Marine Notes,

Spoken by Capt. Hegg, of bark Eva Carell on the 3rd of Sept. ship Holden from London bound for Quebec in ballast Lon. 53.40, Lat. 45.40.

Capt. Rayerson, of bark Viking, of St. John, N. B., reports on Menday, 6th inst., at 6 a. m., at 3k. Paul's Island, bearing north distance 5 miles, weather moderate, light airs from southwest, shut in dense fog, which continued until 9 a. m.; would then be distant from the light about seven and a half miles, during which interval, three hours, the fog whistle on the Island was not in operation. Latter part of day strong gale from East.

On the afternoon of Tuesday, the 8th instant, the Dutch barque Henrietta Maria, being partially waterlogged, went on shore on the northeast side of the Magdalen Islands. The vessel is 886 tons, belonging to Zandam, in Holland, commanded by J. P. Oldenberger, and was on a voyage from Quebec to Amsterdam, loaded with, timber and deals. The master states that ever since he left Quebec he has experienced heavy weather, and he has experienced heavy weather, and the ship strained and leaked so badly that the ship strained and leaked so badly that the crew became exhausted and the vessel unmanageable, so that they were obliged to run the vessel on shore and take to the boats, to preserve the lives of those on board. The boat under the charge of the first officer, with a crew of five seamen, was upset, and there being a heavy sea amning it is supposed that all on board were drowned. The other boat, with the master and eight men, were picked up by the steamship "Matthew "Cay," and brought to this port. the steamship "M brought to this port.

Interesting Case in Maritime Law.

On the arrival at the port of New York, recently, of the British ship Jowarwar, from Calcutta, the crew entered a complaint before the British Consul General, that during the entire voyage the provisions furnished were poor in quality and short in quantity; And will be sold at the lowest prices, that when the members of the crew W. Every Tuesday and Thursday Mornings at 6. and North Sydney at 7 a. m. Passing through the BRAS d'Or LAKE t. West Bay, connecting with the P. E. Island Steamers at Port Hawkesbury for Pictou, thence by Rail to Halifax.

The Scenery of the Bras d'Or Lake—the The Scenery of the Bras d'Or Lake—the Mediterranean of the Maritime Provinces—is unequalled in Nova Scotia and travellers taking advantage of, this route will not only have a view, its entire length, 90 miles, of this well known sheet of water, with its numerous arms and indentations, skirted with the tall trees of the "forest primeval" and fringed to the waters edge with evergreen shrubbery, but from the Lake being completely iand-locked neither the tourist's most fanciful day dream nor the business man's thoughts are ever disturbed by that dread of the traveller sea-sickness. The Steamer will make her trips regularly never having been heretofore detained by fog or rough weather. The sarety of this route is also undoubted.
