One Who Prefers the "Yellow Evil" to

The Jap and the Chinaman, who are numerous here, writes Victor Ross, The Globe's traveling correspondent, from Moosejaw, N. W. T., will hear with interest the finding of the Presbyterian Assembly at Vanor the rrespyterian Assembly at Van-couver on their fitness for citizen-ship. Both have obtained a firm footbold, and their standing has not been secured via the laundry, either. John Chinaman has done much to John Chinaman has done much to solve the domestic servant problem. He is the undisputed ruler of many bachelor establishments, and his abilities as a chef have lent new sigapplied to him. He is also in the restaurant business, and even dabbles in land speculation.

The Jap has reached the exalted

position of a hotel clerkship, and the diamonds of a similar dignitary in the east shine not more brightly than his black eyes when he welcomes you his black eyes when he welcomes you at the register. As a valet de chambre he is a considerable improvement on the female domestics in hotels. He is scrupulously clean; he makes up beds with the care of a hospital nurse, and he knows that shaving water is better when it is hot, and that a hairpin is useless to a man in case of a broken shoe lace. Into the dining-room, too, the Japis making his way, and in some western hotels he has entirely supplanted the strenuous young woman who in other days dared you to choose between roast beef or roast pork. The Chinaman and the Jap usually sight shy of heavy manual labor, or any employment outside of MERCURY.

As mercury with surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuusually sight shy of heavy manual labor, or any employment outside of the towns, and engage in the lighter household work, which is not so trying on them, and quite as remunerative. Their wages average about \$20 a month and board on this side of the Rockies, which, judged by western standards, is not excessive. The Chinaman is of little use to the country, but he is a great advantage to the white people who live in it, and that is perhaps the reason why he stays. In a few years he will be several hundred miles farther east, but as a household servant. A train which left Moosejaw to-day had one car of Chinese, who by their intarrh Cure be sure you get the genu-ine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by Druggists. Price, 75c. per car of Chinese, who by their in-scrutable methods had placed a com-mercial estimate on almost every town east of Brandon, and were ticchange it.
"Can the universe last forever," asks a magazime writer. Can't say, it is likely to be here when most of us town east of Brandon, and were theketed each one to a point where there
is no Chinese competition. Whatever
he is in the east, the Chinaman in
the west is not a good washman. He
makes money at the business, but he
fails to get the clothes clean, and
one is never actually certain whether
one's linen has just arrived from or
is ready to be sent to the laundry.
And there is no opportunity for an Dient and depravity go hand in hand, Thistis just as true of the inside of the body as of the outside. Constipation clogs the body and clouds the mind. Constipation means that conruption the blood with its foul emanations, before the blood with its foul emanations, before the blood with its foul emanations, before the beauty with its rainted explain.

And there is no opportunity for an argument, for on being approached on the subject the Chinaman declines to know any more English than the figures of the amount due him.

The wife of one western public man who has been denouncing the admission of the Chinese told me secretly that she preferred the "yellow peril" to the "white uncertainty," anyway.

list breeding in the body, poisoning the blood with its foul emanations, befogging the brain with its ainted exhalations. Constipation is the beginning off more diseases than, perhaps, any other single disorder. The consequences of constipation are fegion. Headiache, pain in the side, shortness of breath, undue fullness after eating, coolness of the extremities, nervous-ness, indecision, lassitude, dizziness, flattalence, and a score of other ailments are directly caused by constipation. Cure constipation and you cure dits consequences. The quickest cure off this evil is obtained by the use of Dr. Pierce's Pleasant Pellets. They are small in size but wonderful in result. They contain no injurious ingredients. The use of them does not beget the "pill habit." Ask your druggist for them. Send 31 one-cent stamps, the expense of mailing and customs, and receive Dr. Pierce's Common Sense Medical Adviser, in paper covers. This work contains 1008 pages and 700 illustinations. For 50 stamps it can be hadd in substantial cloth binding. Address, Dr. R. V. Pierce, Buffalo, N. Y. The custom of handshaking dates back to prehistoric times, a relic of those savage days when strangers could not meet without suspicion of murderous purpose. Then all men went abroad with weapons and shields, and, when they met, would stand in pleasant converse, each with his shield upon his left arm and with right hands clasped so that there would be no chance for a sudden swing of the knife or bludgeon. The right hand was invariably used for the weapon, with the result that we are a right-handed race. The reason for this lay undoubtedly in the fact that the left arm was always employed in the important work of The custom of handshaking dates ployed in the important work of shielding the heart. Among the common people of the Aryan race, the old pledge of amity in yielding right hand to be grasped and has since remained the chief token of open friendship. In the Iliad the returning chiefs were "greeted with extended hands." Even at that remote day the early significance of the handclasp had been lost in the nobler meaning of civilized life. But it remains a salutation in which a greater or less degree of equality is claimed or conceded. token of open friendship. In the Iliad BYARD McMULLIN,

Lumber Camp Education.

Lumber Camp Education.

The annual report of the Canadian Reading Camp Association has just been published, in which satisfactory progress is reported. The work began in a tentative way three years ago, and the experiment has proven a happy one. The interest has been aroused and the co-operation secured of both employers and men, the Ontario Government and the public generally. The object of the association is, by the establishment of reading camps and schools in the backwoods, to afford a measure of refinement and culture for manual laborers, while it also gives a manual ment and culture for manual laborers, while it also gives a manual training for the teachers. In addition to imparting instruction in an unconventional manner to the men during the evenings, the reading camp instructors themselves engage in teaming, cutting, mining, railroad construction, cooking, etc. The association has eleven instructors, and the results so far have been most encouraging. couraging.

A Brilliant Student.

In the interval before the gowned procession appeared at the convocation proceedings of Toronto Univertion proceedings of Toronto University the other day, two ladies were overheard discussing things in general. They found on the program a list of names of those on whom degrees were to be conferred, and immediately sought familiar names.

After a time one exclaimed, "I wonder who this man 'Honoris Causa' is? He seems to have been an awfully clever fellow. He has his name in nearly every class there is." There is this to be borne in mind in these days when so many young men are giving so much attention to physical development, in gymnastic and a hletic exercises, that there cannot be permanent muscular strength where there is not blood strength. Hood's Carsaparilla gives blood strength, promotes digestion and assimilation, and builds up the whole system.

"That's so," returned the other.
"Seems to be a foreign name, too. I would like to see him."
And the two ladies spent the rest

Society is the mother of convention.

Society is the mother of convention.

Marriage Performed by Signature. There are always a number of mar-riages on board the cooly ships which ply between Calcutta and the West Indies. The coolies are very fond of marrying before entering on their period of servitude. Sometimes as many as a hundred of them will want the

nuptial knot tied.

The captain of any British ship has legal power to marry people, but the master of one of these cooly vessels has grown tired of reading the Anglican service fifty or sixty times a voyage. So he has had a number of forms printed with the essential parts of the service. The bride and bridegroom step into the cabin, sign one of these forms, have it witnessed and become man and wife. No questions are asked. They simply sign their names. It is the quickest kind of marriage

Hearts and Heels.

Many good stories have from time to time been told of Rev. Thomas Hunt, the temperance orator who was a well known figure in the early history of Wyoming valley.

have declared it to be perfectly valid.

During the civil war he enlisted and served as chaplain in one of the regiments of infantry raised in the valley.

One day, in the midst of a fierce battle, the major rode up in front of the regiment and to his amazement found Father Hunt at the head of the ranks. "Chaplain, what are you doing

"Doing?" echoed the old minister briskly. "I am trying to cheer the hearts of the brave and look out for the heels of the cowards."

The Sea Cook's Trick.
"Having tried every kind of female cook, I determined to get a man," said a portly millionaire. "It very naturally occurred to me that an ocean liner was the best place to find him. Everything is so clean about a ship's kitchen, you know. Well, I found a fine look-ing Swede and established him in my kitchen at \$25 a week. He seemed be all right, but presently my neighbors complained that he was throwing all the refuse out of the window. Old habit! He thought the window was a porthole on a ship. I could never break him of the trick and had to let him go."-New York Press.

A Faithful Servant. Carlyle told once of a lawsuit pending in Scotland affecting the succession to a great estate of which he had known something. The case depended on a family secret known only to one old servant, who refused to reveal it.

A kirk minister was sent to tell her she must speak on peril of her soul. "Peril of my saul!" she said. "And would ye put the honor of an auld Scottish family in competition with the saul of a poor creature like me?

Theory Versus Practice. "Medical science has reached the point," boasted the optimistic young doctor, "that for a patient to die we must take out his heart and kill it with

On his way home he caught a cold and for the next three weeks made every one miserable listening to his symptoms.

GOOD WORDS FOR THE GRAND TRUNK.

During the summer months a very large number of tourists make their way into Canada, and this year the summer resurt districts situated on the Grand Trunk Railway System seem to be the favorable objective point for this large influx into Canada. Many, of these tourists send "travel letters" to their home papers which is a means of advertising the Dominion to a very great extent. A letter that appeared in the Nortistown Dolimonia to vary great state. The Morristown Pa., "Daily Times", of Friday, July 24, ist a sample of these, an extract from which reads us follows:—
"The Grand Trunk Raillway is equal in the country of the country o

"The Grand Trunk Rafflway is equal im every respect, and in some points superior to any great railway system in the States. The goad-bed is in first class condition, the first-class coaches, judging from their appearance, are of the most modern type, and are very comforthible, and the Pullmans the most huxurious and, conveniently senting in use.

quipped in use ( The Grand Trunk; runs its own dining clars, in addition to what are call-ed Cafe-Parlor Cars, these latter be-sing about the nicest thing of the kind I have ever encountered. One half of they coach is equipped as a parlor car the other is a dining car with a smok-ing compartment in the centre. In the dining-room section a varied as-sortiment of well-cooked wiands is serv-ed in a style equal to that obtained in any first-class restaurant and at prices much more reasonable. An adjunct to these cars is a free library service containing a well selected list from the Booklover's Library, of Philadelphia.
