

THE
EIGHTH ANNUAL REPORT
OF THE
FRESH-AIR FUND
COMMITTEE,
MONTREAL, 1894.

TO THE SUBSCRIBERS AND FRIENDS :—

Another season's work has come to a close ; and, in presenting this Report, we would thank all our friends and well-wishers for the kindly support which we have hitherto experienced at their hands, and which we hope will be as freely continued during the coming season of 1895.

A meeting to organize the Committee for the season of 1894 was held on 15th of May, and the following officers were elected :—

Chairman, . . .	MR. J. M. M. DUFF.
Vice-Chairman, .	REV. JAS. PATTERSON.
Hon.-Treasurer, .	MR. CHAS. ALEXANDER.
Secretary, . . .	MR. J. F. CUNNINGHAM.

Dr. L. F. MacKenzie was appointed Chief Medical Officer (in the city), his duties being to inspect the homes of applicants for admission to the Fresh-Air Home at Chambly, and to report upon the condition of their health, to the Inmates Sub-Committee.

Miss Ryan was appointed Matron in charge of the Home at Chambly, and, although this was the first year that Miss Ryan worked in connection with the Fresh-Air Fund, we hope it may not by any means be the last, for her duties were performed very satisfactorily throughout the season.

Mr. Wm. Oliver, B.A., a fourth year medical student of McGill University, was Medical Superintendent at Chambly, and deserves our special thanks for his unremitting care and attention to the wants of all who came within the sphere of his duties.
