

I did not force the girl  
other than the fact I had  
the revolver in my hand. I  
did not drag her.

The girl took off all her  
clothes and handed them to  
me. I put them on the  
table.

I did not give the girl  
a cigarette before the  
intercourse, but afterwards.

She did not say that  
she did not mind having  
sexual intercourse and was  
afraid of me being diseased.

I had intercourse with  
her. We both smoked and  
talked for 10 minutes. I  
then picked up my  
revolver which had been  
lying on the table and  
left the room.

That is the true story  
of what happened as I  
remember it.

(At the request of the  
Dy off the district made  
above exhibit B and tell  
the court who is wrong  
with it). Am the rest my.

The girl did not pull  
the cords on her.
