RESENT JAP SILENCE

Commander of U. S. Asiatic Fleet Treated With Coolness In Tokio.

During the whole period no Tokio vernacular paper printed a line ROBBER BEATS OWNER concerning his visit nor the official entertainments, including Premier Kato's dinner honoring the admiral. The Japan Advertiser, calling attention to the situation, expresses surprise and mortification that the extended hand of United States friendship has thus been ignored. "We cannot but feel with real ap-prehension," the Advertiser said, "that this conspiracy of silence may result in raising questions as to the sincerity of Japan in her protesta-tions of friendliness for America." In contrast to the attitude of the press, that of officialdom has been most cordial to Admiral Anderson, but it was noticeable that the admiral was not accorded an audience by the prince-regent, the reason being that the court was in mourning owing to Prince Kita Shira Kawa's death in France, immediately followed by the regent's departure to Formosa.
