KINGS COUNTY.

While the opposition to the provincia government cannot claim to have wor the fight in Kings County, yet they have gained a notable victory. It is perfectly fair to make a compariso between the contest which ended on Saturday and that of September, 1900. It is true that Mr. King is not Dr. Pugsley, but Mr. King added the full weight of Dr. Pugsley's approval and influence to his own personal strength as a candidate. In September, 1900. Dr. Pugsley had a majority of 829 ove Mr. Sproul. Mr. King's majority over Mr. Sproul is about 100. And this de spite the fact that Dr. Pugsley has had a year and a half to impress upon the people the greatness and goodness of the government of which he is a member. The result proves that there has een a tremendous revulsion of feeling in Kings county, that it has been and is growing, and that it had almost

reached such proportions last week as

to overcome every influence and elect

an opposition candidate.

The influences to be overcome wer certainly great. As there was a contest in but one county, the governmen was able to concentrate its persuasive efforts, and pour out money and promises and threats with a liberal hand since September, 1900, so great a change has come over the minds of the people of Kings, the result on Saturday can only be regarded as ominou for the government, and an indication that by the time the general elections are brought on its majority in the county will have entirely melted away. Those ardent supporters of the govern ment who have laughed at the sugges tion of defeat, and refused to regard Mr. Sproul's campaign seriously, will now have cause for a little hear searching, to learn the cause of their waning power.

The members of the opposition party throughout the province will be greatly eartened by the change in sentimen which is shown in Kings county. Nov is the time to sound a general note of preparation for the elections which must come during the next year. The splendid organization in Kings should be imitated in every county, and the ranks closed up for a victorious campaign. The government, startled and aroused by the notice served on Saturday, will exert every influence know resourceful politicians long entrenched in power, to stem the tide of popular disfavor. It must be met by an alert, vigorous and united opposi-The latter has in Mr. Hazen an able and universally respected leader and it has behind it the aroused sentiment of a public that has grown rest less and dissatisfied under an administration which is both extravagant and corrupt.

To Mr. Fred M. Sproul the failure to secure his election on Saturday was by no means a disaster. The result was in a sense disappointing, yet the magnificen vote rolled up for him in face of such great odds, and the certainty of victory in the coming general elections mus be intensely gratifying to him as well as to his friends. Without the aid of money or those insidious influences which an artful member of an artful government knows so well how to exert to advantage, Mr. Sproul received such a vote as declares beyond question that he has the confidence and support of the unpurchaseable majority of the people of Kings county. Take away from Mr. King the votes that were se cured for him through influences apar from the merits of the candidates and the parties, and his victory would be onverted into a disastrous defeat Therefore Mr. Sproul is to be congrat ulated. When he went into the fight two years ago, it was not against a veak man, nor was it with a strong party organization at his back. challenge was to no less doughty a champion than the attorney general mself. From that hour he has borne himself with dignity and prudence, and justified the confidence of his friends. As manfully as he bore the first de feat he will bear the result of Satur vote; knowing perfectly well that his hour of triumph is but post-poned. The cause he represents is the cause of the people.

The great change in Kings is the more significant because of the near-ness of the general election. The government could not afford to lose th county, because of the effect that would have on the general contest. There-fore every effort was exerted. Yet, in spite of this and of the advantage afforded the party in power by an open ballot, the government majority was cut down from 829 to about 100. Even Dr. Pugsley's prospectus and his letter to the Telegraph on Saturday failed to stem the tide. He and his colleagues have been given notice to quit

PRISON LABOR ON ROADS.

PRISON LABOR ON ROADS.

RIVERHEAD, L. I., March 1.—The Suffolk County Board of Supervisors at a meeting held here yesterday afternoon, adopted a resolution authorizing the sheriff of the county to furnish prison labor to highway overseers of the county and to such other overseers as will furnish the necessary cost and expense of the safe custody of the prisoners while at work. It is the intention of the supervisors to make all the prisoners work at something all the time in order to keep down the number of tramps who seek the jall as a comfortable harbor. It was stated by the members of the board that there will be a lively demand for prison labor on the roads, and that this scheme will have a double benefit—that while it will provide work for the prisoners it will also furnish cheap labor on the roads.

The title to the land that the county

will also furnish cheap labor on the roads.

The title to the land that the county has contracted to buy in this place for the purpose of using the prisoners in the raising of cranberries, will pass in a few days. A resolution was passed authorizing the county treasurer to pay for the same as soon as the title should be approved. Prisoners will be set to work at once in clearing and grading this property. The land that will be bought is between Sawmill Brook and the river, in the eastern part of Riverhead.

THE TELEGRAPH'S METHODS. (Moncton Times.)

(Moncton Times.)

The St. John Star describes the means that are taken by a government, newspaper in that city to swell its list of subscribers, especially among government employes. The same thing has been done in Moncton, where rallway employes have been approached in a way that amounted to a threat. We believe it was Mr. Blair's organizer for this province who first set an example of this kind by sending circulars to liberals, or those having connection with government work, advising them to stop their subscriptions to Conservative newspapers. This is not only travelling beyond legitimate business methods, but is a species of coercion of which any body of men should be heartily ashamed. We don't think the like was ever before known in this or any other country, yet some papers party thereto are not ashamed to boast of their increased circulation.

OTTAWA, March 2.—Hon. Mr. Fitz-patrick's bill respecting telegraph and telephone companies will probably be introduced tomorrow. It will contain a number of clauses similar to those in the bill introduced by W. F. Maclean. Besides regulation of tolle by the railway committee, already notice.

lean. Besides regulation of tolls by the railway committee, already noticed, the bill will apply to telegraph as well as telephone companies, and there will be provision that the companies tariff is to be posted up in a public place and there are to be no secret or special rates. No provision will be made for the one by one company of the line or service of another, and there are no special provisions as to order of service. Preferential measurements will be prohibited.

THREE PERISHED.

READING, Pa., March 2.—A terrific explosion occurred tonight in the four-story music store occupied by C. M. Lichty. The building at once completely collapsed. This was followed by the three-story brick umbrella factory adjoining. Both buildings and contents were destroyed. A number of persons were in the building, but they were all accounted for except a Mrs. Rolland and a friend who called to spend the evening, and the watchman in the Lichty building, lt is believed these three persons perished.

MURDER AND SUICIDE.

DETROIT, Mich., March 2.-Disappointment, jealousy and love, accenti-ated by a beer-befuddled brain, last night caused Peter Perry to shoot his former employer, Mrs. Sarah Tillman, whose love and liquor business he cov-eted. He then turned the revolver upon himself. Both died within a few minutes.

CK'S NEW JAIL.

WOODSTOCK, March 2.—The new jail was formally taken over from the contractors by the jail committee, consiting of Warden Saunders and Councillors McDonald and Hay, on Saturday afternoon. The sheriff will enter into his duties at once, and the prisoners now at Upper Woodstock will be brought down tomorrow.

WARREN, Obio, March 2.— Hon. Henry Bishop Perkins, one of Obio's most prominent and philanthropic citizens, killed himself by hanging today, in his office adjoining his bome in this city. The body was found shortly before noon by a member of his family.

family.

Illness and the suicide of a favorite son, a Yale graduate, a year ago, is believed to have made Mr. Perkins temporarily insane.

Mr. Perkins was born in Warren and spent his life here. He was president of the First National Bank of Warren, and also prominent in railroad and state affairs. He was said to be worth several millions of dollars.

WINNIPEG, March 2.—The Manitoba legislature was formally prorogued on Saturday afternoon by Lieut. Governor McMillan. The bill granting Winnipeg a special city charter was rushed through, and ratified at the last mo-ment.

sturday afternoon, is a fitting tribute to a
corthy lady. The promoters of the movedent ware the ladles of the Church of Engand Institute, the Women's Council and the
belectic Reading Club. The plan was made
by Architect G. E. Fairweather and everyhing has been carried out in a satisfactory
say. The room itself is of an irregular
hape, longer than wide, occupying a good
cosition on the second floor. It is lighted
by three large windows, which have been
easted with permesent double sashes and
hang with double roller blinds of dark green
inen. The arrangement of the double sash
mables the room to be perfectly ventilated
without danger of draughts. The floor is of
polished hard wood. The walls and ceilings are of enamelied blue white paint, the
sating finish being obtained from four applications of paint and a final coating of the
enamel. From the floor upward to about
a third of their height the walls are finished in white and cream tiles, the darker
shade lending a pleasant note of color to the
room; the whole surface can readily be
cleaned and affords, too, no opportunity for
the ail prevailing microbe. Indeed, sanitation has governed the construction of the
entire ward. "Asceptic fittings" is the term

HE QUESTION OF THE BEST BREAD

Was always open to argument until Hieatt's Hyglenic bread won the approval of all good housekeepers. It's enviable reputation has been attained by careful and uniform care in its making, selected flour only being used, and skill, guided by experience, exercised in its baking. reported. Next to that came November 6, November 15 and December 4, on each of which days five new patients were added to the list. During the week beginning Nov 7 twenty-seven cases were reported, being the greatest number in any week during the epidemic. The disease throughout progressed in jumps, there being even in the most dangerous months intervals of nearly a week without any developments, generally followed by anvelopments, generally followed by other recurrence of several cases

gether.

Although the effect of the epidemic upon business has been scarcely felt since the first of the year, every citizen will breath easier in the knowledge that the last trace of the dread disease has vanished and that—barring its introduction from some outside source—further developments are highly improbable.
