

WOMAN AND HOME.

A WOMAN WHO EARNS HER LIVING BY WORKING AS AN ENGINEER.

Industry and Childhood—Affection in the Home Circle—European Women—Woman's Weekly Task—Cleaning a Carpeted Room—Cooking Small Fish.

Mrs. Annie Shastan of Tulare claims to be the only woman engineer in California and is proud of the distinction.

She has been running the engine for the planing mill at Mountain Home, in Tulare county, for over a year, and she likes her work, although a great deal of it is of the roughest kind.

Mountain Home is a hamlet that exists upon account of the planing mill, but nothing else, and the people there are of the rough, sturdy sort.

"We never had so many here that runs an engine like she does," said one of the men.

"It never stops a minute during the day and always goes as smooth and steady as one of them eight day clocks."

It is over three years since Mrs. Shastan and her husband arrived at Mountain Home. They came from the east, where the husband had charge of the motive power of a big flour mill and a big saw.

But his health broke down, and so they came to Mountain Home, where he took charge of the engine in the planing mill. For a time he improved in health, but

"We never had so many here that runs an engine like she does," said one of the men.
