

THE "PRINCESS PAT" LANDS AT QUEBEC

To Remain Some Days in Canada Before Sailing for West Indies.

Quebec, Aug. 29.—The Lady Patricia Ramsay, "Princess Pat," daughter of the Duke of Connaught, former Governor General of Canada, arrived at Quebec early this morning on the liner Empress of Scotland, and was met here by her husband, Capt. the Honorable Alexander Ramsay, R. N., Commander of the H. M. S. Calcutta, flagship of the British North Atlantic Squadron, which is at present in the port of Montreal.

Capt. Ramsay arrived at Quebec early this morning on board the private yacht of Commander J. K. L. Ross, of Montreal, whose guest Lady Patricia and her husband will be until September 6th, when the H. M. S. Calcutta will leave the port of Montreal for Quebec.

At 10 o'clock this morning Princess Patricia was still on board the liner alongside of which Commander Ross' yacht was moored, but it was understood that the yacht would sail for Montreal as soon as Princess Patricia was ready to go on board.

A splendid trip was enjoyed by the Empress of Scotland on this crossing and practically no fog was encountered in the Gulf of St. Lawrence, which enabled the liner to dock here much earlier than had previously been expected.

President E. W. Beatty, K. C., of the Canadian Pacific Railway, came to Quebec in his private car to welcome the Princess.

DELMONICO'S PLAN NEW CAFE CHAIN

Ten Million Dollars to Be Invested in Restaurants.

New York, Aug. 29.—Charles C. Delmonico, who inherited the famous restaurant that bore his family name, was announced to-day as chairman of a new \$10,000,000 corporation to open three new restaurants in New York city and a chain of these from here to San Francisco.

The corporation will build an ultra-exclusive apartment hotel in New York next year, and later will start Delmonico restaurants in many cities throughout the country.

"Delmonico's is not dead," declared Delmonico. "The new places will have the personal touch."

The famous old Delmonico's was recently torn down to make way for an office building.

SUBSTITUTES FOR HARD COAL READY

Philadelphia, Aug. 29.—Soft coal producers of Central Pennsylvania, Maryland and northern West Virginia have taken steps to-day to profit by the approaching troubles of anthracite producers.

Anticipating the opportunity the anthracite suspension September 1 presented to producers of hard coal substitutes the soft coal men meeting here yesterday, laid plans to invade New England and Middle Atlantic States at once to the tune of 5,000,000 tons of prepared stove sizes a month.

HUNT GROUND-HOG SWALLOWING SNAKE

Twenty-Foot Reptile is Terrifying Farmers in Ohio.

Lebanon, O., Aug. 29.—Excitement was at high pitch here to-day as farmers, Cincinnati zoo officers and men and dogs hunted a monstrous snake.

Oscar Bishop, a farmer, who claims that the reptile has demolished his stock-pens and terrified his family, has posted the following notice:

"Reward of \$25 for capture of huge snake, dead or alive, living on my farm, and menacing the life of my family and stock."

Bishop describes the serpent as black, 30 feet long, half a foot in diameter, with a large flat head.

"The last time I saw him," Bishop declared, "he crossed the road and crawled into a thicket. Another time I saw him catch and swallow a ground-hog."

Bishop's stories were borne out by half a score residents, who reported they had seen the reptile at various times since 1908.

Judge J. A. Runyan, president of the Citizens' National Bank, said he and a party of friends, while motor-ing, encountered the snake on a country road.

"We feared the snake would attack us and made no effort to kill it," the judge said.

Davis Thompson, who lives near Bishop, says he has kept a history of the snake. Ham Johnson, another neighbor, with his hounds, has been hunting the snake in the bogs on Bishop's farm.

Since the Cincinnati zoo has decided to join the hunt, the whole countryside is expected to turn out.

Warning to seekers of beauty

When your complexion is at stake, use a soap made solely to foster good complexions

PALMOLIVE Soap is made for ONE purpose only . . . to foster good complexions. It is not intended for laundry work. Not even for fine fabrics. It is a skin soap alone. To protect your skin, that is the only kind of soap that you should use.

In old days, women were told, "use no soap on your faces." For soaps were too harsh. Then Palmolive came. A soap made of cosmetic oils. A soap made to be used freely, lavishly on the skin.

Women tried it, and were amazed. They told others—and better complexions resulted. Palmolive soon became the leading toilet soap of the world. In France, home of cosmetics, it became a leader. French women largely discarded French soaps for Palmolive. Today Palmolive Soap is one of the two largest selling toilet soaps in France.

That is because Palmolive is a unique creation, based on 60 years of soap study. A soap made solely to guard your youthful charm.

But on your skin, don't expect the cosmetic results of Palmolive from any soap claimed to be good for all purposes . . . No "jack-of-all-trades" soap should be used for your complexion.

Don't let anyone mislead you into believing that ordinary toilet soaps, or cleans-ing soaps, will bring you Palmolive results. They won't—no ordinary soap can.

There are soaps at 25 cents and over, which approach Palmolive in results. But Palmolive sells for 10 cents . . . no more than ordinary soaps. Enormous production brings you this modest cost.

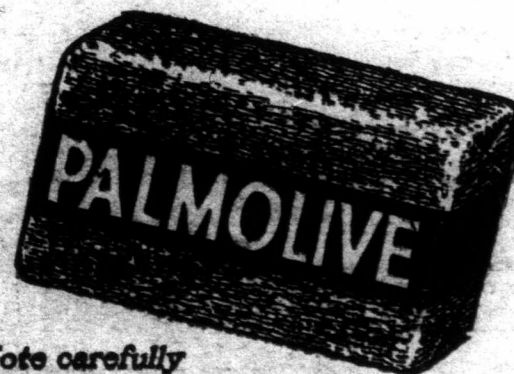

Wash, launder, cleanse with any soap you wish. But when beauty is at stake, take care. Use Palmolive, a soap you know is safe to use. It is nature's formula to "Keep That Schoolgirl Complexion."

FOR GERMS

Soaps to "destroy" germs should be used only by advice of a physician. All soaps "remove" germs to a certain degree. Palmolive "removes" germs as well as any soap safe for toilet use.

The real difference in soaps is in their action on your skin. Some are too harsh, others crudely blended. Palmolive Soap is a unique creation, a blend of rare cosmetic oils; a soap made for one purpose only, to foster good complexions. Don't expect Palmolive complexion results from any strong "medicated" soap, from any "jack-of-all-trades" soap, from any soap claiming alike for fabric washing and the skin.

(MADE IN CANADA)

Note carefully the name and wrapper. Palmolive is never sold unwrapped.
