MONDAY EVENING, MAY 11.

The Cadet Factory. something, beheld the silent of Cape often. He does not regret the waste of so much money for military purposes by a Government that offers the petty sum of \$24,000 for the improvement of the St. Croix, but he regrets that "so large an expenditure is necessary." Mr. Domville wanted to know how clergy and actionally waited in the hope that the defeat of the worst features of the men, physicians, engineers, etc., etc. tariff might lead the Government to Mr. Mitchell condemned the militia exabandon the useless and expensive asy-lum for aspiring and impecunious nocname of having done something, and the Military College resolutions that had

will tary college in one of the was of Canada, said that the institution very much the same at West Point or the military of England. An institution of twould, of course, be new to Catwo professors, and such other officers as would be necessary to carry on the College on the scale indicated. It was proposed to admit the cadets between the ages of 16 and 21, and to continue their course of instruction four years. At the expiration of every year the same number would be admitted as at the commencement, and a certain number would be prepared to leave. It was not to be supposed that all who entered the school would continue to receive instruction supposed that all who entered the school would continue to receive instruction during the full time. Some would be found to be fit for instructing the other cadets, and some might become discouraged and ask permission to leave the school. The number he had mentioned would be kept up, however, and the Government hoped that the institution would be one which would make its mark in the history of the country, and produce great

chance it souther he had mentithed yould be kept up, however, and the city of the country, and produce great and bet-relicial results. It was proposed that everything connected with military let of the country and produce great and bet-relicial results. It was proposed that everything connected with military let or in these of cavaler, engineering, and infinity; should—be taught—in this school, as well as such other adulted: as at all the datase substitution was all the datase substitution when the connection with their profession. Some thought that it was a desirable to establish the institution near under the supervision and direction of the Government, and open to the imperiod of the Government, because the control of the Government, and open to the imperiod of the Government, and the data to the imperiod of the Government, and the second of the imperiod of the Government of the College

own Province. No St. John member we are glad to say, asked that this city should be considered in the selection of the site. "Mr. Gilmor," we quote in full the Toronto Globe's report, "wished to remind the Government that there was such a place as Charlotte County, which was on the boundary. He regretted tha The people, looking anxiously to see for military purposes." Does this mean do I Pine Apples and Pea Nuts-Premier would not say something or do County? Does it mean anything?
