"Fruit-a-lives" cure Constipation because they are Fruit Juices in Tablet form.

Constipation means a disordered liver. When the liver is weak, bile is lacking. And it is the bile—which the liver excretes—that flows into the intestines and moves the bowels. Fruit is the great liver tonic. It invigorates the liver and causes more bile to flow into the bowels.

Purgatives, powders and purging mineral waters, never reach the liver. They irritate the bowels and FORCE them to move. They generally do harm. They NEVER do any PERMANENT good. "Fruit-a-lives" are fruit juices—in which the medicinal action is many times intensified by the wonderful change which

takes place when the juices of apples, oranges, figs and prunes are combined.

"Fruit-a-lives" have already proved a cure to many thousands of people in Canada.

## J. I. CASE CO. MAKE REGINA HEADQUARTERS

Reported That Great American Threshing Machinery Co. Will Establish Head Office for Entire Canadian West in This City—Eighteen Large Wholesale Concerns Now Negotiating for Warehouse Sites

WINNIPEG, Jan. 4.—Your representative today called at the head office of the Nicholas Shepard Co. here in regard to the rumor that the firm would in the near future move their headquarters further west. Manager Tecktonius was not in the city, but the man in charge confirmed the rumor.

"You are moving your headquarters further west?" was asked.

"Yes," was the reply.

"It is rumored that the firm will establish their Canadian headquarters at Regina, is that correct?"

"You bet it is," was the reply.

The firm will maintain a transfer office in Winnipeg only, but most of the business of the concern will be handled from the Saskatchewan capital.

The tremendous business being done in the new province, principally in Saskatchewan, warrants the change. Manager Tecktonius is believed to have gone to the headquarters of the company at Battle Creek, Mich., where the details of the transfer will be effected. It is reported that the firm has already secured a site in Regina and that they have started construction on a large building to be used as a warehouse and head office in Canada. Just when the transfer will take place has not been decided on.

## HORSE THIEF GETS AWAY WITH \$250

Sold a Stolen Team of Horses to Sympathetic Mr. Fraser of Riversdale.

SASKATOON, Jan. 2.—A short time ago a young man with a team of horses that were in very good condition drove up to the feed stable managed by Mr. Fraser in Riversdale, and made a deal with him and sold the horses, which afterwards proved to have been stolen animals, and the criminal escaped.

The young man told Fraser a sad story of how his mother had been

taken seriously ill, and also how, through unfortunate circumstances, his store of cash had run low and he was financially embarrassed, so much so that he must sell his valuable team to enable him to reach his home and see his mother before she passed away.

His plying appeals and his tears of sad regret touched the heart of his hearer, and when asked what price he wanted for the horses the sum of \$250 was demanded, and it was considered a good bargain.

Mr. Fraser paid the money spot cash and added the newly purchased team to his possessions, but only for a short time. A day or two after the transaction had been made a farmer called at the stable and claimed to be the owner of the animals, and said that the young man who had sold them had borrowed the team from him to drive around the town, but when they were placed 30 metres apart and fired at the word. Six shots were exchanged when Lieut. Spitzer staggered, dropped his revolver and fell into the arms of his seconds. Lieut. Andrew, without a word to his opponent or the doctor, departed. The wounded man was transferred to a nearby restaurant, where he was found that the bullet had penetrated his abdomen.

High Officials Doomed to Die

Revolutionaries Condemned 27 of the Leading Russian Functionaries to Violent Deaths.

ST. PETERSBURG, Jan. 4.—Searches by the police in this city and in Moscow revealed lists containing the names of 27 of the highest functionaries who have been condemned to death by the revolutionaries.

The Novoe Vremya publishes a sensational report of a plot against high government officials who were about to meet to discuss financial matters. The plot was discovered through suspicions that were aroused by inquiries over the telephone as to the hour at which the meeting would adjourn.

The officials of the guards are studying a list of 4,000 persons of the educated classes who are under suspicion and the League of the Russian people, otherwise known as the "Black Gang," has another list containing the names of 750 other persons.

It is charged that the Black Gang has offered a reward of \$50 for the assassination of Prof. Melnikoff and Joseph Hossen, both leaders of the Constitutional Democrats.

## REAL, BLOODY DUEL FOUGHT IN FRANCE

Between Officers, One of Whom Was Seriously Wounded—Had Been Close Friends.

NEW YORK, Jan. 4.—A dispatch from Paris says that a real duel took place Wednesday near Paris and, as usual on such rare occasions when such meetings are serious, nothing is being allowed to become known beyond the fact that the principals were young French officers, Lieut. Spitzer and Lieut. Andrew, previously friends, the former of whom received serious wounds in the abdomen. What distinguished the duel from ordinary ones was that regular arm revolvers were used and that at the order to fire each combatant was allowed to fire as many as 25 cartridges, with which each was provided, if he could.

The scene of the encounter was at Sablier, near Versailles, and the duel is said to have occupied only a few minutes. The adversaries were placed 30 metres apart and fired at the word. Six shots were exchanged when Lieut. Spitzer staggered, dropped his revolver and fell into the arms of his seconds. Lieut. Andrew, without a word to his opponent or the doctor, departed. The wounded man was transferred to a nearby restaurant, where he was found that the bullet had penetrated his abdomen.

MEDICINE HAT, Jan. 4.—During the year ending December 10, 1906, there has been shipped from the Medicine Hat district 1,521 head of horses, 13,596 cattle, 12,171 head of sheep and 282,250 pounds of wool. The shipments of cattle exceeded those of last year, while all the others show a falling off. There would easily have been 1,500 more cattle shipped this year had it not been for the shortage of cars.

## BOERS WILL FIGHT BATTLE OF BALLOTS

Will Struggle at the Polls to Secure the Political Mastery of the Transvaal.

JOHANNESBURG, Jan. 2.—At last the political campaign in the Transvaal may be said to have opened. The preliminary maneuvering has taken an unreasonable time, but the forces are now fairly in position. True, the army of Het Volk has not reached the ground, but the sympathies of its leaders are so well known that no one doubts upon which side its forces will be ranged up.

In the meantime the Boer generals observe a discreet silence regarding their plans. There is reason to believe that no orders will be issued until practically on the eve of the fight. But drilling is quietly and vigorously going on. The Boer electors will march to the political battlefield ready to the last shoulder strap. The ideal which animates them is unmistakable. The power lost in war is to be regained in politics. By keeping the British divided and maintaining a machine-like unity in their own ranks the Dutch leaders figure they can hold the balance of power in their hands once more.

The contest is something more than a struggle over an industry. Getting down to bed rock it must, to a large extent, decide the place South Africa will take in the empire. Probably the Bond will win the next election at the Cape, certainly it will dominate the Orange River Colony. The odds are that Het Volk will hold the balance of power north of the Vaal. Thus right through the centre of South Africa will be driven a wedge of Dutch Governments, Dutch institutions, Dutch ideals.

The Transvaal, like the United States, continues to have no end of trouble over the Orientals. The last Asiatic ordinance of the Transvaal Legislature, passed in September, and now awaiting imperial sanction, has caused racial distinctions to a degree which has caused the Indian and the Chinese and the Japanese residents to protest.

The Indian Association of the Transvaal has had a deputation in England last night, and the new ordinance should be vetoed and a commission appointed to examine the treatment of colored people in British South Africa. This deputation has seen the colonial secretary, Lord Elgin, and the secretary of state for India, Mr. Morley.

After has spoken of the injustice and the harshness of South African policy toward British India, of the "bar sinister" which is placed in some of the King's subjects.

## GALICIAN WAS BRUTALLY MURDERED AT ROSTHERN

Body of Michael Kaminsky Found Hanging Over a Fence—Murder Supposed to Have Been Result of Fight Over a Girl, Who Was an Eyewitness—Maxim Stadnek Arrested

ROSTHERN, Jan. 4.—Leaving over the fence, with the head badly crushed, the body of a young Galician named Michael Kaminsky was found in front of the residence of J. J. Friesen of this place. He had been cruelly murdered. His face was cut and slashed horribly, and huge blood clots had formed over the eyes and had become frozen. The body was still warm when discovered, and was a most ghastly sight.

The murder, it is believed, occurred as a result of a fight over a girl, who is supposed to have been an eye witness to the tragedy. She refused, however, to tell the name of the alleged murderer. The sweating process will likely worm out her story. Both she and the murdered man are from near Aberdeen.

The Inquest.

Coroner Stewart held an inquest last night, the following jury being sworn: John Ham, foreman; J. G. Weatherly, H. L. Friesen, Rev. S. F. Brown, J. D. Buller, Fred. Henschell, Frank Klassen, A. A. Cummings. After viewing the body, the jury adjourned until tonight. Many witnesses are being held by the police.

It is surmised that the fight started near the elevators, and after the "murderous attack, the dead man was placed on a sleigh, taken to the Friesen's, and the body placed in the position where it was found later. The sleigh and foot marks were seen at that point, but there were no signs of a struggle. People passing the spot a few minutes previous to the body being found, but nothing was seen. No arrests have been made yet.
