LIVE LIFE

EMPIRE PRAISES CONNOLLY

Some ten or twelve years ago the local ring followers pointed with pride at the excellent fighting qualities of Eddie Connolly the North End boy who was one of the best ever turned out of the province, and who, after he left his native city climbed so fast that he was soon fighting with the top notchers in his class. But like the rest of the fighters Connolly could not last forever and when he struck the down grade in the fighting line he went fast.

Although Eddie is a has been as a glove artist, his many game battles will be remembered as he was a two-handed clever boxer and as game as they make them.

Connolly has a great admirer in the local ring, the Boston American sportsman, Empire Tommy Connolly, as the following article in the Boston American shows:

Empire Tommy Connolly is quite a connoisseur on boxing, and he enjoys a good bout almost as well as he does a red-hot battle on the diamond. Speaking about pugilists, Connolly said: "Of the great gladiators I have ever seen in action I believe I liked Eddie Connolly about as well as any of them. He was the fastest and most graceful of any I have seen, and I can recall having seen any who to my notion was more thrilling."

He was a fighter of most deceptive appearance for he showed no muscular development than the average school girl. But that boy could hit a terrific smash with either hand, and he had an uppercut that started from the floor, and woe was his who received one of those jolts on the point of the jaw, Eddie would have been light-weight champion had he mastered the art of change of pace, for he fought too rapidly and kept up the same killing pace every instant he was in action.

He gave Kid Lavigne an awful lacing for nine or ten rounds, but the Swede was a glutton for taking it, and Eddie tired from his own furious efforts and collapsed when Lavigne got him with a terrific hard body blow in the eleventh round."

The valuable farm, mills and extensive lumber lands known as the Hazen stored before cure can possibly be effected.

In many cases neuralgia is easily curable by the use of Dr. Chase's Nerve Food. The patient is thin and bloodless and needs tonic treatment to form new, rich blood.

The application of Ointment wrapped from hot water will afford relief from the suffering, and the regular use of Dr. Chase's Nerve Food for a few weeks will completely overcome the neuralgic condition.

Powerful drugs are to be avoided because of their injurious effect in further weakening the nervous system. The Nerve Food cures by building up the feeble, wasted nerve cells, and for this reason is of lasting benefit.

Neuralgic Condition of the Nerves

In this age of nervous disorders neuralgia is fearfully common. The first thought is of neuralgia in the head or splitting headache, but neuralgia may affect any part of the body in which there are sensitive nerves.

The teeth are often blamed and extracted in error, when the cause of the trouble is in the impoverished condition of the blood, and the starved nervous system.

While neuralgic pains are usually sharp and shooting, and consequently difficult to locate, the seat of trouble is usually sore and tender under pressure.

Neuralgia is pain, and as such is the symptom of a disease—nervous exhaustion. The nerves must be re-

MONTREAL RELIGIOUS STATISTICS.

Montreal, May 30.—While 70,000 Montrealers do not go to church, there are only a dozen infidels in the city, and very few in the suburbs, other than the orthodox denominations, according to figures made public today by the Montreal Home Visitation Committee. It is a fact, it is said, in a whirlwind religious census, visited eighty-two per cent of the city's homes, representing 400,000 people of which some have done duty in "Ben Hur," will be a sensational feature of the festival. Seats will be provided for 200,000.

TO REVIVE THE SPORTS IN EUROPE

New York, May 29.—Kristian Hellstrom, secretary of the Swedish Olympic committee, has written a letter to a friend in this city that Sweden will be represented by a team of athletes at the Panama-Pacific Exposition in 1915.

The Swedes will travel to San Francisco via New York and make stops at the principal ports of the Atlantic and the Pacific. Hellstrom suggests that there might be a sort of international meet in New York before the Swedes start West. The plan now is to bring about a dozen of the best men, that is, the ones only with a chance to make a showing.

Mr. Porenstrom, who is mentioned in Eric Lemming, holder of the world's record for throwing the javelin; Wild, holder of the Swedish record in the mile run, and Lindberg, the record sprinter, are also spoken of as likely to come.
