THE RUSSELL WATCH!

A FEW REASONS THAT MAKE IT SUPERIOR TO ALL COMERS.

1st.—It proves itself a reliable time-keeper beyond all question.

2nd.—The RUSSELL WATCH being made on correct and scientific principles, it must follow as a natural consequence that it will keep time.

3rd.—Each part of which the RUSSELL WATCH is composed is a reflex of the perfect machine which, under skillful direction, it is produced.

4th.—Truth is the essential of each part.

5th.—Uniformity and conformity must therefore characterize the several parts in fulfilling the purpose for which they are made and brought together.

6th.—Reproduction, as regards watch work, is simply an application of the principle that "things which are equal to the same things are equal to one another," and if there is any merit, the RUSSELL WATCH possesses that merit to a demonstration.

7th.—The greatest variety of price, quality and size, that confidence and perfection will admit, afforded by the RUSSELL WATCH.

8th.—The RUSSELL WATCH stands pre-eminently above all competitors for public favor and patronage.

9th.—Proofs of the foregoing—the universal testimony of all Watchmakers who have sold, and the positive statements of the thousands in Europe, the United States and Canada, who have worn the RUSSELL WATCH.

TESTIMONIAL. To Robert Cuthbert, Watchmaker, Wyndham Street, Guelph.

If Society was as perfect in its organization, and was as obedient to the dictates of truth as the RUSSELL WATCH I bought from you is in indicating time, evil would be swallowed up in good, and happiness would become monotonous.

G. RENNIE, Guelph.

IMPORTANT! ROBERT CUTHBERT, WATCHMAKER, WYNDHAM-ST., GUELPH.

Fire at the Woolen Factory. Yesterday afternoon, about 4 o'clock the Town bell tolled the quick notes of alarm, and as usual numbers rushed excitedly along the streets towards the scene of the conflagration.

ELORA CORRESPONDENCE. From our own Correspondent. And so Stirton and Gow have been returned in a manner that shows what the people of South Wellington can do when they become "dreadfully in earnest."

On Saturday last the annual meeting of the North Wellington Teachers' Association was held in the School-house, in this village, at 10 a.m.

Still another Fire. It has come to be a saying among the people of the town that when there is one fire there will certainly be a second.

THE CENTRE RIDING.

MR ARMSTRONG'S MEETING AT ROCKWOOD.

From a Correspondent. A meeting of Mr. J. A. Armstrong's friends and supporters was held at St. Paul's Hall, Rockwood, last night, which was well attended.

Mr. Armstrong was called on to address the meeting. He said he had a few days ago as little expectation of being brought out as the Reform candidate for the Local Parliament for the Centre Riding as any man in the room.

TO-DAY'S TELEGRAMS

Special Despatches to the Evening Mercury.

From New York. The Herald's Key West special on the steamer Matchless has just arrived from Fort Jefferson, Dry Tortugas, with most distressing accounts of the ravage of the fever there.

New York, Sept. 12th.—The Herald's Leavenworth special says the Indian fired into a passenger train six miles west of Fort Harker to-day. Although a volley was fired by 35 Indians no one was injured.

New York, Sept. 12.—Further correspondence relative to the Alabama claim upon Great Britain, is made public. Under date of Aug. 27, 1866, Secretary Seward sends to Minister Adams a summary of claims of citizens of the U. S. for damages from the privateers fitted out from British ports, and informed him that settlement of these claims has become urgently necessary to a re-establishment of entirely friendly relations between the U. S. and Great Britain.

The course of the latter country during the rebellion is contrasted with the action of the U. S. government toward the Fenian invasion of Canada in the following pertinent words:—"Thus we have seen ruder practically allowed and tolerated by His Majesty's government, notwithstanding remonstrance, and we have seen similar unlawful attempts in this country against Great Britain disallowed and defeated by direct and unprompted action of the government of the United States."

London, Sept. 11.—Consols closed 94 1/2 for money; 5-20's 73 to 78; Illinois Central 77; Erie 44. The cotton market closed heavy at a decline. Breadstuffs quiet and unchanged. Corn 36s. 9d wheat 13s. 6d. for California white. Provisions closed unchanged.

London, Sept. 11, ev'g.—Sugar steady at 24s 6d. for No. 12 D. S. Iron 53s per ton. Linsced unchanged.

London, Sept. 11.—This was the great day of the Doncaster races. The principal event was the famous St. Ledger considered next to the Derby in the English racing calendar. The attendance was immense, and the interest evinced in the race was almost unprecedented.

London, Sept. 11.—Despatches have been received here announcing that General Balbi will depart forthwith for the Roman frontier.

From Malta. Marsailles, Sept. 11th.—Despatches received here mention that the cholera raging fearfully in the Island of Malta.

From Austria. Vienna, Sept. 11th.—A large number of school teachers representing nearly all sections of the empire is in session in this city. A resolution in favor of petitioning the authorities for the separation of the public schools from the church was passed yesterday with great unanimity.

London, Sept. 11.—It is reported that the Austrian prime minister, Baron von Beus, has gone to Biarritz.

From the East. London, Sept. 11th.—Intelligence has reached here from Siam that the son and heir to the King of Siam is dead.

A telegram from Bombay in anticipation of the Overland China mail, reports that the embargo laid upon the commerce of the Island of Formosa has been removed.

We learn that the demand in Montreal for the Cotton Warp manufactured by William Parks & Son, of our city, is such that the firm are able to dispose of every bundle they can manufacture during the next twelve months.

The firm will probably extend their business considerably at an early date. We also hear that parties from Ontario or Quebec are in our Province buying up hides, for which they offer remunerative prices.

Montreal capitalists have invested largely in the Coal Mines of Nova Scotia; and a steamer, to carry coal exclusively, is now on the route between Pictou and Montreal. Several lines of steamers are projected between the ports of the Upper Provinces and the lower ports, at least two of which will be in operation by this time next year.

Nova Scotia, New Brunswick, and P. E. Island leather, if good, finds ready sale in Montreal. The same remark applies to Paper Collars manufactured in St. John. We might extend the list and demonstrate that within only a few months wonderful strides have been made in the direction of Inter-Colonial Trade, to say nothing of a complete revolution. Under a judicious tariff, with the Inter-Colonial railway constructed, and efficient lines of steamers on the Gulf, we are satisfied that the progress of trade between the Provinces will astonish even the most sanguine Confederates.—St. John's Telegraph.

CATTLE MARKETS.—The Leader says:—"A fair quantity of cattle and sheep lately been brought by railway to market from the western part of the province, principally from about Long Point, Mary's, Guelph and Waterloo. The market for the supply from those sources thought the scarcity of meat in the city would be so great that they would have to pay much higher prices. There are several buyers here, and the market and other places, and the competition with the western provinces. In fact buyers are scarce, and prices high."

The propeller of the steamer "The Leader" with a cargo of goods, has been taken from the city of Chicago. This steamer was taken from the city of Chicago.
