BOTH CURED OF KIDNEY TROUBLE

## Doan's Kidney Pills.

Mr. Benjamin Brooks, a wellfarmer of West Cape, P.E.I., tells
of how his son was cured of
Kidney Disease, and how he was cured of

The First Sign of Kidney Trouble

He says: "Our little boy was troubled with kidney disease. We had tried many kinds of kidney pills but they only helped for a time. We got Doan's Kidney Pills and one box effected a perfect cure. About six weeks after this I caught a very bad cold that settled in my kidneys. My back was so sore I could hardly walk. I went to the drug store and got a box, took them according to directions and the result was that my back was completely cured. I believe they are the best kidney pill on the market to-day."

There is not a kidney trouble from Backache to Bright's Disease that Doan's Kidney Pills will not relieve or cure. The price is 50 cts. per box, or 3 boxes for \$1,25 and may be procured at all dealers or form

### LAND OF "EVANGELINE"

WORK OF A DESCENDANT OF ONE OF THE DEPORTED VICTIMS.

Edward Bichard, the Acadian, Who geline" a Myth-The Dispersion-A Chivalrous Vindication-British Acted Mowever, in Good Faith.

Interest in the Acadians, made famous in song by Longfellow, is revived by the fact that one of the descendants of the victims of the deportation from the beautiful village of Grand Pre recently died at Battleford, in the person of Edouard Richard, the sheriff of the Northwest. The Richards were evidently among those who returned after the trouble of 1755 had blown over. Taking up their residence among their compatriots in Quebec, they grew up with the country, and Edouard was sent to the Territories in an official capacity as long ago as 1877. There he has lived ever since, save for an interval of three years, when he resided in Paris, and was engaged in gathering from the Louvre, for the Dominion Archives, copies of all the documents bearing upon the old regime in Canada. gime in Canada.

Remance of the Old Regime.

These papers are extremely interseting and highly valuable. They tell
many of the romances of the old regime—for the history of France in
the new world is truly a story of adventure and heroism, and in that
respect is scarcely to be equaled by
other relations of comparatively
modern date. The struggles to reach
the West, the discovery of the Mississippi by La Salle, the great expedition two hundred years ago through
an unknown land, from Quebec to
what is now the centre of the United
States, are movements characterized an unknown land, from Queec to what is now the centre of the United States, are movements characterized by both courage and skill. The death of La Salle, at the moment when he had made his discovery, as related by Mr. Richard from the records, is beyond question tragic. Triumphant, but evidently insane, the explorer died at the hands of the men his madness had provoked. Another drama not less courageous, though of a different type, is brought into strong relief by Mr. Richard. What could be more heroic than the defence twice offered by Madeline de Vercheres against the assaults of the Iroquois? A girl, delicately nurtured exhibits remarkable valor in the face of the savages and holds them at bay until succor arrives.

"Evangeline" a Myth.

But Richard's chief work was the

But Richard's chief work was the defence of his ancestors, the Acadians, in respect of the matters for which they were removed from Nova Scotia. Longfellow, in "Evangeline," and Parkman, in his "Montline, and Parkman, in his "Mont-calm and Wolfe," have given versions of this tragedy. That of Longfellow, which was gathered from Hawthorne, depicts to us a peaceful and pastoral people, deeply religious and entirely inoffensive, living in a beautiful valley, but suddenly and without reason pounced upon by the British to be deported and distributed among the \$\frac{4}{3}\text{suthern colonies.}\$ The charming Evangeline and her lover are the central figures of the dispersion. Evangeline passes first to Louisiana, and spends the remainder of her days in geline passes first to Louisiana, and spends the remainder of her days in a search for her lover. Ultimately, a nun, she finds him dying in a hospital in the city of the Quakers. The story as told in the poem is marked by poetical license. At all events, the historical reasons for the deportation are not given, and the Acadians now residing in Louisiana maintain that there was no Evangeline. An Emmeline certainly did accompany the exiles to Louisiana, but her lover was faithless. He picked up with another girl on the trip and married her. Parkman's story is of a different kind. This historian tells of the struggles of the English and French for ascendancy in Nova Scotia, and of the cession of Acadia to Britain. Then he relates that the French settlers, though accorded every courtesy, refused to acknowledge the sovereignit of King George and ery courtesy, refused to acknowledge the sovereignty of King George, and constattly conspired with the French who had emissaries among them, to harass the British settlers and to render peace impossible. The solution of the difficulty as decided upon by the Governor, Lawrence, with the advice of the Governor of Massachusetts, was deportation, and the irreconcilables were moved by shiploads to the other colonies.

The Dispersion. The Dispersion.

the other colonies.

The Dispersion.

To the ports along the Atlantic coast the Acadians were carried. Some managed to get to Quebec, and some, making their escape, found homes in Prince Edward Island, the Magdalen Islands, and even on the coast of Labrador. Their experience was much like that of the Loyalists who lost their property and were ordered out of the United States after the revolution. Many returned when the troubles were over, and the descendants of these now form important settlements in the Maritime Provinces. They are a quiet, frugal, simple and law-abiding folk, preserving their customs, their language and their religion, and holding to the view that their forefathers were harshly treated. Several volumes have been written to prove that they are right in their opinion of the expulsion. One by Abbe Casgrain has been crowned by the French Academy. This writer maintains that the British sought to deprive the Acadians of their religious liberty, and that this was the cause of their resistance. Edouard Richard has endorsed many of the arguments of the Abbe, but he adds in his book, "Missing Links of a Lost Chapter in American History," that the Acadians were removed from their lands by Gov. Lawrence without authority from the British Government, and in the face of orders of a different character which reached Hallfax just after the deportation had taken place.

A Chivalress Vindleadies.

The effort of Mr. Richard to vindicate his ancestors was at once chivalred and natural. And it may be

that his explanation will dovetall in with the British position. It is not improbable that the Acadians may have suspected or may have been urged to believe that they would be harshly treated as to their religion by the Bostomaise, and that for this reason they were induced to regret the oath of allegiance and to take part in hostile movements. Equally probable is it that the British were acting in perfect good faith, and that the impossibility of persuading the Acadians that such was the case was the prime cause of the great tragedy of the Franco-British contest on this continent.

TOO GREAT A RISK.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists:

To Renovate Crape.

To renovate crape lay it on a table and cover it with a damp cloth. Then pass a hot iron over the cloth as closely as you can without actually touching sit. This treatment will freshen up the crape beautifully, for the steam will cause it to wrinkle just as it does when new.

THE BEST LINIMENT.

"It have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahes, N. J. "My husband used it for a sprained back and was also guickly relieved. In fact it is the best family liniment f have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and cectare its merits are wonderful." For sale by all druggists.

OLD AGE.

OLD AGE.

Old age as it comes in the orderly process of Nature is a beautiful and majestic thing. The very shadow of eclipse which threatens it, makes it the more prized. It stands for experience, knowledge, wisdom and counsel. That is old age as it should be. But old age as it cften is means nothing but a second childhood of mind and boly. What makes the difference? Very largely the care of the stomach. In youth and the full strength of manhood it doesn't seem to matter how we treat the stomach. We abuse it, overwork it, injure it. We don't suffer from it much. But when age comes the stomach is worn out. It can't prepare and distribute the needed nourishment to the body, and the body, unnourished, falls into senile decay. Dr. Pierce's Golden Medical Discovery is a wonderful medicine for old people whose stomachs are "weak" and whose digestions are "poor." Its invigorating effects are felt by mind as well as body. It takes the sting from old age, and makes old people strong.

A person doesn't necessarily need wings to fly in a rage.

If it's a bilious attack, take Cham-

If it's a bilious attack, take Cham-berlain's Stomach and Liver Tablets and a quick recovery is certain. For sale by all druggists.

Fifty Acre Farm—River Road, Dever, Brick house, stable and granary, \$3,200.00.
Money to loan. Lowest rates. Brick house, \$1,300.00: record in which a team of Eskims dogs traveled six and a half miles in twenty-eight minutes. According to M. Dusolier, the speed of the shepherd dogs and those used in hunting ranges is from ten to afteen yards a second. English setters and pointers hunt at the rate of eighteen to nineteen miles an hour, and they can maintain this speed for at least two hours. Fox-hounds are extraordinarily swift, as is proved by the fact that a dog of this breed once beat a thoroughbred horse, covering four miles in six and a half minutes, which was at the rate of nearly eighteen yards a second. Greyhounds are the swiftest of all four-footed creatures, and this speed may be regarded as equal to that of carrier-pigeons. English greyhounds, which are carefully selected, and which are used for coursing, are able to cover at full gallop a space between eighteen and twenty-three yards every second. Money to loan. Lowest rates.
Terms to suit the borrower.
W. F. SMITH.

The Leadon Chronicle tells the following: The eloping curate who sought to evade his pursuers by leading them a dance through Whiteley's employed the same strategem which succeeded in a famous runaway match. It is just forty years since Mr. Chaplin, M. P., was betrothed to Lady Florence, daughter of the Marquis of Anglessy. One morning shortly before the appointed marriage he accompanied her on a shopping expedition to Swan and Edgar's. She entered from Regent street, and while Mr. Chaplin awaited her return she had left the shop at the Piccadilly door, there met the

The Queen's Butter Story.

The following story goes the sounds every few years, but loses nothing by repetition:

When the Queen of England, daughter of the King of Denmark, was the Princess of Wales, she attended, one afternoon, a food show.

At this food show there was a display of butter that pleased the Princess of Wales greatly. She praised the butter, and to its exhibitor she said:

"Denmark sends us the best butter, don't it?'j
The dealer smiled, and shook his head.

"No, Your Royal Highness," he answered, gallantly, "Denmark sends us the best Princess, but Devonshire sends us the best butter."

Star Phetography.

Star photography is one of the most tedious operations known. In some cases the plate must be exposed for several hours. During all this time both the plate and the telescope must be moved so that the image of the star will be stationary on the plate. Only the image of one star at a time can be secured unless those adjoining happen to be of the same size.
