

## BATHURST MAY START BIG SHIP-BUILDING INDUSTRY

Angus McLean, Manager of Bathurst Lumber Co. Ltd., will undertake to form Corporation if Government Will Assist Financially.

### Special to The Standard.

Bathurst, Dec. 3.—"A dream cometh with a multitude of business." In other words, it is your busy, practical man, immersed in affairs, who sees visions.

When Mr. Angus McLean was reported to have said that, provided the government granted subsidies for the building of wooden ships, he would undertake to form a company in Bathurst for the purpose of laying down a yard at this port, the statement was taken as a matter of course by all who know the speaker.

Considering that Mr. McLean is already general manager of the Bathurst Lumber Company, Ltd., a corporation operating four large mills and a pulp mill, some might have questioned where he could find time to increase his already extensive interests. But—"a dream cometh with a multitude of business," and Mr. McLean's latest vision will undoubtedly materialize, given the conditions above stated.

### Will Not be Experiment.

That the new enterprise will not be a hesitating or tentative experiment doomed to a brief and moribund existence, is sufficiently guaranteed by the energetic and capable management which Mr. McLean has always put into all the interests with which he is associated and which has placed these concerns amongst the best equipped and most successful of their kind.

Questioned with reference to the report, Mr. McLean admitted its truth. He said:

"We have been figuring on this for a year now, but under present conditions it is very difficult to put the plan into operation. There is an acute scarcity of labor for industries already established, and an entirely new industry would undoubtedly be handicapped by the same cause. Then, the business would certainly require governmental nursing for a few years until it became established. In fact, we would not dare to start a proposition of this kind unless the government offered a subsidy."

"Have you reason to suppose that the government has any intention of subsidizing shipbuilding at Bathurst or elsewhere?"

### No Preferential Treatment.

"Any subsidy, of course," was the reply, "would be general. Bathurst has no claim to preferential treatment. The government is being urged very strongly to grant subsidies for this object, and I fairly believe it will do so during the next session of parliament. If they do, and Bathurst gets its share, I will undertake to organize a company here, with local capital, and we will start building two ships to be ready for launching in the spring of 1918. Our plans are necessarily in abeyance until we know definitely what the government intends to do."

"Is Bathurst a good centre for a shipbuilding yard?" we asked.

"The very best. Wood ships can be built here as well and as cheaply as anywhere. We have an abundance of the main raw material right at hand. Several excellent sites for a yard exist inside our land-locked harbor. Each year the harbor is improved by dredging, etc., and we have every natural facility for building ships and getting them safely to sea when built."

"Do you consider that ships made of wood can compete successfully with those constructed of iron?"

"Not in general," continued Mr. McLean, "but for a considerable time to come they may be reckoned as able to more than hold their own. There has been an extraordinary revival in the use of wooden vessels, owing, of course, to the depredations of the war, and the ravages of destruction wrought by fire, or in many days, shipbuilding yards in America, built for the making of such vessels, and which have been silent and grass-grown for a generation, are now overwhelmed with business, not only in building new but in repairing old ships long since given up as hopelessly derelict."

"Another consideration that carries weight with us," continued Mr. McLean, "is the immensely enhanced cost of steel and iron and all metals that enter so largely into the construction of the usual type of modern vessel. The demand for new shipping that is now on, and which is almost bound to grow greater as the war is prolonged, will still further augment this rise in prices, and the inevitable result will be that the more ships built the more expensive will shipbuilding become. The world simply must have more ships to make good the shortage, and it is almost true to say that almost anything that floats will be pressed into service. It is right here that the smaller and cheaper vessel of wood will score heavily."

"Assuming the yard in operation,"

### BELGIANS' REGISTRATION FOR MILITARY SERVICE.

The Belgian Consul General at Ottawa announces the delay for registration with the nearest Belgian Consul under the provisions of the Decree of July 21 has been prolonged up to December 15. Those who join the Canadian Overseas Forces before that date are exempted from registration.

DANIEL MULLIN, Belgian Consul.

## PURCHASES WHEAT WORTH \$20,000,000

British Government Buys Australian Grain at About 96 Cents a Bushel.

### Special to The Standard.

Ottawa, Dec. 3.—Despatches to the Trade and Commerce Department from Australia show that the price of the half million tons of wheat which the British government purchased in the Commonwealth has not yet been disclosed but that it is probably 96 cents per bushel.

The terms of sale relieve the Australian government of the obligation to provide tonnage for the transportation. The amount involved in the transaction is slightly less than \$20,000,000.

### Alleged Theft of Christmas Box.

The post office authorities it is understood, are investigating a case of alleged theft of a Christmas box registered and mailed for the front to Private Hoffa Case, on November 1, by his brother, W. Y. Case, of Exmouth. The box was recently found by some children, minus the gifts, in the neighborhood of the Orange street dump. The proprietor at the sub-office says it left his establishment in good condition.

### At Chubb's Corner.

On Saturday at Chubb's Corner Sheriff Wilson sold a leasehold lot with buildings in Brooks Ward on St. James street, West Side, by order of His Honor Judge Armstrong. The property was sold for \$100 to Kenneth A. Wilson.

## GIRL WITNESS AT TRIAL OF BROTHER FOR MURDER

Buffalo, N. Y., Dec. 1.—The announcement that Miss Grace J. Telpor would appear today as a witness in the trial of her brother, John Edward Telpor, alleged murderer of mother and brother, attracted a large crowd to the court in city hall.

With the exception of the accused brother, Miss Telpor is the only surviving member of the automobile party murderously attacked on the Orchard Park road on the night of January 30. She was terribly beaten about the head and for several weeks her life hung in the balance. Her injuries, it is said, blotted out memory of events on the scene of the murder.

## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and sluggish. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sores, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

## Prepare For the Festivities

Years ago when the Yuletide season approached, our forefathers laid in a generous supply of light, refreshing and wholesome beverages. Good old English Ale was the popular Christmas drink, and this old fashioned custom is being revived. Last season we supplied homes in all parts of Eastern Canada with our Ale, Stout and Lager, and already, we note an increase for these beverages caused by our patrons anticipating their holiday needs.

Ready's Ale and Stout is sold by the barrel, 10 doz. pints at \$11.00. Smaller quantities \$1.30 per doz.

Ready's Lager Beer, 10 doz. to the barrel at \$10.00. Smaller quantities \$1.20 per doz.

These prices are at the Brewery. All goods must be prepaid, so when ordering include freight charges.

Ready's Breweries, Ltd.  
St. John, N. B.
