ULRICH'S Illinois Mammoth
White ENSILAGE

CORN is what you want for ensilage purposes. It stands more dry weather and will produce more ensilage on poor or good soil than any we know of. Ask your seed dealer there for it, and use no other. It is endorsed by some of the best seedsmen throughout Canada. Don't let them press you into using any other, but insist on having your seed dealer show you our book of testimonials and invoice dated this season. It will pay you. Also ask for our Yellow Dent, which is very choice. Our sales this year have been very heavy.

Tilsburg, Ont., 4-1-96.
 MESSRS. E. R. ULRICH & SON,
 Springfield, Illinois:
 Gentlemen,—
 In reply to your favor of March 27th, beg to say that the **WHITE ENSILAGE CORN** that we planted last spring, from which we grew such heavy crops of Ensilage, was seed we purchased from you, and I have no objection to your making use of the fact in advertising your corn. I inclose a printed circular. I had so many enquiries asking what seed I planted, and how I cultivated my corn and saved it in silos, I had not time to answer so many letters, and so had some printed. Also one on the silo.
 Yours truly,
 (Signed) E. R. ULRICH.
