How to Invest Insurance Premiums to the Greatest Advantage

J. J. W. Deuchar, F.F.A., F.I.A., City of Glasgow Life Assurance Company, speaking of investments, says:—

"It may serve to incicate the great importance of obtaining a good return on the investments, if it is realized that one per cent, of increased interest on the funds of a company will, on the average, have as great an effect as a saving in expenditure equal to 10 per cent, on the runnincome, while, if an office could count on realizing 5 per cent, interest in place of 3, it might reduce its premiums some 30 per cent., or double its bonuses."

 According to a table compiled by a leading Insurance Journal, the interest earnings of the different companies doing business in Canada for 1900 appears as follows: Per cent.

Canadian Companies, average 4.56
British Companies 4.03
American Companies 4.31 The Creat-West Life " 6.99
