All the teams but the Chippewas are already drawn in the one intermediate district, and there need be no Providence shaking up of the system in the towns to drop from the senior to the class!

The dropping of the senior series means the last of professional work in Toronto the C. L. A. inasmuch as the two series below are at least nominally amateur, and will be run as such under the constitution.

The players who took part in the sionals will not be eligible for the intermediate clubs this year, and will have to rest or go elsewhere.

It means the enforced rest or movford seniors, and practically all of last year's St. Catharines' champions.

The cause of the shift is economy. High salaries, with the senior series depleted by Torontos and Tecumsehs. are out of the question, and the fat stipends of the last few years could Washington not be possibly met with the Toronto gates no longer there to be drawn Cleveland New York from. And there is a saving of \$50 a club-the senior fee.

As intermediates the players must be amateurs, at least in appearance, and in their demands. Jobs with so much additional "per" will constitute the salaries.
