ATTENDING PHYSICIANS'
REPORT.*To the Board of Management of the Pro-
testant House of Industry and Refuge.*

GENTLEMEN,—The year just closed has been one remarkably free from any outbreak of disease affecting the old people. The demands upon the medical staff have in consequence been considerably less than in some former years. Owing, however, largely to the number of incurables sent to the Moore Home, the mortality is above the average, as most of those cases are received when their ailment is very far advanced.

Between the three institutions thirty-four deaths took place during the year, viz. :—

In the Moore Home.....	14
“ Country House.....	8
“ City Refuge.....	4
Sent to the General Hospital	6
“ Royal Victoria Hospital	2
	<hr/> 34

The ages ranged all the way from 101 to 23 years; the average being within a unit of 70 years.

We have no suggestions to make, as the management usually anticipate our wishes as to ventilation and all the detail that tends to make the different institutions fresh and wholesome.

JOHN T. FINNIE, M.D.,
H. D. HAMILTON, M.D.,
AND. MACPAIL, M.D.,
FRED. G. FINLEY, M.D.,
F. E. THOMPSON, M.D.
