## CHURCH IS NOT IN LEAGUE WITH THE RICH TO OPPRESS, SAID THE BISHOP OF HURON

### His Lordship in Charge to Synod Dealt With Church and Workman.

### CHURCH MUST PROVE POSITION

### In U. S. There is Great Unrest and Effect Is Sure To Be Felt in Canada.

The first business meeting of the 55th session of the synod of the Diocese of Huron was opened yesterday afternoon at three o'clock. Bishop Williams was in the chair, and after Dean Davis had offered prayer the rolls were called, that of the clergy by Clerical Secretary Rev. Canon Hicks, and that of the lay delegates by Mr. Henry Macklin. The lay secretary, Canon Hicks was re-elected. Secretary and Mr. John Ransford was elected as secretary of the laity. The retiring auditors, Messrs. A. A. Booker and Lorne Spry were also re-elected. The report of the assessment of the congregations was adopted as read.

The Bishop's Charge. Bishop Williams in his annual charge dwelt upon all matters that

must give as much as was given last year and one-eighth more. The Bishop of Huron then dealt with the subject of family worship. The family is the most important and sacred of all institutions. It is the great nursery of national character. It behooves us to guard jealously the sanctity of home, and yet in the home God's name is decreasingly recognized. The remedy should be applied in family worship and prayer.

**Church and Workman.**

Grappling next with the church and social service, his lordship said that the church has been the beneficiary of the past fifty years and a new presentation of the gospel. The church should study and be in close association with social and economic questions. He was not thinking alone about the service of the Lord's Day, but of such questions as that of the relations of labor and capital, trades unionism, trusts, the mutual responsibilities of the various classes, conditions of labor, etc. The people are groping their way towards a solution of these problems, often under self-constituted guides, generally extremists, who have abandoned the Christian faith and who frankly accuse the Christian church of being in league with the rich for the oppression of the poor. The reasoning appears to be this: The old institutions were formed in the past by the rich to oppress the poor, and the church is one of the old institutions. This is untrue. The church must be presented so as to prove her position that she is not in league with any class for the oppression of another. He pleaded for a greater study of social and economic problems and a greater interest in the actual questions that affect the everyday life of the people. On this continent there is imminent danger of labor and social movements drifting into hostility to religion. The church must be saved.

**Conditions in U. S.**

He did not believe that the drift had gone far in this country, but in the republic to the south the recent experience of a prominent religious leader from England convinced him that the labor movements in the United States are not only non-religious but anti-religious, and Canada is likely to feel the influence of this attitude. Organized Christianity must show that she is not hostile to the workingman. Church members have a great responsibility to the clergy. If the workers worked as unto the Lord, giving their utmost and best service, knowing that the real judge of how much service they should give is the Lord and not the trades union, and if the employers remembered that they too are responsible to the Lord for the wages they give and the conditions under which their businesses are carried on; if they remembered that a living wage is the first charge upon every industry, what a revolution would take place in the relations between employers and employees. Let not the possession of property nor the lack of it isolate from brotherhood nor create class distinction.

**What the Church Can Do.**

"These things at least we ought to do, and can do:

"1. The church should proclaim with new vigor and emphasis Christ's ideal of brotherhood as alone affording the true solution of all our social problems.

"2. The church, through her members, should make a fresh effort to show to the world the realization of brotherhood in Christ.

"3. The church should support all movements for securing just conditions of living, and all movements for the conservation of health and life.

"4. The church should organize definitely for social service."

**Outlook Is Bright.**

On the subject of the religious outlook his lordship spoke reassuringly of the future. There is a certain amount of unbelief of faith in matters of religion which is aggravated by irresponsible allegations. Three causes are to blame, the influence of modern science, modern criticism and the spirit of the age. All three are inter-related, and yet there is no reason to feel alarmed. The causes and the combination are only a temporary phase in the progress of knowledge.

**Churches Consecrated.**

In his charge yesterday the bishop read the list of churches that had been consecrated by him during the year. They were: Trinity at Warton; St. John's, at Port Elgin; Grace Church in Nissouri; St. James', in Wallaceburg; St. Matthew's, London, and St. Luke's, Brantford. Christ Church, Amherstburg, was completely renovated, and a new schoolhouse has been erected by Trinity Church, Galt. The new parsonages in the synod were built by St. James, Wallaceburg, St. John's, Tilsonburg, Hyde Park, and St. Saviour's, Waterloo. In reference to the new parsonages, his lordship advised that all congregations should furnish the parsonages with all modern conveniences, as help is so scarce now that many of the wives of the clergymen have to do their own household work themselves.

The number of confirmations this year was exactly one hundred less than last year, this year the number being 1,603. The largest confirmation class of the year was at All Saints' Church, Windsor, when 57 were confirmed at one time. During the year seven deacons and three priests were ordained.

### CANON TUCKER IS MADE PRECENTOR

Rev. George B. Sage, of St. George's Is Named Canon of St. Paul's Cathedral.

### FUNDS FOR THE COLLEGE

Recommendation Was Adopted to Increase Grant to the Sum of \$3,300 Per Annum.

At the meeting of the Synod of Huron Tuesday night, Bishop Williams announced that he had appointed Rev. Canon Tucker, of St. Paul's Cathedral, to be precentor of that cathedral, and that Rev. Dr. Sage, of St. George's Church, West London, had been appointed canon of St. Paul's.

The report of the executive committee was discussed, clause by clause, and with two slight amendments was adopted as printed in the convening circular. The total receipts for diocesan purposes, not including special funds, amounted to \$13,726.63, an increase of \$1,679.21 over the previous year, and is the largest amount in any year for a long time past. The contributions to Huron College were the largest of any year yet, and the amount contributed for other than diocesan purposes was \$29,200.53, also the largest amount. The collections for diocesan funds showed an increase of 8 per cent. over last year.

During the past year \$7,142.18 was paid to the widows and children of deceased clergymen. The widows' and orphans' fund is now larger than ever before, amounting to \$76,726.84. The commutation fund, which assists the superannuated clergy and those clergymen of more than fifteen years service whose incomes do not reach \$900 per annum, amounts to \$7,665.80 each year. The Huron College jubilee fund and the Sunday school commission fund both showed progress, and the general purposes fund has a balance of \$4,806.29.

**Synod's Investments.**

The invested funds of the synod now amount to \$21,725.56, an increase of \$52,756.12 during the year. The investments were made so carefully that the financial condition of the Synod of the Diocese of Huron is now better than that of any other synod in Canada. Messrs. Henderson and Ransford, on behalf of the laity, stated that this state of affairs was due to the oversight of the bishop, and the efforts of the diocesan treasurer, Archdeacon Young, Judge Holt and Mr. Charles Jenkins, also paid tribute to the work of Archdeacon Young. The bishop thanked the clergy for their efficient service, and said that the present state of affairs was due to a large degree to them, and the goodwill that prevails throughout the diocese.

**Huron College.**

The committee on closer relations with Huron College, through the executive committee, recommended that the synod be made responsible for the raising of \$3,300 a year for the college. Of this amount \$1,200 is already annually subscribed, so only \$2,100 per year extra is required. As the college is now under the control of the synod, half the members of the college council being elected by the synod, the recommendation was adopted. The amount is for the salary of two new professors, who will be appointed soon.

A conference on missions will be held tonight in Bishop Cronyn Hall and will be addressed by Rev. Canon Tucker and Ven. Archdeacon Rensford, of the church of the Ascension, Hamilton, as Archdeacon Cody, of Toronto, will be unable to attend on account of illness.

## THREATEN TO SHOOT LORD IF TROOPS USE RIFLES

### Some of the London Leaders of Transport Workers' Strike Are Angry.

London, June 12.—Some of the London leaders in the Transport Workers' strike are losing their tempers at the non-success of the strike call, and threaten to tear up the streets leading to the docks. Mr. Thorne, M.P., who is a member of one of the municipal councils in the neighborhood of the docks, offered a serious resolution to that effect. The council did not adopt the resolution, but Mr. Thorne intimated that the strikers were ready to tear up the streets.

A local councillor interjected the remark that the roads belong to the King, whereupon Thorne cried: "The King be damned!"

Ben Tillett, the Labor leader, made a speech to the strikers which set them wild with excitement. He represented the employers as trying to induce the Government to call out the soldiers to shoot down the strikers. He said that in that case he would get a gun and shoot Lord Devonport, the chairman of the Port Authority of London. This was greeted with loud cheers.

**Serious Rioting.**

There was a lively fight between the strikers and the police tonight at Rensselaire, one of the dock districts. The mob attacked 60 policemen who were going to reinforce a smaller force. Wild rioting followed. Many women and children were knocked down during the melee and the windows of houses and shops were smashed. Six policemen and several rioters were injured. Numerous arrests were made.

Princess Mary, with a great outpouring of society, were present at Rensselaire yesterday to witness the military polo tournament for the cavalry and infantry cups. The Queen's Bays defeated the Royal Horse Guards by 5 goals to 2. The Mounted Infantry beat the Grenadier Guards 5 goals to 1.

### CLARION CALL

(Continued From Page One.)

face of the "uncompromising opposition" of the church.

This subject was first brought to the attention of the conference by ministers from the famous tobacco districts of Western Ontario, where in their opinion the spiritual life of the community is suffering because of the increasing interest in the new crop.

**One Instance.**

The troubles of one brother whose congregation numbered but one man who did not chew or smoke were deplored, and a majority of the ministers felt that they must set their face sternly against tobacco smoking. So they passed the report putting the ban on the cultivation of tobacco by Methodists and enjoining upon them a persistent non-participation, with a view to the ultimate cessation of the industry.

**Some Were Opposed.**

There were not a few who opposed the report, on the ground that it was hardly the part of the church to oppose the cultivation of the products for which the soil of the country is best adapted. Rev. Dr. Manning, of London, questioned seriously the authority of the ministry to brand the use of tobacco as a sin, but the popular sentiment was too strongly against the weed, and the resolution passed easily. The delegates at the beginning to wonder whether the farmers will "snap their fingers in the face of the conference" as has been prophesied in some quarters, or whether Methodism will really be willing to work harder for less profit in order to live up to the mandates of the church.

**Parliamentary Procedure.**

The laymen attending the conference for the first time are impressed by the attention paid to the technicalities of parliamentary procedure, as set down in the church discipline. Arguments of half an hour's duration are made to settle some seemingly unimportant point, while business waits but once a measure passes the conference it is rock ribbed. Not the clearest parliamentarian could go back over its course and find a single technicality on which to hang a protest? When the conference legislates it legislates to stay.

**NO PLEBISCITE, SAYS HON. GEORGE FOSTER**

### The Minister of Trade Declares It Would Be Clumsy and Unnecessary.

London, June 11.—The Hon. George B. Foster, in another interview, said that considerable changes were probable in Canada's system of developing trade here. The reorganization would tend to greater efficiency.

Replying to a suggestion that the French-Canadians were hostile to Canadian participation in imperial defence, Mr. Foster said that that side of the question had perhaps been exaggerated. A plebiscite would be clumsy and unnecessary.

He added that President Taft's disclosures on reciprocity had left no soreness with Canadians.
