"I do not believe that the Japanese seriously mean to attack the Chinese forts. They are too wise and value their ships too highly to do that. I am of the opinion that their scent affair at Wei-Hai-Wei was a recommaisance. I believe the Japanese will clear the sea before the winter and that the campaign will be mainly on land. The usual commonplace remarks about the certainty of the ultimate success of the Chinese owing to their numbers and resources may be true, but it is not easy to forsee the result, Japan's modernity being a new factor in the far east." with the crowd to the Rue de la Republique.

The President had gone to Lyons to attend the opening of the Industrial Exhibition. On the evening of Sunday, June 24, he attended a banquet at the Palais du Commerce and left shortly after nine oclock to drive to the Grand theatre where a gala performance had been arranged in his honor. In the neighborhood of the Bourse, Caserio ran towards the President's vehicle, sprang to the step and buried the dagger in the President's breast. His trial was begun in Lyons August 2, and lasted only two days. The assassin would not say a word to incriminate others, declaring that he had no accomplices. The jury after an absence of fifteen minutes returned a verdict of guilty and Caserio was sentenced to death. The sentence was confirmed two days ago by the pardons committee.

As it is the loss is estimated at from \$5,000 to \$10,000, with insurance about enough to cover it. All the live stock was saved, the chief loss being the building, buggies, carriages, robes, harness, tools, etc.

Washington, Aug. 14.—Last evening the Senate tariff bill, unchanged, quamended, untouched, was passed by the Honse and the measure now swaits only the signature of the Precident or his failure to sign it within ten days to be enacted into a law. It was passed according to the programme arranged and ratified at a caucus of Democrats.

The special rule was agreed to after a short debate. Then the Senate bill was debated for two hours and after counter accusations by the Republicans and Democrats and severe arraignments of the majority by several of its own members, the bill was passed by a vote of 181 to 105. HALIPAX, Aug. 18.—George E. A. Bokes & Co. received a telegram from Porto Rico reading: "Import duty on fish abolished."

G. E. Bokes, who was seen regarding the matter and effect it would have on trade, stated that a few weeks ago the board of trade of held a special/meeting to consider the effect of the Norway-Spanish treaty on trade between Canada, Porto Rico and Cuba. Under the treaty, fish from Norway would be admitted free of duty, while our fish would be subject to a duty of about 90 cents per 100 pounds. Owing to the superior quality of Norway fish the Nova Scotian article would be practically shut out of the market and the result would be almost ruinous. The outcome of the abolition of the duty will be that Canada will be about on the same footing as heretofore, thereby saving to skippers as heretofore, thereby saving to skippers of Nova Scotia the market they had for
