## Fishermen! Here's the Boot for You-"Excel"!

# 

The Fishermen's Friend

All fishermen know from experience what happens to ordinary boots when used in fishing. You've seen how salt water seems to take the life out of rubber and how the uppers crack and the soles wear through in a surprisingly short time.

The "EXCEL" is a different and better kind of boot. It has been made especially to stand up under the unusually hard use a fisherman's boot gets.

The rubber and fabric in "EXCEL" boots are of the very highest quality. But it is the special method of curing, under tremendous pressure, that makes the "EXCEL" so wear-resisting. The pressure forces the leavers of rubber and fabric together so that they are

layers of rubber and fabric together so that they are actually "one-piece", without losing the least bit of the

life or resiliency of the rubber. Salt water has practically no effect on "EXCEL" boots. The UPPERS remain pliable and weatherproof, and resist the dryingout action of sun, heat and extreme cold far longer than other boots. Consequently they don't crack anywhere near so quickly. The SOLES are almost wearproof, because they are made like an Auto Tire, with 8 plies of rubber and fabric welded by tremendous pressure into a "tire-tread" sole that rivals an automobile tire for toughness and durability.

These are exclusive features of "EXCEL" boots The picture, at the right, of an "EXCEL" boot cut apart, with every detail of construction visible, shows how "EXCEL" boots are reinforced at every point of strain. There is not a single feature but what has been proved necessary and desirable by tests of severest use. Your own experience will tell you that a boot with these features simply must be a better boot.

Study this picture. Learn these features. Remember them when you compare "EXCEL" boots with ordinary boots. And remember, too, that very important point which the picture cannot show, namely, that "EXCEL" boots are cured under tremendous pressure, which leaves the rubber pliable, weatherproof and wear-resisting. It is only by the use of this tremendous pressure combined with highest quality materials that the best results are obtained.

"EXCEL" Boots are sold by all reliable dealers from Coast to Coast.

### **Dodging Death** Among Eskimos.

"The Eskimo code of honour demands that a death caused by the hand of another must be avenged. For this reason we had to be extra watchful. Otherwise I should not have had the chance to tell you this story." In these words Mr. S. T. Storkersen, second-in-command of the Canadian Arctic Expedition, which has lately returned to civilisation after five years in the region of the North Pole, summed up to Mr. P. Doubleyou one of the most interesting and thril-

The central figure of the storywhich has not previously been published—is Stefansson, the famous explorer, who has probably made more trips to the Artic than any other liv man, Mr. Storkersen told how

When certain members of the expedition, including Messrs, Stefansson and Storkersen, were returning to months on the ice, they fell in with Eskimo heard Stefansson's name they

Presently the father drew Stefans son aside and explained that his wife was in delicate health and that he looked to Stefansson, as a medicine

On the other hand, if he refused the present the people would conclude that he was not kindly disposed to ward them. The dilemma set him

Ex-Kaiser Bill has stacks of wood, with royal

hands he sawed it, and wise men find his conduct good, and roundly they appland it. He labors, labors every day,

ing. And now with his own princely hands he'll ply the hoe and shovel and cultivate the fertile lands around his Holland hovel. "That it's a time to cut expense," he says, "is plain to thinkers:" and he repairs the garden fence and carries out the clinkers. "It's no use hiring heedless men," he says; "I'll do my duty;" and so he cleans the porkers' pen, and cranks the motor tooty. Whene'er we hear of exiled Bill he's doing something useful, he nails a board or saws a sill, or rears a pumpkin juiceful. I used to hate his very name when he his war lord game, all helpful tasks disdaining. But when the Kaiser had to quit, and fold his spangled banner, he took his soup, we must admit, in quite a dead game manner. He might be grouching all the time, invoking Mike and Peter, and mourning pomp and state sublime from which he had throne and crown he's set a fine example, and he has held his sawbuck down with resolution ample. He piles the stovewood rank on rank, and when he has a penny he puts it in the sav-
