## Ten Strong Reasons

Why You should Buy Your Furniture from us.

- 1st—We produce our own lumber which goes into the Furniture and saves considerable in cost.
- 2nd—We have the Surface Oak finish for our Furniture, which is the only thing of its kind in the country.
- 3rd—We import our own Coverings for our Parlour Suites, thus saving two duties, as most all the imported Suites come from Canada and the United States, and they have to import their coverings from France or some of the European countries, and pay duty into Canada or the States. We avoid the second duty by getting the Covering ourselves and having the frames made here.
- 4th—We have our Springs made from the wire by the only Weaver in the country; also the Oxford or Copper Wire Spring by machines too.
- 5th—We have our Mattresses made by machinery in our own building, the only machine of its kind in the country. It can produce 50 against 10 by hand, thus saving considerable in cost.
- 6th—We are producing the Excelsior or Wood Fibre and cutting the cost in two, which will mean considerable saving in the making of Mattresses.
- 7th—We are also selling agents for the celebrated Ideal Beds and Springs and sell at factory price.
- 8th—We also have the COMBINATION LATH and SPRING BED, the only thing of its kind in the country.
- 9th—Having the factory in the same building, we can handle all sizes all repairing; in fact you can choose your own Coverings for Parlour Suites, Mattresses, etc., and have it made to order.
- 10th—Our motto (last but not least) is to sell at the lowest possible prices, and despite the serious advance in prices all round, we are, where possible, reducing the prices, WHICH SHOULD APPEAL TO EVERY HOUSEKEEPER when in need of Furniture and Furnishings, as we now do arrangement work from the "Tree to the Home," thus cutting out all middlemen's profits.

**CAPTURE OF WARSAW NOT YET ACCOMPLISHED.**

LONDON, August 2. It is impossible to state exactly what is happening on the eastern front, as obscurity is the most pressing need of the Russian army, in regrouping and shifting its positions, says the Petrograd correspondent of the Daily Mail. This rearrangement of forces is in the hands of General Yanushkevich, Chief of Grand Duke Nicholas's staff. The capture of Warsaw has not been accomplished according to the Telegraph, and the deliberate withdrawal of the Russians is an encouraging feature of the situation. The Russians have not yet closed before the Admiralty is in a position to make a report on the incident.

**SITUATION AT WARSAW CREATES EXCITEMENT.**

PETROGRAD, August 2. An intimation that the Vistula line was to be abandoned by the Russians, and the beginning of the removal of factories, government institutions, and hospitals, has created intense excitement among all classes of the population of the Polish capital. It was feared that the military authorities might deem the evacuation of the city by the inhabitants a military necessity, and would destroy a great part of the city to prevent its use by the Germans as a base. Many wealthy residents have left for the interior, and the military authorities are including many of those who have remained since their families went out. During the past fortnight stations and trains have become overcrowded, the discomfort of the number of passengers having been increased by the necessary military precautions. The streets which generally are thronged, have become deserted. The restaurants and coffee houses are empty. The French and Belgian consuls left the capital in the early days of the German progress, turning their affairs over to the American Consul.

**FRENCH PAPERS ON THE WAR.**

PARIS, August 2. The morning papers generally print reviews of the first year of war, with the exception of prominent men. The Petit Parisien quoted the French Premier as follows: "One year has rolled away since the day when on a nation devoted to peace, which with its allies had made every effort to maintain peace, Germany and Austria, loosed war. Never had the virtues of our race appeared nobler and more solid, and still other virtues which previously had not been accorded us, have evoked the admiration of the world. By these virtues of enthusiasm, endurance, patience and the spirit, victory of a right is assured to our heroic army and its chiefs. France is united and resolved. It is exalted to heights yet unattained in history. Though the test be prolonged our soul remains unshaken."

The Petit Parisien cables Alexandre Ribot, Minister of Finance, as saying: "After a year of war when the soldiers of the whole population of France have given proofs of the same heroic courage, some facing death, and the elders bearing their griefs with admirable abnegation and simplicity, the country more than ever has faith in victory, and is resolved to do its full duty to accept every suffering and every sacrifice to defend its existence, and assure the triumph of Liberty."

From the Minister of Foreign Affairs the paper received the statement: "For the Allies to will is to win."

**THE RUSSIAN BALTIC FLEET.**

PETROGRAD, August 2. Rear Admiral Grigovitch, Minister of Marine, stated in the Duma yesterday that the Russian Baltic fleet had fulfilled successfully the task of resisting the Germans, and, besides repelling attacks had inflicted defeats upon its antagonists even in their own waters. The Russian Black Sea fleet, although weaker than the Turkish fleet, had rendered its adversaries inoffensive, inflicting severe losses upon them. He stated that the war expenses of Russia at the end of 1915 will amount to \$5,621,000,000.

**PRISONERS TAKEN BY ITALIANS.**

ROME, August 2. Prisoners taken by Italian forces now number 17,000, including 380 officers.

**AN ADMIRALTY STATEMENT.**

LONDON, August 2. A statement issued by the Admiralty this evening, says: The Vice-Admiral commanding in the eastern Mediterranean, reports that one of the British submarines operating in the Sea of Marmora, has torpedoed a large steamer of 3,000 tons off Mudania pier, which had several vessels secured alongside. The explosion was very heavy. A small steamer close by was torpedoed.

The C-196 was completed in 1911, displaced 633 tons, and was capable of travelling at a speed of more than 32 knots an hour. She was fitted with two 23 horse-power and three torpedo tubes. Her complement in normal times was 73 officers and men.

**GERMANY'S HUGE ARMIES.**

LONDON, August 2. At to-day's session of the Meat Cargo Cases, before the British Prize Court, Sir Frederick Smith, Solicitor-General, produced a sworn affidavit, made by Major Dillon, member of the General Staff, giving the British estimate, which he says is correct, showing that the number of persons serving the army under control of German authorities, aggregates ten millions.

**LONDON BUDGET.**

LONDON, August 2. While the Austro-Germans continue to tighten the wings of their great eastern battlefront with success at both extremities, including the occupation of Mitau in the north and further progress beyond Cholm in the southeast, the Poland situation remains the same. Further additional details have reached London concerning the plans of the abandonment of the city, but apparently the time has not arrived for the Russians to relinquish their increasingly precarious hold on the capital, or at least no word of its evacuation has come to London. Ivanigoroff, southeast of Warsaw, which was heretofore erroneously reported invested, is now nearing that state in fact, according to Berlin's announcement, but from Ivanigoroff eastward to Cholm and beyond the Russians, who had to abandon the railway, are fighting most desperately still.

It remains for the British Navy to furnish an unexpected contribution to the day's news, with the sinking of a German destroyer off the German coast by a submarine, and the strange performance by another British undersea boat while operating in the Sea of Marmora. This craft not only crept so close to Constantinople as to launch torpedoes at lighters in the Golden Horn, presumably awaiting munitions from the arsenal, but with its guns bombarded and, for a time, tied up the railway skirting the Asiatic coast, destroying troop trains and causing havoc among the stores, and in addition the submarine considerably damaged Turkish shipping, and sank one craft believed to be a gunboat.

No hint of a separate peace or dissatisfaction over England's policy comes from any authoritative source, and Count Benckendorff made it plain that while there may have been some sentimental popular feeling in his country or in the west to relieve the strain in Russia, there had been no criticism emanating from those who understood the military situation.

**REPORT CONFIRMED.**

PETROGRAD, via London, Aug. 2. An official communication issued here to-night, says that a British submarine sank a large German transport in the Baltic Sea.

**NOT YET COMPLETED.**

LONDON, August 2. A despatch to the Exchange Telegraph Co. from Geneva, says that the statement that an agreement has been completed between Turkey and Bulgaria, is denied by the Cologne Gazette, which says that negotiations still continue. Regarding a settlement, the Cologne Gazette says that Germany is in entire agreement with Turkey's viewpoint.
