Other St. Peterburg despatches show that the situation in Manchuria is improving. General Gribski, after relieving Blagovestschensk, capital of the Amur government, received further reinforcements and bombarded the Chinese village of Sakhalin which was set on fire. The town of Aigun was partly destroyed and the Russians occupied al the important defensive positions on the right bank of the river, driving the Chinese out of them. The Rusians captured 17 guns and killed 2,000 Chinese.

Regrets Sent to Japan.

The Shanghai correspondent of the Daily Mail asserts that Emperor Kwang Su telegraphed to the Mikado an expression of regret for the murder of the Japanese chancellor of legation, Sugiyama Akira, and pointed out that the com-munity of interests between China and of the western powers should lead the Japanese emperor to make common cause with China and to assist in the restoration of peace. The Mikado, according to this correspondent; replied that the action of the insurgents was in complet the murder of Baron Von Ketteler was a grevious offence. The Mikado added that the Chinese government should suppress the disorders and rescue the ministers, thus disarming the hostility of Europe. His majesty's despatch concluded thus:

"Japan is cordially friendly and is only sending troops to rescue the foreigners in Pekin and to restore order. She has no ulterior objects hostile to China, and if proper measures are taken, she is prepared to use her influence to conserve the interests of the Celestial Empire."

What Li Hung Chang is to Do.

The Shanghai correspondent of the Times says he learns on good authority that Li Hung Chang has undertaken to proceed north in order to negotiate upon three conditions:

General Von Boguslawsky, a high military authority, whom the correspondent of the Associated Press questioned regarding the foregoing estimate, said it was quite possible that this force of 115.000 men would prove insufficient to bring China down, but that in such an event every power would increase its contingent.

"If the whole of China should rise," he continued, "it might prove to be a question of unparalleled military magnitude, but even then the powers, by skilfully using their fleets and troops in the har-

It Was Good News.

Washington, July 20.—Like a flash of sunlight out of the dark came the inteligence at an early hour today that United States Minister Conger had sent a cipare cable dispatch from Pekin to the state department at Washington, making known that two days ago he was alive and that the foreigners were fighting for their safety. The minister, Mr. Wu Ting-Fang, received the message. The dispatch was in reply to Secretary Hay's cable inquiry to the officials through the reply to Secretary Hay's cable inquiry to reply to Secretary Hay's cable inquiry to the officials were alive.

The Daily Telegraph in an editorial tred or profound rener. The dispatch was in reply to Secretary Hay's cable inquiry to Minister Conger on July 11th, and as joth messages were in the American cipher code they were regarded by the officials as above the suspicion of having been tampered with in the course of transmission through the Chinese chantransmission through the Chinese channels. Mr. Wu promptly communicated the dispatch to the state department, where the translation was made from the either figures and soon all Washington was astir with the intelligence. It was telegraphed by Secretary Hay to the presdent, who responded with a wholesome expression of gratification and word of it was sent to the various cabinet officers. They gathered in Secretary Hay's officer and an impromtu cabinet conference was held in the diplomatic chamber, mainly for the purpose of exchanging congratula-tions and of taking a survey of the situa-tion to see if it had been materially chang-ed by this important development. First of all from the standpoint of the administration officials, the most welcome fea-ure of the message was its assurance that the American minister himself was alive two days' ago. But with this cheering news came the ominous statement of Minister Conger that the besieged foreigners were in the British legation under continued shot and shell from Chinese troops and that only quick relief could avert a general massacre. After the first flush of thankfulness, this graver feature of the message began to impress itself upon cabinet officials most deeply. As one of

Secretary Root sent a similar notification to Col Cooledge, the senior American officer ashore at Tien Tsin. This action was the result of the conference of Secretarys Hay, Long and Root. Secretary Hay said he attached no significance to the use of the words "Chinese troops" in the message. They did not,

in his opinion, mean that the Chinese government troops were besieging the forcigners. He seemed to entertain little doubt that the Chinese government itself was doing all in its power to suppress the Boxers' insurrection. In this connection the message from Consul Fowler that General Yuan Shih Kai, governor of Shan Tung province, reported that the Chinese authorities were doing all in their power to put down the insurrection is exceedingly welcome intelligence. It not only confirms the theory of the state department that the position of the Chinese government is correct, but it is assumed to indicate that Yuan Shih Kai has thrown the weight of his influence on the side of the government. Yuan is considered one of the ablest, if, not the ablest, generals in Chine He has a semident of the service until all doubts are set at rest.

Were a genuine reply to the inquiries of the American government would go more into details. A slight ray of hope is admitted in the fact that both Mr. and Mrs. Conger are known to have been on very friendly terms with the Empress Dowager; but the universal opinion here is that, if the despatch is genuine, the date is falsified.

The bare possibility that the news of the massacre was premature, however, has last its effect; and the government has issued a semi-official disclaimer of responsibility for the proposed memorial services in St. Paul's cathedral, while the newspapers are calling for the post-ponement of the service until all doubts are set at rest.

the ablest, if not the ablest, generals in China. He has, according to a statement made by Lord Charles Beresford to a prominent state department official when prominent state department official when he was here last fall, the best drilled and equipped army in China under his com-mand. Some doubt was entertained as to which side he would ally himself with in the present insurrection and the fact that he appears to have come to the side of the government is accepted as evidence that his best judgment is that Prince Tuan's rebellion is destined to farl.

Throughout the day the Conger message remained the absorbing topic of discussion. Scoretary, Hay, was congressible to

remained the absorbing topic of discussion. Secretary Hay was congratulated on the success of the steps he had adopted to open up communication between Pekin and Washington, for while the chancellories of the whole world stood hesitating and inactive, he had adopted a course which had brought a message from our minister. The Chinese minister,

that the foreigners were alive.

The fact that the cablegram from Minister Conger was given scant credence in London official circles, had no dampening effect on the optimism of the administra-tion officials. It was pointed out by one of the officials most interested, that the weight of international evidence in the

despatch was in favor of its genuin despatch was in layor of its genuite-ness. Besides these were the several strongly corroborative despatches from Consul Goodnow and Consul Fowler. The fact that Minister Conger mentioned the bombardment of the British legation was considered good evidence that the despatch was written subsequent to the 6th as the best information here is that the bombard ment of the legations did not begin price to that date. It was said at the state department that it was said at the state department that it was not thought expedient to give out either the text or a paraphrase of the message sent by the state department July 11th to Minister London Notified.

Concerning Missionaries.

Boston, July 20—Rev. E. E. Strong, D. D., editor of the Missionary Herald, of the American board, says:

"We have reason to believe that Rev. Mr. Pilkin. Miss Mary Morrill and Miss Annie Gould are under the protection of the Yamen at Pao Ting Fu, North China, and some confidence is felt that they will be safe there till the storm has passed over. No word has been received from our missionaries in Shan Si since Pekin was beleaguered, but the last letters that came through gave no indication of any trouble in that province. If trouble should arise it would seem that our brethren might go northward through Mongolia to a place of safety.
"Let no Christian for a moment enter

tain the thought that the Church Christ is to withdraw from mission work in China because of the revolution within the empire. That would be pusillanimous indeed. Such a thought, we are persuaded, would not be entertained for officials felt, and so stated, that the message was an evidence of friendliness and good faith of the pro-foreign element of the Chinese and that wisdom dictated a course which would continue to utilize this friendship.

The government accepted the message temporary defeats or the death of comparison of the compariso

London Still Doubts. London, July 20-Minister Conger's nessage to the state department at Wash-ngton, is not regarded here as justifying overmuch optimistic but on the contrary s generally accepted as a further Chinese attempt at mystification. Some think that the fact that the message is undated and the similarity of its contents to Sir Robt. Hart's message of June 24, suggests that it was sent off about the same time but intercepted by the Chinese. The sceptical are confirmed in their suspicions by the fact that a message was received today by M. Delcasse, the French minister of foreign affairs, through the Chinese min ister at Paris, purporting to come from

the emperor and asking France's media-tion with the powers. This, it is alleged, was dated July 19, and made no mentio of the foreign legations at Pekin.
