

Inflammatory Rheumatism Cured.

Mrs. Stewart Was Unable to Walk—Cured by MUNYON'S RHEUMATISM CURE.

A Wonderful Case—A Permanent Cure Effected—The People Are Enthusiastic in Their Praises of the Great Doctor's Medicine.

"There is no punishment too severe for those who deceive the sick."—MUNYON.

Rheumatism is having a hard time in this locality these days. Ever since the great free distribution of Munyon's Rheumatism Cure—the largest distribution ever before held in the city and by far the most successful—cures have been made, cripples have been thrown away their crutches, stiffened arms and legs have been made well, lame backs relieved, and many men and women restored to health. It is indeed a wonderful demonstration of a wonderful remedy, given absolutely free by Prof. Munyon, who knew positively and surely that it would cure, and cure permanently. "My remedy neutralizes the acid," said Prof. Munyon, "enriches the blood and drives every vestige of the disease from the system." And so it does. Statements are being received every day from the people Munyon's Rheumatism Cure has cured. Investigate each one. Drop a postal card and find out if they are absolutely true, if they have been actually cured. Prof. Munyon says, "I would not ask a more convincing way of letting you know the value of my remedy."

INFLAMMATORY RHEUMATISM CURED.

Mrs. J. Stewart, 100 Franklin street, Toronto, says: "One year and six months ago I was a sufferer from inflammatory rheumatism, chiefly affecting the ankles. The pain was excruciating, accompanied by great swelling and tenderness, and I was unable to walk. After one month's trial of different remedies I heard of Munyon's cure. After using two bottles of his Rheumatism Cure I was entirely well and have remained so ever since."

"Too much cannot be said in favor of Munyon's wonderful little pellets, and I have often recommended his cure since that time, and will do so whenever opportunity offers."

MUNYON'S REMEDIES.

Munyon's Cold Cure prevents pneumonia, and breaks up a cold in a few hours. Price 25c.

Munyon's Rheumatism Cure cures Rheumatism permanently. Price 25c; at all druggists.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price 25c.

Munyon's Cough Cure stops coughs, night sweats, always cures, and speedsily heals the lungs. Price 25c.

Munyon's Kidney Cure speedsily cures pains in the back, limbs or groin and all forms of kidney disease. Price 25c.

Munyon's Headache Cure stops headaches in three minutes. Price 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price 25c.

Munyon's Female Remedies are a boon to all women.

Munyon's Vitalizer restores lost power to weak men. Price \$1.

FREE MEDICAL ADVICE.

Personal letters addressed to Prof. Munyon, Philadelphia, U.S.A., containing details of sickness, will be answered promptly and free advice as to treatment will be given.

Wood's Phosphodine
The Great English Remedy
Is an old, well established and reliable preparation. Has been prescribed and used over 40 years. All druggists in the Dominion of Canada sell and recommend it as being the only medicine of its kind that cures, and gives universal satisfaction.

It promptly and permanently cures all forms of Nervous Weakness, Emission, Spermatorrhea, Impotency, and all effects of Abuse or Excess, the Excessive use of Tobacco, Opium or Stimulants; Mental and Brain Weakness, all of which lead to Insanity, Imbecility, Consumption, and an early grave. Price \$1 per package, or six for \$5. One will please, six will cure. Mailed promptly on receipt of price. Send for pamphlet—free to any address.

The Wood Company, Windsor, Ont., Canada.

After.
Wood's Phosphodine is sold in Chatham by C. H. Gunn & Co., Central Drug Store.

HIS Young wife was almost distracted for he would not stay in at home by us, and now he ceases any more to roam.

LETTER BOX

THE OLD E. & H.

To the Editor of The Planet:

For ten whole days and for the first time in years the name of Stevens did not adorn the columns of The Planet. Public anxiety had reached fever heat. Mr. Stevens having failed to advise his fellow citizens, they were in doubt as to whether the ordinary functions of life were being performed regularly and satisfactorily or had entirely ceased. Yesterday, however, the sphinx-like silence was broken and the public heaved a sigh of relief when a letter appeared in your paper over the name of N. H. Stevens, in which he neither challenged nor denies the accuracy of any statement made by me in my narrative of the Erie & Huron R.R., but that in 1878 he paid one-half the expense of renewing the charter. This was indeed a generous act on his part, and he is all the more entitled to credit when we recall the fact that the charter was then in the hands of the Manning Co., who were preparing to begin the construction of the road.

Mr. Stevens is amazed that the late Wm. Douglas and myself should have for one moment hesitated between our duty to our fellow citizens and the temptation offered by the M. C. R. officials, and designated our adherence to duty a "blunder." Although he informs us he journeyed in the interests of the railroad from a reed-bowled waters of Rondeau to the wave-beaten shore of Huron, charming and convincing the ratepayers with silver-tongued oratory, yet in these extensive travels he failed to inform himself on the desires of the people with respect to R. R. connection; at any rate he was utterly ignorant of the wishes of the merchants, manufacturers and shippers of Chatham, who knew from bitter experience that, while the G. T. R. carried goods from Montreal to London for 25 cents per 100 lbs., the G. W. R. charged them 50 cents per 100 lbs. from London to Chatham. They had been assured that G. T. R. connection would place Chatham in the same class with London with respect to Montreal freight. Would the M. C. R. connection have done this for us? By no means, but it would have given Mr. Stevens another compelling line to the Atlantic seaboard cities of the U. S.

It is true, as Mr. Stevens declares, that by my refusal to sell the charter to the M. C. R. I failed to enrich myself by many thousands of dollars. I am, however, consoled by the fact that none of my fellow citizens can accuse me of betraying their confidence or selling them out to the highest bidder, and this enables me to bear with complacency Mr. Stevens' ignoble sneers at my comparative lack of wealth. Mr. Stevens may yet learn that there are many things, both in this life and the next, more desirable than gold. Mr. Stevens informs the public that I was amply paid for my services by the registration of the R. R. deeds. Yes, certainly, that was a magnificent and princely compensation. The number of R. R. deeds throughout the county was, I think, not over one hundred, for which the handsome sum of 75c. each was allowed. As Mr. Stevens claims credit for obtaining the charter, the fixing of the fee was no doubt some of his legislative handwork. He considered 75c. ample for a R. R. deed, while the farmers, mechanics, and in fact everyone registering a deed of similar length would pay \$1.40. I received \$75 for registering 100 deeds. Of this the county was paid \$25, my official staff received \$30, and the remaining \$20 was the reward for my official and R. R. services—about the same sum that the construction of the E. & H. enables Mr. Stevens to save on each carload of freight shipped from his mill.

Mr. Stevens claims he has fully carried out his contract with the city. I believe this is true in every respect, and that he was most faithfully and religiously fulfilled his contract to the letter. I happen to know that every lawful day train rolls over the Head St. spur laden with "Stevens' Breakfast Food" or other farinaceous preparations, and as the property owners on that favored thoroughfare hear the musical rumbling of his cars they bow down in thankfulness to a kind Providence for placing in their midst so modest, so unassuming, and withal, so progressive a citizen, and in permitting them to make some sacrifices to so worthy a man.

Although Mr. Stevens started out to discuss a public question, he could not close his letter without descending to the detraction of my personal character. Me and his collaborator fabricated a slander that they knew well was both baseless and malicious. No political influence, secret or otherwise, was used or required to obtain my appointment as Registrar. During the forty-one years I have filled that position no complaint has ever been made to the Government nor to the Inspector against me. No one of the thousands who have done business with me during that time has suffered loss to the extent of a farthing, and to-day my office stands amongst the first on the list as the most perfectly administered office in Ontario.

April 29th, 1903.

ALD. MARTIN REPLIES.

To the Editor of The Planet:

In your issue of Saturday last you stated in an editorial that an alderman made use of "thoughtless" and "unseemly" remarks in the Council regarding the Erie & Huron Railway

"He Won't Die"

Of consumption "is a remark often made of a fleshy man. The remark expresses the popular recognition of the fact that the sign of consumption is emaciation, loss of flesh. On the other hand, a gain in flesh is a sure sign that wasting diseases are being cured.

Emaciated people with obstinate coughs, bleeding lungs, night-sweats and weakness, have been perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. The several steps of the cure were recorded in ounces and pounds of increasing weight. When there is gain in flesh the wasting disease is being surely cured.

Mr. Will H. Whitmore, of Arcton, Rockingham Co., N.B., writes: "Our son contracted a deep cold about the first of July, 1899, and had a terrible cough. He called a doctor and he pronounced it irritation of the bronchial tubes, with asthmatic trouble, and he informed me that my son was liable to die at any time. He told me that if we could keep the bronchial tubes open, he might cure him; but after treating him several weeks and not getting any better, I concluded to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I had seen several almost worthless cures brought about by the use of these medicines, and of course I had a wonderful faith in them. He used three bottles of Golden Medical Discovery, and then one of the 'Pellets,' and was then well enough to go to Washington, taking a supply with him. I am just in receipt of a letter from him in which I quote: 'I am well and hardy and getting very strong.'"

The Common Sense Medical Adviser, 1008 large pages is sent free on receipt of stamps to pay expense of customs and mailing only. Send 50 one-cent stamps for the cloth-bound volume or only 31 stamps for the paper-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

re Colborne street spur removal. Now, I am just that very alderman in bold relief, and I stand by every word, and will say something far stronger next time unless this nuisance is promptly removed. I was not specifically designated who are under the inflicting annoyance and nuisance of this spur on Colborne street south, and these people probably know a good deal more about the continuous evils of this spur than the sage editor of The Planet sitting in his sanctum. Well, Ald. Taylor on February 9th took the matter up before the Council and in language just as strong as mine denounced the allowing of this spur to encumber one of our streets to oblige the railway or Mr. Couzens, or both. I simply seconded Ald. Taylor's resolution, which carried unanimously, and the Clerk was instructed to ask the management of the railway to have the spur removed without delay. Now, what did the railway do? Did it comply with the railway's request by removing the spur? No, it did not. It commenced parleying and jockeying with the Clerk, arguing that it thought the Council had granted Mr. Couzens the privilege by a former by-law. The Clerk promptly replied that Mr. Couzens did not comply with the provisions of the by-law, and that the new order must be obeyed. Nothing was done. The railway was playing the Fabian policy of delay, which being interpreted was simply treating the city with contempt. On the 9th of March last Ald. Edmondson at the Council made enquiries as to why the mandate of the city was not complied with by the railway, and asked that the spur be ordered removed at once. I seconded Ald. Edmondson's resolution and both of us spoke in such manly and prayerful language that even St. Peter would unhang the celestial wicket to listen to us. Well, what then? Just this, that a short curt letter was written to the Clerk by Mr. Woollett stating that the matter was handed over to the railway's solicitor. Why handed over to the solicitor? For no other purpose than delay and monkey-work and to see if there were not some miserable quibble, technicality or loophole by which the spur could be left there in spite of the city. Now, it was after this, and on the 23rd of March when the matter came up in the Council for the third or fourth time that I decided to take off my mitts and boots and have a little sail into the true-inwardness of the conduct of the railway in this and other matters. I resent the imputation of using either "thoughtless" or "unseemly" language as stated by The Planet. There was a large audience of citizens present—including the ambitious young editor of The Planet

and not only did the audience loudly applaud my remarks but every one of the aldermen, without exception, backed up what I said by voting with me on the question of the city solicitor being instructed to write the railway to at once remove the offending spur or face an action of trespass and damages. I concluded long ago that the only mandate this railway would obey and respect was—Fix up, foot up or fight. I don't propose that the city of Chatham shall scrape, crawl and kowtow to this railway or to any other corporation or company. Vigorous language can be employed without being either "thoughtless" or "unseemly," and this is just the kind of hot-air I made use of. I challenge The Planet to quote one single expression used by me that would not be in order at a meeting of the deacons of a church. Will any one else present in the Council Chamber that night please express over his own signature his agreement with The Planet that anything I said was "thoughtless" and "unseemly"? The Planet must remember that I am not its special representative in the Council, and that what I say appears in The Planet, and "unseemly" to The Planet must be highly pleasing and satisfactory to the good sensible voters who supported me for alderman, and I can assure the Great Home Journal that these people whom I do vigorously represent are more than gratified and pleased at the bold, determined stand I took in this matter to protect the interests and maintain the dignity of the city.

GEO. G. MARTIN.

DOWN ON CANINES.

To the Editor of The Planet:

Dear Sir,—Now that the efficacy of warm "cat-skins" (at 10c. apiece) have been proved a sovereign remedy for rheumatism, will not some of our readers, of an inventive turn of mind, ferret out some other disease, real or imaginary, on which warm "dog skins" (at the same price) will have the same curative effect? And not only confer a favor on the scientific world, but put the citizens of North Chatham under a mountain of obligation they will never be able to discharge, but, nevertheless, one they are perfectly willing to shoulder.

More than that, there is nothing mean about us; if you think the figure too high—and I rather think it is—we will take less, with thanks, and endeavor to exist without such questionable luxuries.

ANNOUNCEMENTS.

At the Chatham Grand:—

Other People's Money—Monday, May 18th.

Rowland & Young—May 4-9.

WATER AS MEDICINE.

Aid to Cure Dyspepsia if Taken in Sufficient Quantities.

A physician has called attention to the use of water not only as a remedial and therapeutic agent, but also as a mechanical agent, in the treatment of certain forms of dyspepsia, especially those forms characterized by a fullness in the left epigastric region, with frequent eructations of sour or acid matter, accompanied by loss of appetite, insomnia and a mental condition closely allied to melancholia.

Let the patient drink from one to three pints of water one hour before each meal and then comfortably seat himself in an easy rocking chair and rock backward and forward for half an hour. The rocking will agitate the water in the stomach, wash the walls completely, detaching any mucus that may be adhering and dilute and mix the contents thoroughly. By this means absorption will be more rapid, and as a consequence the skin, kidneys and bowels will act more freely, eliminating from the blood uric acid and all effete and deleterious matter, while the stimulus of the water will cause the stomach to contract and gastric juice to be secreted in such quantity as to cause digestion to go on uninterrupted and painlessly.—Farm and Fireside.

LIFE WAS A BURDEN

Marie Ann Bujold Tried Many Methods of Curing Her Dyspepsia—Dodd's Dyspepsia Tablets did it and did it Thoroughly.

"For two years my life was a burden. This is part of the experience of Marie Ann Bujold, of Maria Cap, Bonaville Co., Quebec. It is hardly necessary to tell what was the matter with her. Half the people of Canada know without telling. They too have indigestion or dyspepsia and they know only too well that life is a burden to them. But listen to the other part of Marie Ann Bujold's experience.

"I could not take the simplest food without having a pain across my stomach. I finally consulted doctors, but they did me no good.

"I saw some announcements of wonderful cures by Dodd's Dyspepsia Tablets and though I had strong objections to patent medicines I made up my mind to try them. The result was wonderful. One box cured my Dyspepsia completely and it has never come back since."

Dodd's Dyspepsia Tablets not only relieve but cure Dyspepsia. And they cure to stay cured.

—and not only did the audience loudly applaud my remarks but every one of the aldermen, without exception, backed up what I said by voting with me on the question of the city solicitor being instructed to write the railway to at once remove the offending spur or face an action of trespass and damages. I concluded long ago that the only mandate this railway would obey and respect was—Fix up, foot up or fight.
