VARDE 113 वर्ग वर्ग वर्ग वर्ग वर्ग करिया Every woman has times when she feels dazed, tired out, almost lifeless, when her work, which she usually contemplates with pleasure, seems almost past her strength.

Are you that woman sometimes? Do you realize that it is ninety times out of a hundred caused from just common, but dangerous constipation?

Mother Nature says, "I have given you a mouth and a stomach to receive food and send its strengthening parts through your system. I have given you bowels to discard the useless parts of that food and keep your system clean. I will do the best I can out of whatever food you give me. But unless the bowels are kept regular, I cannot prevent the poisoning of your whole system." whole system."

Laxa-Cara Tablets will do for you just what Nature asks. They will correct your clogged bowels; will put them on the road to regularity and health; will not strain or abuse them; will in a short time work a permanent cure and insure you permanently against constipation.

If you are taking nothing now, you ought to. If you are taking something already and feel pretty well suited with it, you won't feel that way if you try Laxa-Cara Tablets once. cents per hox at your druggists', or by mail postpaid on receipt of price. FRANK WHEATON FOLLY VILLAGE, N. S. SOLE AGENT FOR CANADA HARVEST HANDS. How are we to get them? These are CANADA EIGHTH

the questions. The provincial government and the C. P. R. are taking the same methods as were practised in All Manitoba Talking About past years to advertise our wants. They have wisely arranged for two different Help for Farming. excursions, one during the week com-mencing Aug. 18th, the other the week

for All Who Will Hie to the Prairies

shall only mention a few, and those

only in connection with the question

under discussion, that it hired help:

The first is straw; 3,000,000 acres un-

for we have a heavy crop. This gives a total of 6,000,000 tons of straw for

feeding purposes. It is estimated that

we have about 150,000 horses in Mani-toba, 300,000 cattle and 25,000 sheep.

The horses are mostly fed on hay and

grain, as are many of the cows and

sheep. But for computation, combine

dattle and sheep; total, 325,000, for which there is 6,000,000 tons of straw.

Allowing even three tons for each ani-

mal, big and little, we should have

enough feed in the province, when

supplemented by screenings and some

hay, corn or feed cut green, of which

there is generally an extra supply for

calves and cows in the early spring, to feed 2,000,000 head of cattle and

sheep, or almost seven times the number which we now have. Here is where

the hired help would come in. The

extra help required to take care of

this stock and draw the manure on to the fields would approach the 20,000 which we are now asking for. Would

it pay farmers to keep the stock and

hire men to feed them? Yes, certain-

Good Wages and Plenty of Work than 10,000 men come on the first excursions, an extra effort should be put commencing September 8th. If less forth to get the full number of 20,000 in all by the last excursions. I do not know how the plan of locating men this year will succeed. The responsibility is placed upon farmers to (Winnipeg Telegram.) send delegates to Winnipeg to engage The whole province is talking about the men. This is to prevent conges help for harvesting. Past experience tion at any one point. There was some has not yet changed our methods of grumbling and kicking last year. Could has not yet changed our methods of any sane man expect it to be otherwise in placing 20,000 men? I venture to help all the year mound to enable us to take off our crops, without extra help for a few months at this season of the were made by less than half of one year. The change can only take place also venture to say that there will be, value of the whole, \$19,534,490. gradually. Our large farm areas and with all the care possible taken, some grumbling this year. Farmers in some the possibility of a small force of men with sufficient horse power and with our improved machinery, to put in, or seed, more land than the same force can harvest, is the root of the trouble. The crop is put in and we take chances of securing the extra men in harvest time. Last year we were very anxious but the men came from the east and we were tided over another year. This year finds us just where we were at year finds us just where we were at two weeks, and there were nice ripenthis time last year. We have the proing showers in many parts of the mise of a great crop, and we want 20,province. Some fear was felt that we Will they come is the queswere getting dangerously near the frost line, but that passed, and since tion of the day. If sufficient do come there will be a scramble for those who Monday evening we have had a warm do come. It is hardly possible to imagwave, which is again hurrying on the ine that this supply of men will con-

crops to maturity. We are all anxious that just such weather should continue from year to year, and yet, if we do not change our methods of farming tinue until the grain is cut. the demand will increase from year to Work.-Fields here and there all year as the country becomes occupied and cultivated. Stock raising, the wisover the province are being cut and stocked. Considerable barley is in stock, and oats, as well as wheat fields, are being trimmed down. Next est kind of farming, is the only solu-tion of the question. Commodious barns for stabling stock and more week there will be a good start made. roomy houses for our men are first reand the following week, commencing quired. These are coming rapidly. One sharp lesson of not securing the August the 25th, the rush will he on. Hands are scarce and good men are men required should force farmers to make different arrangements. It is quickly picked up at \$40 a month. This is likely to be the prevailing figure during cutting and stooking. Threshwell known, even now, that the most prospenous farmers in Manitoba are ing gangs will likely get more when those who engage extensively in stock machines start. It pays to have a raising. It is well known that in all full gang of the best that can be got great manufacturing industries the profits are made really out of the proto man a machine. It is a great mis-take to try and run our harvest as per use of waste products, or what was short-handed as possible. Something is at one time considered waste. Take, for instance, the meat packing indussure to he neglected that makes trouble and often direct loss. An extra man tries. If only the meat and hides were to change teams on binder, keep saved, ruin would quickly follow. Every portion of the animal from the stooking up close, see that cows are attended to regularly, and all chores the horns to the long done, as well as having everything hair of the tails is converted into handy for the farmer's wife, is well some by-product that is sold for cash. worth the going wages of the best In this, as I have already stated, the of them. This is the help that gives profits of the industry depend. How life and vim to all the work, for the with our farming industry today in driver on binder knows that he may Manitoba? I am almost afraid to enustay with his work until dark, his stables are ready for horses, mangers merate the wastes on our farms. I full, and a man ready to help rub horses down, etc. The stookers know that the last sheaf put up, finishes their work for the day; their muscles relax; der crop of all kinds, which will give the walk home leisurely from the field at least two tons of straw per acre, is a rest. With the farmer's wife, who has so much to do, the wood box never empty, the potatoes are dug and prepared for dinner; there is always water at hand and a hand to help with the cows. Fortunate is the farmer who can attende to this part of the

MORE WEST INDIA BOATS.

s to Jamaica Line -Through Service From China Proposed.

The Canada-Jamaica Steamship Line running direct from St. John has proved so satisfactory a venture to the company premoting it that in about a month amother boat will be added to the service and when the banana season opens next spring, one or two more will be put on.

At present there is only one running

the Bauta, which runs to and from Jamaica direct with no intermediate stops except at Halifax. On her return trip she brings large quantities of bananas and oranges, but on the downward voyages the cargoes usually have been small, consisting chiefly of fish taken in at Halifax. When the additional boat, the Ask, goes on the
