

Kodak Achievements

The click of a shutter and something of interest,— something you wanted to remember always, but couldn't,— is simultaneously transformed into a photographic record; a sort of human interest diary, authentic and significant.

By the use of the Autographic Kodaks and now also by the use of the Autographic Brownies, you can make these picture stories still more valuable and permanent, by dating and titling each negative at the time the picture is made. You can write the important WHO, WHEN and WHERE on the film, and the record remains as long as the record is intact.

It may be at home where the taking of pictures of the children forms an indispensable family record; on the vacation tour where one sees interesting places and still more interesting people, or the more serious work required by the architect or engineer, but to anyone who makes pictures, the autographic feature, found exclusively on Eastman cameras, offer a means of positive identification of each exposure, and at no extra cost for Autographic Film.

Come in and let us show you how simple an affair it is to take pictures and title them with an Autographic Kodak or Brownie.

Now that universal military service is the law of the land any suggestion of a stigma attaching to those who will be called up under the new rule as being less patriotic than those who voluntarily offered themselves should be avoided. Those who have not volunteered may have felt that the fair way was universal service and the new act will remove the feeling in a man's enlisting that many others should go before he does. All honor to our volunteer divisions! All honor also to those who will serve their country under the new military service bill.

Richard Coghlin of Paisley lost a fine colt on the farm of Wm. Schotts, near Atwood, where it was pasturing, through a most startling cause. It was found dead in an old barn after it had been missing for a couple of days. The barn was used for the horses and cattle to go into for shade. This year it was necessary to use it for putting in hay. It is not known whether the animal was in the barn at the time the hay was put in or whether it went in afterwards, as the doors were left open. However, it was discovered deep down in the hay on its back. It was nearly roasted from the heat of the new hay.—Paisley Advocate.

Major Moffat in Command.
Col. Sutherland, who succeeded Col. Weir as commanding Officer of the 160th (Bruce) Battalion in England, has been recalled to France and the Bruce force has been placed under the leadership of Major Andy M. Moffat, with Major A. W. McNally second in command. An outbreak of chickenpox and diphtheria in the 160th has resulted in the Battalion being placed, for the time being, in quarantine. Advices from the boys on Monday state that while they are straining at the leash to get to France and show their metal, yet they have no idea when they will be ordered to the Western front.

Conscription Exemptions.
Judge Klein has appointed Mr. Frank Rennie of Brant as one of the two men who will hear and decide appeals for exemption from conscription of the eligibles in the various classes in Walkerton and vicinity as they are called up for military service. The Associate on the Board with Mr. Rennie will be a local man appointed by a joint Committee composed of twelve Liberals and twelve Conservatives in Ottawa. It is expected that this appointment will shortly be made. In all there will be about eight Boards in Bruce County. The first class that will be called up for service will be the unmarried men between the ages of 21 and 35 years. Those in this class who have reasons why they should be exempted from going to Europe will soon have to get busy spreading them.
