GROWING BOYS AND GIRLS

Need Rich, Red Blood to Keep
Up Health and Strength

It is a mistake to think that anaemia is only a girl's complaint. Girls probably show the effect of weak, watery blood more plainly than boys. But many boys in their teens grow thin and weedy, showing that they have not enough blood, or that it is thin and watery. Let the boy in this condition catch cold and he will lose his strength and his health becomes precarious. No overcome this trouble give both your weak boys and girls Dr. Williams' Pink Pills and see how soon good appetite returns and the weak boy or languid girl becomes full of activity and high spirits. Mrs. P. Garvey, R. R. No 5, Mono Mills, Ont., tells what this medicine did for her young son. She says:—"Three years ago, my little boy, who was then 11 years old, was very pale and weak, he would take fainting spells and complained of a pain about his heart. One day a lady friend who noticed his run-down condition told me her daughter had been in a similar state and found new health through Dr. Williams' Pink Pills. I therefore got a supply for my boy, and by the time the first box was used his appetite seemed better, and by the time he had taken half a dozen boxes everyone was surprised at the change in his condition, he was such a fine, healthy looking boy. He had grown tall and stout, with no signs of his former run-down condition. I believe Dr. Williams' Pink Pills are unexcelled for anyone weak and run down."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

MENACE TO FRENCH RACE DESCRIBED

"In France the problem of popula-
tion and the crisis of the race domi-
nates all other perils," says a recent
article in the Paris Figaro. To con-
vince other nations of that country's
shrinking population and diminishing
vitality, the following statistics are
furnished:

"Since 1863, a record year in births
—1,012,000—we have continued to
diminish. As a result of the nuptial
abundance of 1920-21, a slight excess
of births over deaths was produced.
It will not last. In France, which
lost three million men since 1914,
there was an increase in population
in 1921 of 140,000, compared with
500,000 in England for the same year
and 720,000 in Germany. The Ger-
mans are eagerly proceeding to re-
populate their country. What senti-
ments, are animating the French,
born upon a fertile area, larger than
that of the German Empire, whose
tillable soil requires the services of
55,000,000 inhabitants?"

"If the European birth rates con-
tinue in their present ratios, France
will have in twenty years 35,000,000
of 36,000,000 inhabitants with a ma-
jority of old people; Germany will
have 75,000,000 with a majority of
young men and women. What will
happen with the Reich congested by
lack of room, and empty spaces in
France next door? We must use our
wits and our strength to protect our
selves."

"The causes of this voluntary sui-
cide are essentially moral; they be-
tray an obvious impairment of men-
tality and post-natal care of mothers
and infants must play a part. A plan
of defense must forthwith be de-
vised."

An Egyptian mummy with bobbed
hair has been found. This will streng-
then the modern girls in ignoring
their own mummies in this matter.
