

STATES LONDON MILK BETTER

Dr. Tamlin Reports On Tests Made in Month of November.

TAKING FEWER SAMPLES

Dr. C. S. Tamlin, veterinary inspector of the board of health, finds the milk being delivered in the city so good these days that he is taking fewer samples, cutting the number down to 3 and 4 daily.

Figures contained in the latest reports of tests which reached him on Friday morning tend to show the correctness of this. In only one case were the number of bacteria high and the percentage of butter fat low, and that was from a dairy that has been one of the best all year. Dr. Tamlin said that he was at a loss to find the reason. The reports in question are on samples taken on Nov. 14, 15 and 16. On the 14th, eighteen samples were taken. Two of these contained 10,000 bacteria and the balance 5,000. The lowest percentage of butter fat was 2.45, and half the total were over 4 per cent. The by-law calls for 3.25 per cent butterfat.

On the fifteenth the samples taken showed about the same average with the exception of the one case mentioned above which showed 65,000 bacteria and 3 per cent butterfat.

On the sixteenth the highest number of bacteria was 2,500, and in many cases the number found proved too small to count. The butter fat percentage was a good average.

"The milk supply is excellent," said Dr. Tamlin. "The best way to improve it now is to go into the government test for tuberculosis, so that the city may have certified milk as well as pasteurized."

POINTS OUT NEED OF CHILDREN'S CLINICS

Miss Bertha Smith, superintendent of the Child Welfare Nurses, addressed the Tecumseh Avenue Mothers' Club at their regular meeting on Friday evening. Miss Smith emphasized the great need of more clinics in the city, which can be realized if the mothers will volunteer to help with the work, as this department cannot afford to engage any more nurses than they have at the present time.

Miss Smith showed the mothers pictures of children before and after treatment, which illustrated the work that the welfare is carrying on. Miss Smith made an appeal for heavy underwear for the children, and as a result the members have decided to make various articles for these needy little ones.

Dr. Dearle of Western University gave an address on the Western University bylaw, urging its support.

An interesting program followed, vocal numbers being given by Mrs. Phillips and Mrs. Peel, and readings by Mrs. Fellow. A collection was taken up for the Sick Children's Hospital, a social hour following, during which a dainty supper was served.

TO DECIDE PURCHASE OF COLLEGIATE DESKS

With the new Collegiate Institute fast nearing completion, the board of education will busy itself next week with the purchase of desks and other necessary paraphernalia for that institution. W. A. Tanner, secretary of the board, announced that a special meeting of the 2 committee must be held soon in order to accept tenders for these requirements. As some of the members of this group were out of the city the past few days, it was impossible to call a meeting for that purpose this week.

ALDERMANIC ASPIRANT IN FAVOR OF "U" BYLAW

While the central committee of the Chamber of Commerce has already announced that it will question the various municipal candidates as to their attitude on the Western University bylaw of \$250,000 that comes before the electors for consideration on Dec. 5, to date there has been only one candidate who has announced himself, William H. Stewart.

The latter explains that he is decidedly in favor of furthering education in any manner.

For some months past this candidate has interested himself in the inception of extension courses at the Western for working people.

DOCKMEN STRIKE AT PORT OF NEW ORLEANS

New Orleans, La., Nov. 25.—The port of New Orleans was completely tied up today by a strike of 12,000 and 15,000 cargo loaders and handlers who walked out in sympathy with the seamen, who quit work Monday. About seventy ships are in port awaiting cargoes. The public cotton warehouses and ten private warehouses were closed.

London Uses 15,000 Hydro Horsepower Daily

LONDON has set a record for hydro within the past few days. E. V. Buchanan, general manager of the public utilities commission, announced Friday that 15,000 horse-power daily is the city's portion at this moment, the highest mark that has yet been reached here in hydro development.

Mr. Buchanan points out that at the time hydro was first introduced a maximum estimate of 5,000 horse-power for this city was the object of much criticism and ridicule.

CONSERVATIVE DENIED HEARING IN MONTREAL

Montreal, Nov. 25.—What is believed to be a record in disorderly political gatherings was made last night in the College Hall of St. Cuneo, at the meeting called in favor of Wilfred Laurier, Conservative candidate in St. Henri-Westmount division, where for practically three hours deliberate heckling and interruptions prevented the speakers from giving either an outline of their policy or an opportunity to respond to any hostile argument.

Mr. Laurier managed to make himself heard for a few moments, and while his opponents were getting their breath, he declared that the meeting was a typical example of Liberalism, and that the disturbers present were "hoodlums." This created another riot, uniformed policemen then arriving on the scene, and the meeting was broken up in accordance with the hostile group were thrown out.

One man managed to ask what would become of the workingman if the tariff were lowered. He was told that his wages would be lowered in accordance with the meeting finally dispersed in a babel of noise.

NEW YORK STOCKS

New York, Nov. 25.—Wall Street, 10:30 a.m.—Dealings were light at the opening of today's stock market, and speculative interests continued to be around selected issues. Weakness of German marks featured the foreign exchange list.

STATES HE CAME TO GET WHISKEY

Prisoner Tells Court Goderich Was Dry. So He Tried London.

London apparently has the reputation of being a good place to procure whiskey for one drunk in police court Friday morning admitted that he had come all the way from Goderich to imbibe of the fluid that "stings like an adder."

"Were you drunk?" inquired Deputy Magistrate P. H. Bartlett of the unfortunate one as he stood up in the prisoner's box.

No answer.

"Were you drunk?" asked the court once more in a slightly louder tone.

No answer.

"Were you drunk?" thundered the court in accents that shattered the atmosphere.

"Why, yes, I guess I was full," said the prisoner in surprised tones.

"What's the matter, can't you get it in Goderich?" inquired Mr. Bartlett.

"No, it is pretty quiet there. There is nothing much doing," was the reply.

"All right; \$10 and costs," was the comment of the court.

Another blundering individual, who was too drunk to appear in court Thursday morning, bobbed up on Friday when his name was called. He told the magistrate that he had been given a couple of drinks by a man whose automobile he had repaired. He, too, was fined.

Edward Wallace, who stated that he was down on his luck, was given a chance to get to Toronto.

"What do you think about this man, Inspector Lucas?" asked the court.

"He looks quite able to walk," was the reply, and Eddie was given a chance to get to Toronto.

"He looks quite able to walk," was the reply, and Eddie was given a chance to get to Toronto.

"He looks quite able to walk," was the reply, and Eddie was given a chance to get to Toronto.

Sells Interests

Toronto Advertising Man Who Will Soon Announce Plans for Future.

A. J. DENNE.

TORONTO, Nov. 25.—A. J. Denne, who has been associated with the general advertising agency of Smith, Denne & Moore, Limited, Toronto, and previously with its predecessor, the J. Walter Thompson Company, has disposed of his interest in the firm.

Temporarily, Mr. Denne will continue with Smith, Denne & Moore, but his permanent plans for the future will be announced shortly.

Mr. Denne has been connected with advertising circles for the past dozen years, and has taken a very prominent part in Canadian advertising.

Inspector Lucas" asked the court.

"He looks quite able to walk," was the reply, and Eddie was given a chance to get to Toronto.

LEADING SURGEONS TO SPEAK IN LONDON

Drs. Archibald and Bloodgood To Address Local Practitioners.

Members of the Western Ontario Academy of Medicine will meet in the new Western University Medical School next Monday at 2 p.m., when two prominent surgeons will deliver addresses.

Dr. Edward Archibald, B.A., M.D., C.M., surgeon to the Royal Victoria Hospital, Montreal, one of Canada's outstanding surgeons, will deliver a considerable writing on surgical subjects, will speak on "The Place of Surgery in Pulmonary Tuberculosis."

The second speaker of the session will be Dr. John H. Bloodgood, surgeon to John H. Hopkins Hospital, Baltimore, who will take for his subject, "The Diagnosis of Cancer in Its Earliest Stages, or in Its Pre-Cancerous Stage and Proper Treatment." This address will be illustrated by lantern slides.

Dr. Bloodgood has devoted considerable time to the study of cancer, and is a member to the Association for Cancer Research and Control of Cancer. He has written on cancer, and in which, tumor, which are now being used in leading surgical text books.

Prior to the session of the academy a noon luncheon will be held in the Tremont Hotel, with these two surgeons as speakers, and to which, members of the Academy of Medicine are invited to attend. The luncheon is scheduled for 12:15 p.m.

FRENCH ARE AROUSED OVER CURZON WARNING

Paris, Nov. 25.—The French Government is deeply aroused over the warning given to France by Lord Curzon, the British secretary for foreign affairs, in his address in London yesterday and his criticism of the French policy at the Washington armaments conference.

It was explained in official circles today that Lord Curzon's remarks, as projected by Balfour as Great Britain's official representative at the Washington conference and that his, and not Lord Curzon's opinion would be accepted as that of the British Government.

Lord Curzon had in mind all the time he was speaking, the treaty recently negotiated between France and the Turkish Nationalists, to which Great Britain has taken exception, according to the view in official quarters.
