is an expert wrapper.

Weak Man Is Only Half a Man.

WHY THE JOYS AND DEPLEASURES OF this world are dull pastimes. His sense of strength is dulled by a weak, depressed nervous system. His intellect is slow, his memory is feeble, he lacks vital force, he is nervous, he is easily excited, he cannot throw off the impurities which are in the kidneys and stomach.

SANDEN'S ELECTRIC BELT

is the cure for weak men. It restores the every day with a volume of animal magnetism and restores the power of the vital parts. Its cures—why, there is not a man in this State which knows not a cure by Sanden's Belt.

The Belt I received from you I must say has done a great deal of good. I feel stronger than I did three or four years ago. My firm and strength increasing. The pain in my back, writes

THE TWELFTH OF JULY.

Great Celebrations of the Orange Anniversary at Winnipeg and at Toronto.

Twenty Thousand in Procession in Belfast and No Disturbance Recorded.

WINNIPEG, July 12.—(Special)—The Manitoba Orangemen held a monster demonstration to-day at Killarney. The weather was propitious and none of the factors necessary for a successful celebration were wanting. Three large arches were erected on Main street. Bands, flags and drums were innumerable, and nearly 8,000 people thronged the little town. Speeches were made and sports held on the banks of the pretty lake Killarney. A demonstration for the Orangemen of Northwest Manitoba was held at Lake Dauphin.

TORONTO, July 12.—The Orange parade to-day was one of the largest on record, about 6,000 men being in line. The feature of the parade was the singing of the national anthem by the brethren, who halted for that purpose as the city clock struck the hour of noon.

MONTREAL, July 12.—The Orangemen of Montreal did not participate in the out of town demonstration to-day. They held a picnic at Albertville on Saturday, and paraded in regalia to church yesterday.

BELFAST, Ireland, July 12.—The usual celebration in commemoration of the battle of the Boyne took place to-day. Twenty thousand Orangemen marched in the procession and great crowds filled the streets. There was no disturbance, and everything passed off in the most orderly fashion.

MANITOBA AND NORTHWEST.

WINNIPEG, July 12.—(Special)—The Roche Percee coal mining property at Roche Perce, Man., was sold by order of court to-day to Leonard Cooker, of Birmingham, England, for \$15,500. This sum is sufficient to liquidate the claims of all the creditors.

Sixty men from Owen Sound passed through the city yesterday en route for Crow's Nest Pass to work on railway construction.

While nailing up a small windmill at St. Norset, James Fareau, aged six, let a hammer fall on his little sister. The two prongs of the claw struck the child in the middle of the forehead, penetrating the skull. The hammer was so firmly imbedded in the bone that force was necessary to extract it. Death was almost instantaneous.

T. O. Scott, son of S. T. Scott of the Qu'Appelle Progress, was accidentally shot to-day by some boys who were shooting at a mark with a small rifle. He was not seen by the lads who were shooting. The bullet entered his head an inch above the right ear. The bullet is still in his head, and his condition is very dangerous.

TOUCHY FRENCH EDITOR.

MONTREAL, July 12.—Some French Canadian papers are trying to make political capital from Sir Wilfrid Laurier's references to France and Waterloo in London. Le Monde says: "He is not a man, but is a mountebank, actor and buffoon, and heartless into the bargain. Aside from him not one man with French blood in his veins will rejoice with the English victory at Waterloo. Sir Wilfrid Laurier owes his power to the French. They will never pardon his villainy to France, and he will find at the hands of his own countrymen his own Waterloo."

THE CARDINAL VERY ILL.

MONTREAL, July 12.—(Special)—A Quebec priest, recently in Montreal, is authority for the statement that Cardinal Taschereau is so seriously ill that access to him is denied to all callers. He has been breaking down in health mentally as well as physically for some time, and is now worse. Death is believed to be only a matter of a very short time.

CECIL RHODES MENACED.

NEW YORK, July 12.—The London correspondent of the Tribune says: "The South African committee is revising Chairman Jackson's report, with Mr. Labouchere privileged to dissent from it, and Mr. Blake in retirement. It is confidently expected that in the main the report will reaffirm the conclusions of the Cape parliament, censure Mr. Rhodes, exonerate the colonial office, and casually mention Mr. Hawksley's refusal to hand over the telegrams."

INSURGENT LEADERS KILLED.

HAVANA, July 12.—Reports from Sancti Spiritus confirm the rumor that General Quintin Bandera, who commanded the insurgents in the engagement on July 5, at Papaya heights, was killed during the fight. Captain-General Weyley, who left Sancti Spiritus in the latter part of last week with the Asturias battalion, surprised a camp of the insurgents near Jarico, and a sharp engagement took place. Among the killed was the well-known Dr. Hernandez.

AN ARMENIAN SKETCH.

PARIS, July 12.—Paris Charmetant, director-general of the French mission in the Levant, has received by way of the Caucasus and Tiflis a report prepared by a number of Armenian notables and Gregorian bishops on the situation in Armenia. It took a messenger who had the documents in charge nearly three months to get through the difficulties and dangers along the Turkish frontier, which was carefully guarded against Armenians or Armenian sympathizers. The report, which fills thirty printed pages, is very carefully prepared and goes fully into details.

According to the authors the Turks in Armenia, fearing European intervention, have abandoned the old practice of wholesale massacre, but during the last year there have been clandestine exterminations and the most terrible persecutions, especially in the more remote provinces. The Turks openly boast that they have sworn to wipe out the whole Armenian race, slowly but surely.

The document recites in detail the various forms of persecution. It appears that tax collectors seize the inhabitants of the various provinces, and in some cases they are fastened to pillars, head-downwards. Freezing water is thrown over them, or they are beaten until the blood runs from their heads. In some cases their hands are tied behind their backs, and cats, first made furious, are thrown into their bosoms. Often they are burned in various parts of their bodies with red-hot irons.

"All the highways are guarded so as to prevent emigration. Not a single day passes without our hearing of or witnessing somewhere within the unfortunate provinces some fiendish cruelty. The Turks and Kurds enter houses of the Armenians in gangs, bind the men there, outrage their wives, sisters and daughters before their eyes."

The document concludes with the despairing cry: "Our hope is dying out. God help us! May Europe have pity upon us!"

WILL ONLY ADVISE.

CONSTANTINOPLE, June 11.—Queen Victoria, Emperor William, Emperor Nicholas, President Faure and King Humbert have replied to the telegram received by them from the Sultan, and all give advice similar to that sent by Emperor Francis Joseph. Emperor William says in substance that he regrets his inability to disassociate himself from the views held by the other powers.

Replies to the circular of the Turkish government to the powers relative to the frontier question have also been received by the ambassadors. They all decline to admit the Turkish pretensions.

The Porte has sent another circular to the powers, proposing that, in view of the disturbed conditions existing in Crete, Turkey send reinforcements to that island. To this the powers have also replied, endeavoring to dissuade the Porte from such a course.

This latter proposal on the part of the Turkish government is held to indicate that the Sultan does not intend to yield. LONDON, July 12.—The Daily Chronicle's Athens correspondent says: "We have just seen an important communication from the foreign minister of one of the powers, declaring that no power is inclined to undertake coercive measures to bring about a settlement between Greece and Turkey."

AT HOME WITH GLADSTONE.

LONDON, July 12.—The visit on Saturday to Hawarden of Sir Wilfrid Laurier, Mr. E. J. Seddon and Mr. Geo. H. Reid, prime ministers respectively of Canada, New Zealand and New South Wales, was a great success. The premiers were much impressed by Mr. Gladstone's mental alertness and physical vigor, and also by his magnetism and charm of demeanor. They declare it is no wonder that he exercised such an influence over his countrymen.

The conversation was informal and familiar. The visitors were engaged by Mr. Gladstone's vivacious recital of reminiscences and his knowledge of colonial affairs from the time, sixty-two years ago, when he was appointed secretary of state for the colonies. Several group photographs of Mr. Gladstone and his visitors were taken.

WILD MEN OF BORNEO.

LABUAN, Island of Labuan, Northwest Coast of Borneo, July 12.—Matsalley, the rebel leader, and sixty followers attacked and burned the government station at Gaya, at daybreak yesterday. They looted the town, sacked the treasury, securing £2,000 which was on deposit, imprisoned the officers in charge and others and killed the corporal in charge. The British residents have gone to Gaya with a small force of Dyaks.

There are no Europeans at Gaya, which is a mere collection of rude huts in charge of an Eurasian (half-breed) officer and a few police. Matsalley had already been proclaimed an outlaw, and it is believed that his following is small. The Dyaks and Sikhs, who are being sent to hunt him out of the jungle, will probably capture him easily.

Can Work all the Time. "My daughter was suffering with catarrh of the stomach, and tried many different prescriptions without benefit. Finally she began taking Hood's Sarsaparilla, and it helped her at once. She has taken fifteen bottles and is now able to work all the time. We prize Hood's Sarsaparilla very highly." ANNA MERRILL, Eaton, Que.

Hood's Pills act harmoniously with Hood's Sarsaparilla. Cure all liver ills. 25 cents.

DEAR SIR.—I can heartily recommend Burdock Blood Bitters. For a long time I was troubled with dyspepsia and weakness. The best exertion would tire me out. I had a great deal of trouble, but your B.B.B. has greatly benefited me, curing the dyspepsia and making me strong and well. JENNIE G. WATSON, Hepler, Ont.

Mining Companies' office stationery, a specialty at the Colours office.

TO TRY RETALIATION.

Allen Labor Law Put into Effect to Preserve Crow's Nest Road Work for Canadians.

Death of Col. Brown Chamberlain—How the Illitit Still Was Discovered.

(From Our Own Correspondent.) OTTAWA, July 12.—Before leaving for England Sir Louis Davies decided not to extend the time for lobster fishing in the Maritime Provinces. To-day Mr. Fielding, the acting minister of fisheries, revoked this decision and allowed nine days longer.

Catholics are wondering what has happened that the papal bull appointing Canon Bruchesi archbishop at Montreal has not been received, and now it is said he will not be archbishop.

Another city alderman, making the ninth, resigned to-day as a protest against the purchase of American fire engines in preference to Canadian ones. It is rumored that the government purposes to retire all civil servants over sixty years of age. Three deputy ministers will be affected.

Regulations are promulgated under which bags, barrels, boxes, casks, etc., may be re-imported free under the new tariff.

Canadian Orangemen purpose presenting a grand testimonial to Clarke Wallace for the manner in which he advocated a system of national schools for the Dominion.

Hon. Sydney Fisher will take a holiday trip to Japan.

OTTAWA, July 12.—P. J. Loughrin, the well known Ontario lawyer, has been authorized to act as agent of the department of justice for the enforcement of the Canadian alien labor law. Similar agents will be appointed in Manitoba, the Territories and British Columbia, where the government has decided to put the alien labor law in force, so as to protect Canadian workmen on the Crow's Nest Pass railway. The same precaution will, it is expected, be taken wherever it is found necessary at other points in the Dominion.

It is understood that the Dominion government has an understanding with the C.P.R. to give the preference to Canadian goods in all cases. Mr. J. Haney, manager of the C.P.R., has already intimated his intention of only employing Canadian labor. The Minister of Customs has issued an order to collect duties from all parties who may bring into the country with them goods for working on railways. Hereafter this class of goods was admitted under the clause which made settlers' effects free.

Profound regret is expressed in this city at the intelligence from Lakeside, Ontario, that the Hon. Bro. Chamberlain, for many years Queen's printer for Canada. Previously he was one of the proprietors of the Montreal Advertiser and member of the Commons for the county of Missisquoi, and in 1870 he received his C.M.G. for services in repelling the Fenian invaders at Essex Hill, on the border of the state of Vermont. The deceased was a man of lovable disposition. He was president of the St. George's society of Ottawa for several years.

The interesting fact is elicited that the discovery of the illicit still at Charlevoix, Quebec, was due to denunciations among the proprietors. They are now being investigated by a man specially from France to work the establishment and had fitted it up with most complete machinery, but disbursements among the proprietors led to the snaf being given away.

The announcement that Sir Oliver Mowat is seriously contemplating accepting the position of secretary of state for Ontario has led to a strong protest from political friends against his leaving the Ontario cabinet. They believe that with Sir Oliver out, the party would suffer a great loss.

PROGRESS OF KOOTENAY

ROSSLAND, July 12.—Collector Johnson, of the Port of Nelson, has completed his report for the fiscal year ending June 30. It shows that the exports of ore from West Kootenay, including ore shipped via Revelstoke which is credited to New Westminster, amounted to \$4,341,450. By quarters, the exports were as follows: \$730,535; \$888,800; \$1,919,040, and \$1,302,184. More than half this amount was from the mines of Rossland, the balance being made up of the production of Nelson, Ainsworth and Slocan mines. For the quarter ending June 30, 1897, the value of the exports was \$1,467,667, the increase this year being over 200 per cent. The exports for the month of June were \$489,189.

The collections for the same month were as follows: Rossland, \$1,013,013; Nelson, \$7,714; Kaslo, \$7,901; Trail, \$3,243; Waneta, \$1,357; Ryzert, \$147. Collections by quarters for the fiscal year were \$69,138, \$84,875, \$90,228, \$104,762, making a total, including inland revenue, of \$350,078.

The banquet on Saturday to Lieutenant-Governors Dewdney and Mackintosh and Provincial Minister George Carlyle was a big success. Covers were laid for one hundred and the speeches were pronounced the best ever heard on an occasion of this kind in Kootenay.

TYNDALL IN A TRANCE.

SPOKANE, July 11.—Alexander J. McIvor Tyndall, the well known mind-reading seer, who is repeating the same feat this evening at auditorium hall that resulted in the death of Washington Irving Bishop at Minneapolis several years ago, went into a cataleptic trance. Later he passed into a hypnotic condition, in which he still remains.

While passing through the cataleptic trance he labored under the impression that he was driving carriages and performing other of his well known feats. It took eight men to hold him during this period.

As soon as this condition passed, he was taken to his rooms at the hotel, where he is at present.

POWER HOUSE WRECKED.

TACOMA, July 11.—An accident at the electric power house soon after noon to-day resulted in very great damage to the building and plant. It was caused by the breaking of the governor rod in the big engine. This caused the immense wheel to run away. Thomas McPherson, the engineer on watch, when he saw what had happened, made a rush for the throttle and endeavored to shut off the steam. He had nearly succeeded when he became aware of the great danger of the wheel breaking and sending him into eternity. He concluded that discretion was the better part of valor and left his post. If he could reach the valve leading from the boiler room to the basement below the engine in time to shut off the steam the plant might be saved. The wheel, which was attached to the basement, but ere his feet left the last step there was a terrific noise, not unlike the bombardment of a fort, and he knew the worst had come. He sprang to the right, however, and soon had the steam supply cut off. The noise of the crash was terrific, and continued for several seconds. The wheel, which was 100 feet in diameter, was so badly wrecked, but can be repaired. Pieces of iron quitted four dynamo, two of them quite badly. The wheel that broke weighed twenty-three tons. It was of the belt transmission type and was fifty feet across the face and twenty-four feet in diameter. The engine is of the compound type, its measurements being 30x44x48. It was a magnificent piece of machinery. In fact, one of the finest in use in the Northwest. Along towards evening the uninjured dynamo was started and sufficient power generated to run the cars from outlying points to the city, thus bringing back the people who had journeyed out during the forenoon.

ALL EYES ON LONDON.

SAN FRANCISCO, July 12.—"London in 1901" That is to be the rallying cry of the Christian Endeavors for the next three years.

It is the ambition of President Clark and his millions of followers to show the Old World something of the strength of the organization. Nashville has already been chosen as the place of meeting in 1898, and at the annual meeting of officers Tuesday morning the selection of a strong bid, and both St. Louis and Cincinnati are anxious to have the young Christians visit them. All that can be said now is that the matter is unsettled, and each applicant seems to have an equal chance of success.

The visitors are already beginning to depart, but it will be more than a week before the city will resume its normal appearance, for the decorations will remain and many of the strangers have announced their intention of spending several weeks in the vicinity.

TIENSIN AGITATED.

SAN FRANCISCO, July 12.—The Oriental steamer Doric arrived from China and Japan to-day, two days ahead of time. She brought the Yokohama Express, the Japanese mail gives a summary of the correspondence from Tientsin, which shows that the state of the foreign colony in that city is alarming. Three Chinese were killed in the last three days of May on charges that they had stolen property from the children in their street serve as offerings.

The foundation of the new French cathedral (Catholic) was dedicated on June 20.

A Tientsin correspondent says: "It is reported that a conspiracy has been formed to attack the foreign settlement on June 21 and burn the Roman Catholic cathedral. The consuls of various nationalities have deemed it prudent to telegraph the facts to their governments and call the attention of men-of-war to the gate leading from the foreign settlement to the Chinese quarter is closed every night at 10 o'clock. The Japanese government has just issued a proclamation in response to appeals from the Japanese consuls. Chinese soldiers are quartered in various parts of the city for the purpose of checking the rioters."

LOATH TO ARBITRATE.

WASHINGTON, July 12.—Hawaii has offered to refer to arbitration the immigration question pending between herself and Japan, and the Tokio government has so far ignored the proposition. Telegraphic information to this effect has been received at the State Department, and will there possibly delay the report just published that Japan had agreed to arbitrate the vexed question she is discussing with the Hawaiian government. The Hawaiian authorities do not expect Japan to accept arbitration.

JUBILEE SOLDIERS HOME.

QUEBEC, July 12.—The Jubilee contingent arrived at 4 o'clock this afternoon on the steamer Scotsman. The local troops were escorted to the citadel and the West-Ins men proceeded to Montreal on the ship, at 7 p.m. The troops received a grand ovation here, thousands of the West-Ins men were present, and the band playing "Home Sweet Home."

All the men wore Jubilee badges presented by the Queen, and all looked in the pink of condition and even more fit than when they started. Col. Aymer, interviewed, said the colonials had been magnificently treated by the people of England. It is rumored that the Scotsman had a perilous trip up the river to Rimouski, having missed the pilot in the fog, and nearly ran ashore.

LONDON, July 12.—The Berlin correspondent of the Daily Mail says: "The Japanese minister here assures me that the idea of the adoption by Japan of offensive measures against the American annexation of Hawaii is absurd."

Dying Man Grasps at a Straw.

"Dr. Agnew's cure for the Heart has done a much more than I owe it to suffering humanity to give testimony to. For years I had smothering spells, pains in my left side, and sweated blood. When I took the first dose of Dr. Agnew's Heart Cure my friends thought I was dying. It gave me almost immediate relief. I am now as fitly cured me." Mrs. F. L. Lusden, Scranton, Pa.

For sale by Dean & Hiscocks, and Hall & Co.

NEWS OF THE MINES.

Rossland's Shipments for Last Week Largest on Record—The Season's Total.

Clean-up at Grand Forks Induces Further Placer Locations—The McMurdo District.

ROSSLAND, July 12.—Shipments of ore from Rossland mines since January 1 total up to 84,476 tons. The shipments for last week totalled 2,432 tons, as follows: Le Roi, 1,905; War Eagle, 250; Iron Mask, 48; Columbia and Kootenay, 78; Centre Star, 125; Cliff, 25. This is the largest output for any week in the history of the camp, the total for the previous week of 1,800 tons having been the largest to that time. The Trail smelter has shipped as part product of the above ore 3,345 tons of matte. The Slocan has shipped since January 1, via Kaslo, 14,199 tons of ore and concentrates, and via Nakusp 4,090 tons, a total of 18,199 tons. The Hall Mines smelter at Nelson, which treats the entire product of Hall Mines, together with small quantities of ore from Slocan and Rossland, has shipped 326 1/2 tons of matte.

Meetings of the Homestake, Gopher, and E. Lee companies were held here to-day and the sale of these properties to the Homestake Consolidated Gold Mines of London, England, was ratified. It is expected that the new company will take charge and begin mining operations inside of 15 days. The London company pays in cash or stock 12 1/2 cents per share for all the stock of the above named companies which were capitalized for \$4,000,000, and provides cash working capital of \$125,000.

GRAND FORKS PLACERS.

GRAND FORKS, July 11.—The first clean-up of the Eighteen Carat placer group took place last Wednesday after a twenty-four hour run, and resulted in \$21,600 worth of gold. This was taken from about four yards of pay dirt. Owing to the imperfect manner in which the sluice box was made, there could not have been more than one-quarter of the gold caught, as the lumber was not planned and used of the precious metal must have been caught on the rough surface. Schuler and Willet, the principal owners, were putting in a 100-foot sluice box and 500 feet of time last Thursday. As a result of the recent clean-up, placer claims have been staked for over two miles up the Kettle river.

Last Thursday the owners of the Eighteen Carat arranged with a Mr. McDougall, of Rossland, to put \$300 worth of claims on the ground with a view to three days, for the purpose of separating the free gold from the black sand. Mr. McDougall has had fifteen years' experience in placer mining, and expresses the opinion that this ground can be worked so as to average \$10 to the man.

O'Connor Bros. are about to sell the Humming Bird on the north fork for a handsome sum to a Colorado company. Assays from the cropping range from \$28 to \$80 per ton.

THE KOOTENAY CONSOLIDATED.

General Manager Clouhey writes from the Kootenay Consolidated mine in the McMurdo district, British Columbia, to the officers in Everett, that they have struck rich ore at a depth of eighty feet. They ran in twenty-five feet, cross-cut eight feet and are still in good concentrating ore. At the lowest estimate there is \$120,000 of ore in sight. They will run in 100 feet further, then sink a shaft 100 feet from the tunnel and cross-cut the vein, which is twenty-five feet wide.

FAIRVIEW DOING WELL.

There has been a new strike made by Chas. Richter and Jack Allison, 12 miles from Fairview, on Kruger mountain. A sample assayed by Carr & Co. gave \$1,000.77 in gold, and the quartz seems to be a free milling proposition. The ledge is about five feet wide, well defined and solid. It runs into the face of the mountain and is within easy access of the Keremeos and Penitencion road. There are a number of claims adjoining it, a rough valuation of the quartz from these being \$25.50 in gold, \$10 in silver and \$4 in copper.

The Smuggler Co. cleaned up for the first time on the lot of the present mill, after putting 50 tons of the average ore through the Strathely mill. The result was a brick of gold weighing 40 ounces while the concentrates are of the richest kind. The latter will be shipped to Everett for treatment. The mill is being cleaned up. Geo. Maurer, the managing director, and Robert Dewar, the superintendent, are slated at the results.

INDIA ALL RIGHT.

NEW YORK, July 12.—A London cable to the Tribune says: "There has been something like a scare about India, but without apparent reason. Journalists have been writing as though another mutiny is imminent because two British officers were murdered at Poonah in the last week of the month. The news of the rioters in the suburb of Calcutta. No Sepoys have been concerned in these affairs and there is no ground for apprehending an outbreak or a military revolution. Since 1857 India has been a military monarchy, too strong to be overthrown. Evidently the people of India are more discouraged than irritable or resentful. The native races are temporarily disheartened by the plague and famine, but the unrest is not considered dangerous by the British government."

To prevent pale and delicate children from lapsing into chronic invalids later in life, they should take Ayer's Sarsaparilla together with plenty wholesome food and out-door exercise. What they need to build up the system is good, red blood.

A Wonderful Medicine.

BEECHAM'S PILLS

For Bilious and Nervous Disorders, such as Wind and Pain in the Stomach, Sick Headache, Giddiness, Fullness and Swelling after meals, Dizziness and Trembling, Cold Chills, Flushing of the Face, Loss of Appetite, Shortness of Breath, Costiveness, Blotches on the Skin, Disturbed Sleep, Frightful Dreams, and all Nervous and Trembling Sensations, &c. THE FIRST Dose WILL GIVE RELIEF IN TWENTY MINUTES. This is no fiction. Every sufferer is earnestly invited to try one Box of these Pills, and they will be acknowledged to be

WORTH A GUINEA A BOX.

BEECHAM'S PILLS, taken as directed, will quickly restore Frames to complete health. They promptly remove any obstruction or irregularity of the system. For a Weak Stomach, Impaired Digestion, Disordered Liver, they act like magic—a few doses will work wonders upon the Vital Organs; strengthening the muscular System, restoring the long-lost Complexion, bringing back the keen edge of appetite, and arousing with the Bile secretions of the system the physical energy of the human frame. For those who are afflicted with hot climates they are especially recommended. These facts are admitted by thousands, in all classes of society, and one of the best guarantees to the Nervous and Debilitated is that Beecham's Pills have the Largest Sale of any Patent Medicine in the World.
