DAWSON, Y. T., SATURDAY, JULY 19, 1902.

PRICE 25 CENTS

HUNDRED EMPLOYED
Work Being Pushed on Dominion Roads

Crews on Last Chance, Gold Bottom and Lower Dominion.

Messrs. J. T. Lithgow and S. A. Bertrand returned this morning from a five day's trip over the Dominion roads now being constructed on several of the creeks. To a Nugget man Mr. Bertrand said the work was progressing very favorably. On Last Chance there are 35 men employed and the road is being built from the mouth of the creek two miles and a half up, ending near the docks. The road up Gold Bottom is causing considerable trouble and is the only one now in the course of construction that the building of which will exceed the appropriation. The valley of the creek is but a succession of glaciers and can not be road at all, the sidehills are steep, requiring heavy cuts and taken alto-

GOVERNOR J. H. ROSS STRICKEN WITH PARALYSIS

Arrived at Whitehorse Yesterday at Noon in an Unconscious Condition—Right Arm and Base of Brain Affected—No One Permitted to See Him—Physicians Are Hopeful of His Recovery.

Whitehorse, July 19:—Governor Ross arrived on the steamer Columbian on Friday at 12:00 o'clock. He was unconscious and suffering from a paralytic stroke of the right arm and the base of the brain. The stroke occurred Thursday afternoon and the sufferer received no medical attendance until he reached Whitehorse. He was immediately taken from the boat to Major Snyder's residence. The doctors think he will entirely recover. Consciousness returned shortly after he was removed from the boat but he has extreme difficulty in articulating. He passed a good night and is resting easy this morning. He is not allowed to talk or receive visitors or messages.

The first news of the grievous affliction that has befallen Gov. Ross was given in a bulletin to the Nugget and the information given therein was soon spread over town. This afternoon it has formed the sole

topic of conversation in the government offices, on the streets and in the clubs and hotel corridors. On every side are heard expressions of the deepest regret and sympathy. It was a little less than a year ago that the governor suffered the loss

of his wife through the wreck of the steamer Islander. The weight of that great sorrow combined with the heavy load of care which his duties as Yukon commissioner involved have undoubtedly combined to hasten the stroke of paralysis from which he is

now suffering. It will be the universal hope of this community that the stricken executive will not be permanently disabled by this terrible affliction which has so suddenly come upon him.

gether the building of a good road will be a difficult matter. It runs up the left limit of the creek about three miles, scarcely to discovery, and will not reach that portion of the creek that is being the most extensively worked.

On Dominion 50 men are employed working from 7 below lower, the point to which the road was built last year. How far down it will be carried is not known as much will depend upon how well the appropriation is drawn out. It is expected to

She Refused
To kiss him because his teeth were not clean. Can you blame her when he can get tooth brushes, tooth paste, tooth soap, etc., at 50c per? For full particulars see

Ready for Work.

Seattle, July 19.
E. C. Hawkins has returned from New York and says, all is ready now for preparation of the road bed and laying steel of Mines Railway from Dawson. Hawkins promises that the hitch in proceedings will be disposed of in a few days.

be completed as far as the mouth of Arkansas, at 130 below lower, which will cover practically all the creek that is being worked until the mouth of Gold Run is passed. The Dominion road will be one of the best in the country, there being but few difficulties in the way of swamps and wet ground to overcome.

Devotion of a Mother

New York, July 11.—Notwithstanding that the woman was a stowaway and without means, the board of special inquiry at the immigrant station has given Mrs. Louisa Schaller her liberty and admitted her fine. Mrs. Schaller, who found herself unable to support her 10-year-old son in Germany, toiled until she had saved up enough to send him to relatives in America. She accompanied him on the steamer at Bremen, but was unable to bear the separation when visitors were ordered ashore and secreted herself below. A relative promised to see that she will not become a public charge, and one of the stringent immigrant rules were relaxed in her favor.

Called a Draw

Butte, Mont., July 11.—Baker refused to go on account of the small house. Howard Opie was substituted and an agreement made that if both were on their feet at the end of the tenth round the decision would be a draw. In a fast fight Opie had Oglesby going in the tenth, when the gong sounded, saving Oglesby from a probable knockout. On points it was Opie's fight all the way. It was declared a draw.

Coronation August 9.

London, July 18.
Official proclamations this morning state that by the king's command the coronation takes place August 9. Rehearsals of the abbey ceremony were resumed this morning. The king continues to improve. The next bulletin will be issued Monday.

Delay in Canal Treaty.

Washington, July 11.—Mr. Cromwell, representing the Panama Canal & Railroad Company, called at the state department today to confer further with Secretary Hay respecting the proposed treaty by which Colombia will confer the necessary rights to the United States for the construction of the Panama canal. It now appears that, contrary to the first expectation, this treaty cannot be signed before next fall. It was expected that with his full powers Minister Concha would be able to quickly adjust the points of difference but it develops that to prevent any disagreement with his own government and any repudiation by it of what he has accomplished, the minister deems it essential that it shall be made acquainted with the smallest details of the negotiations. This necessitates recourse to the mails, and as about six weeks time is consumed in each dispatch passing between Washington and Bogota, it is apprehended that the finishing touches cannot be given to the treaty this summer.

To Explore Labrador

St. Johns, Nfld., July 11.—An expedition under the leadership of Col. Willard Glazier, of New York, numbering twelve persons, has left here on board the steamer Virginia Lake to explore the unknown wilds of Labrador. Col. Glazier's expedition was organized in Boston. Among its members are representatives of leading American universities. It is reported that the object of the expedition is to determine the feasibility of a new railroad line for the Atlantic shipping combine.

Shot Them to Death

Davenport, Ia., July 11.—Christopher Leonidas and his son, long haired medicine men, wearing sharpshooters' medals and heavily armed, boarded the Diamond Jo steamer Dubuque, at Rock Island, Ill., today and attempted to take possession. Mate Dan Green shot and killed both when the boat was opposite Davenport. The bodies were taken off here. The boat's officers were held.

Under American Rule

San Juan, P. R., July 11.—Exports from Puerto Rico to foreign countries for the fiscal year ended June 30 increased 54 per cent, over the total of such exports for last year; the increase in the island's exports to the United States was 48 per cent, over the total for the last fiscal year. Sugar, tobacco and hats formed the principal articles of export. The customs receipts for the last fiscal year reached \$800,000 and the balance from the insular revenues was increased by \$240,000.

To Wipe Out Debt.

Denver, July 11.—At a luncheon given to the press of Denver by Hon. John W. Springer today it was announced that \$160,000 of the \$200,000 debt standing against the University of Denver had been subscribed by Denver men and the remaining \$40,000 would be pledged by September 1. Some time during the first week in September a celebration of the lifting of the debt will be held at the university, when all the bonds and other evidences of indebtedness will be burned.

Matter of Strike Fund.

Denver, July 11.—President Gompers, of the American Federation of Labor, who is in this city, in an interview said: "The convention of the United Mine Workers' Union meets in Indianapolis soon, and the matter of the strike fund will then be taken up. The convention will also vote on the proposition of calling the soft coal miners of the United States out on a general strike. Since he has been in Denver Mr. Gompers has been in constant telegraphic communication with President Mitchell.

ALONG THE WATERFRONT

Steamer Thistle Receiving Finishing Touches

Will Probably Go Out for Trial Spin Tomorrow—Other River News.

The construction of the house and the installing of the machinery of the steamer Thistle is almost completed and the finishing touches are expected to be added this evening so that a trial spin can be had tomorrow. The vessel gives every indication of proving a worthy sister to the speedy little La France and Manager Calderhead is fitting her up most sumptuously. The staterooms are light and airy and the social hall is of sufficient size to give everyone plenty of room even though every berth may be taken. Her machinery is from the Gold Star and is powerful enough to drive the Thistle at a speed that will show many of the upper river steamers a clean pair of heels. She expects to make her maiden trip on Monday, leaving in the evening for Whitehorse.

The Susie left for St. Michael at 10 o'clock with the following passengers: R. C. Hall, G. C. Stubblefield, R. N. Hilleary, Mrs. J. Fulton, J. F. Kelley, Miss L. J. Thompson, Miss Morris, Herman Webber, Ed. Dolan, and two Indian boys for Fortymile.

The Bonanza King which arrived last night at 10:30 brought a heavy cargo of freight but no passengers. She leaves this evening at 8 o'clock.

The Prospector leaves again this evening on another trip to Stewart river points.

Steamer Leon of the N. C. Co. reported at Fortymile this morning at 10:30 and will arrive early tomorrow forenoon.

Steamer Prospector

The steamer Prospector will leave tonight for Stewart river with a good list of passengers and considerable freight. Her last trip was a very successful one, 120 passengers being taken to Stewart river. A number of people will go on the trip tonight as guests of the manager of the steamer, Mr. William Mead.

Charge Denied

Washington, July 11.—Secretary Root has received a cablegram from Acting Gov. Wright, in the Philippines, making a general denial of the charge of proselytizing by teachers among Catholic students in the Philippine schools. The cablegram shows a complete investigation was made of the allegations.
