TO THE PUBLIC.
The undersigned wishes to in-
form the public that he has in
stock all kinds of useful ware,
imported and home-made, which he
will sell very cheap for cash, also
a nice line of enameled ware and
other articles usually found in a
well appointed store.
I have also added to my stock
a beautiful line of cutlery which
I am selling cheaper than elsewhere.
I also have a very nice line of
fishing tackle for the boys, bamboo
rods, fly hooks and lines.
Trotting for bass will soon begin
and I have a new and sure bait
that will catch them every time.

FOR SALE.
A Rare Chance.
The Hecla Foundry, situated in the centre
of the town of Newcastle, N. B., between the
public wharf and railway. Consisting of a
large brick large shed, 100 feet long, 40
feet wide, with three brass furnaces, one oven, etc., 40
feet long, 30 feet wide, 30 feet high, containing
three furnaces, three ladles, plating, all in
good condition and well equipped with boring
and grinding tools, blacksmith shop, first
class engine and steel boiler and artistic
work of best description. Will be sold on
easy terms. Title good.
Reason for selling—Old age and physically
disabled. Also for sale, a steel and cast iron
cylinder, 100 feet long, 40 feet wide, 30 feet
high, and a ton of pure copper and brass.
JAMES MURRAY.
Newcastle, May 30.

Administrators Notice.
All persons having just claims against the
estate of the late W. C. Anslaw, late of New-
castle in the County of Northumberland, Printer
& Publisher, are requested to forthwith file the
same duly attested with R. P. Willison, Esq.,
of Newcastle, Solicitor, to all persons in-
debted to the said estate are required to make
immediate payment to the undersigned.

NEW RESTAURANT.
I beg to inform the public and all my old
customers in particular that I have opened a
Restaurant in the Quay Building, just
round the corner from the Post Office, where
I will be pleased to cater to the wants of
patrons with everything in the line served in
first class style.
Fred. Jenkins.
Hard Work
Made Easy.

**Hard Work
Made Easy.**
I am receiving two more crates of those
collaring and washing machines,
and to bring them within the reach of all I
will sell the two together on very liberal
terms. By paying \$1.50 down and \$1.00
per month for the balance you can have
two of the best labor saving machines that
ever went into any house.

Prop.

IMPURE BLOOD
is the cause of nearly all diseases.
As the blood supplies every bone, muscle,
nerve, tissue in the body, these parts will be
in the same condition as the blood.
Unless the blood is absolutely pure the body
will be in an unhealthy condition and sickness
will be sure to arise.
To keep well the blood must be kept pure
by using the great blood purifier.

Gates' Life to Man Bitter
and Syrup
which have been tested for the last 60 years
curing many cases of Dropsy, Liver Com-
plaint, Humors and all blood diseases.
If you want proof, write us for testimonials
of those who have been cured by them in the
provinces. Sold everywhere at 25c. per bottle,
\$1.50 per dozen, and at wholesale by

General Intelligence
TO LONDON IN THREE DAYS.
THAT IS WHAT THE TIME WILL BE BY THE
TURBINE STEAMER.
If the two turbine steamships that are
being built on the Tyne come up to
the expectations of their designers,
Canada will be called upon to make no
contribution to the establishment of a
fast Atlantic service. The service will
be a New York daily says that the
establishment of a turbine service
across the Atlantic is no visionary scheme,
but a well-considered commercial venture
with the solidest kind of financial backing.
We are told that plans have already been
drawn up for the formation of a giant
transportation company, which, if the
new boat proves a success, will at once
order a fleet of the same kind. Simultane-
ously there will be begun the construction
of a sub-marine tunnel between
Ireland and England, so that trains may
make forty miles an hour at least, so
that the trip to Newfoundland will be
made in forty hours. Express trains will
convey passengers across the island, and
a few hours' run by steamer from the
western coast of Newfoundland will make
connections with the American railway
system. By means of this astonishing
service New York and Montreal will be
brought within a little over three days of
each other.

BRITISH SAILORS KILLED.
30 BLUEJACKET ANNIHILATED BY MUSCU-
MANS.
CANADA, ISLAND OF CRETE, Sept. 7.—
The British battleship Camberdown, hav-
ing on board Sir A. Biddell, the British
consul at Crete, has arrived here. Several
of her crew have also reached here.
The reinforcements of bluejackets have
been landed and an early restoration of
Crete is expected. The fleet have been
extinguished but, during the rioting the
British and German consulates were burn-
ed.

USE FOR MILL REFUSE.
The discovery of Mr. Emerson of Bal-
timore, that the refuse of a mill of
mills can be used to advantage, making
valuable products, should be carefully in-
vestigated by our millmen. Perhaps it
will be found that the new industry is one
to which St. John offers peculiar advan-
tages. Certainly there would be ample
scope for the waste can be utilized in
plant in operation. Mr. Emerson has in-
vented machinery that is practically auto-
matic in its operation, which converts the
waste and other waste into a su-
perior grade of carbon that can be sold
in competition with the best produced
for about 50 cents a ton. For carbon
there are many uses, the chief being the
manufacture of calcium carbide. The by-
product of the waste can be utilized in
making white lead, paints, acetate of
copper, calcium acetate, varnishes, printers'
ink and many other products, the market
for all being practically unlimited. A
very practical use of the carbon is for
smelting purposes and this is an industry
that should flourish in St. John. A prac-
tical test of the Emerson process was given
a few days ago in Ottawa at the mill of
W. C. Edwards, M. P., and it was shown
that the machine would do all that
was claimed for it. Now the question
of looking for great results from the estab-
lishment of the works there and also from
the building of a smelter. It is expected
among other things to produce a gas for
both heating and illuminating purposes
superior to any now on the market and
much cheaper, besides being clean and
having no asphyxiating properties.—St.
John Globe.

RAILWAY DISASTER.
TAUNTON, MASS., Sept. 7.—Two trains
over the New York, New Haven & Har-
ford railway, from Boston, one from
Park square station and the other from
the Kneeland street station came into
collision at Whitton Junction about
two miles above the station here just
before 6 o'clock last night, and in the
week which followed, in one of the cars
of the Park square train 15 persons were
more or less injured, one of whom,
Harry W. McIntyre, has since died and
another, Nicholas Young of the city,
is expected to live.

**A HEALTHY
