether the government proposed to investigate the serious charges by Mr. McLeod in the House of Commons was evaded by saying it was answered by the above statement.

Further information gleaned from Mr. Dugal's inquiries was that the most serious general had been paid \$2,955.18 for collecting succession duties between the date of the fiscal year to the date of his retirement. He was paid \$3,030.28 during the fiscal year for similar work.

Gus Miller, a traveling man, paused to watch a small colored youth, who stood on one foot, dressed in a woolly head far to one side, and pounded vigorously on his skull with the palm of his right hand.

"Hello, kid," grinned the drummer, whose memory was carried back to his school days. "What are you doing?"

"Got watah in mah can," announced the boy.
"O-h," laughed the drummer, "I know just how that is. I often have felt like that after being in swimming."

"Swimming?" sniffed the youth, excited, disdaintfully. "Ah, been cat-in' watahmillum."—Happer's Magazine.

Weak Men, Read!

Just What You Need—Try This Cure
It is no longer an experiment. It is hailed by thousands with loud praise because it cured them. "It cured me, I am well and strong as ever. What more could one ask?" writes a man with a heart full of gratitude.
Do not be in error. This grand appliance is like no other. It is new. It has all the good points that are known in electricity, it gives a powerful current, but does not burn or blister, because my special cushion electrodes make the current a warm, gentle glow which exhilarates and relieves at once.

Dr. McLaughlin's Electric Belt
has made thousands of homes happy. It is as good for women as for men. Man and wife can use the same Belt. The regulator makes it strong or mild to suit the wearer. It is the only Electric Belt in the world that can be regulated while on the body. You feel the power, but it does not burn and blister, as do the old style bare metal electrode belts. If you are weak or in pain it will cure you. Will you try it?
Dear Sir,—Excuse me for not writing to you before, as I have been away from home. Your Belt has done me more good than all the drugs I have taken. I would not have lived much longer if I had not got it when I did. I just received it in the nick of time. It did me good from the start to the present and has, I believe, cured me of my ailments. It was a God-send to me.
