JAMES JOHNSTON, Clerk.

Huntingfield

Mr. Samuel Wherry of Belmore, who visited here returned home to-day. Miss E. Vogan accompanied him and will spend Christmas at St. Mary's.

Mr. Randolph Ramsay spent a few days this week with his grandmother, Mrs. G. Vogan.

In our last correspondence it was reported that a fracas occurred among some young men while returning from S. Vogan's threshing. It should have been Mrs. G. Vogan's threshing.

Norman Pomeroy leaves to-morrow for Glasgow, Scotland, in company with Jno. Johnston.

Our postmaster has put in a stock of nice things for Xmas. Call there for your presents.

Wat Renwick has commenced threshing in his big barn. It is doubtful whether he will get through before Christmas, but as it is a Mildmay machine, it will be done as quickly as possible.

We are pleased to see Mr. James Page here again. He is spending the holiday's with his son-in-law's, Mr. S. Vogan.

Miss Mary Pinder and Mr. W. Pinder of Hibbert, are visiting friends in this part.

The farmers are taking advantage of the fine weather by working in the bush.

Christian Endeavor.

Topic, "Teach us to pray." Luke, 11, 1-13. Leader, Miss Lottie Berry.

One of the earliest lessons taught us in our childhood is to repeat at the beginning and close of every day that humble and eloquent appeal to God, composed by our Lord Jesus Christ himself, and therefore called "The Lord's Prayer." One of its chief beauties is that so few words should be able to convey so much meaning. Each brief paragraph is in itself a prayer that might be lengthened to whole pages, yet express no more than is comprehended in those two or three simple words. We should guard against the common fault of merely repeating the words from habit, without expressing the thoughts and feelings in all their fullness, strength, or intensity. If we desire that God should listen to our prayers and grant what we ask of Him, we must not let our thoughts wander here and there, but must remember to whom we are addressing ourselves and endeavor to speak and feel that we are in His presence for "The eyes of the Lord are in every place beholding the evil and the good."

The following teachers-in-training at the Walkerton and Kincardine Model Schools have been successful in passing the recent examination, and have been awarded Third Class certificates by the County Board of Examiners.

COUNTY AND DISTRICT.

The Dumdim bullet is so called because first made at a place of that name a few miles from Calcutta, India. It is nickel-coated with leaden core both cut away at the end.

An exchange suggests that we start writing "1900" in order to get our hand in. It will save heaps of stationery and broken resolutions as to cuss words after New Years.

Durham ladies are keeping a vigilant watch over the morals of that town. A deputation of the fair creatures waited on the council at its last sitting praying that a tax be levied on parties engaged in the sale of cigaretttes and cigarette tobacco. Wonder how the men got along with the culinary duties during their absence.

To all who have felt the evil effects of deranged kidneys it is interesting to know that Dr A W Chase's kidney-liver pills are meeting with enormous sale and unparalleled success in this district. Backaches and aching kidneys are fast becoming a thing of the past where Dr. Chase's Kidney-liver pills are known. One cent a dose, 25 cents a box, at all dealers.

Dr. A. W. Chase's Syrup of Linseed and Turpentine is mother's favorite remedy for croup, bronchitis, asthma, coughs, colds and sore throat. It has by far the largest sale of any remedy for coughs and colds. It is pleasant to the taste, prompt in action and is an absolute safeguard against consumption and pneumonia. 25 cents a bottle. Family size 60 cents.

A tin of chocolate for every British soldier and sailor in South Africa as a Xmas present from the Queen is a pretty large order. There will be 100,000 tins and 50,000 lbs of chocolate. Tommy Atkins may either eat his chocolate as a sweetmeat or drink it as a beverage. Either way it is good campaigning provender. When it is consumed the tin will remain as an ornamental memento. Years and years hence those tins will be valuable relics.

The lumbermen of Michigan have decided to move their mills to Ontario. This is owing to the decision of the Ontario Government to have all logs cut in Ontario manufactured into lumber in this province. The Georgian Bay mills will boom next year and the lumber piles will be built higher than ever before.

The suggestion has been made that the Department of Agriculture should devote special attention to the encourage of tree planting in the Northwest. The suggestion is a good one. In the East, as well as the West, our farmers would do well to devote more attention to tree planting.

Provincial Road Instructor Campbell has been lecturing in Grey county. The feeling in favor of abolishing statute labor is quite strong in some of the townships. In Keppel, it is said, a by-law will be voted on at the next municipal election upon the question of commuting the statute labor at the rate of 60 cents per day.

THE GREAT BLOOD PURIFIER—Barton's Rheumatic and Sciatica Remedy is still curing people you know.

J. Naughten, hotel keeper, Kincardine, says:—"It has done me more good than any other medicine I have taken."

G. Davis, Toronto, says:—"One bottle of your Rheumatic and Sciatica Remedy has almost cured my mother. Send me another bottle, mother has not been out of the house for months, after taking one bottle of your remedy she was able to go down street to do her shopping. She cannot speak too highly of your medicine."
