-Mr. Beckwith has ope s of Ladies' Whitewear for the sprin stand that if distrust mast such acts then those who are engaged in promoting the trusts should have taken that view into consideration be fore consummating their plans. It would not be surprising if the rough rider president developed into a pop-ular hero to share with Washington and Lincoln the highest national hon-ors, for he is at the head of a peoply who are quick to discern and ready to ieties had already intimated their illingness to aid in its formation and e desired to know if the Granville blace where you will purchase. Be sure to call and see it whether you ntend buying at once or not. -There are still about 4,000 barrel entre Society would aid in the mat er. After hearing Mr, Cox and som f apples stored in the warehouse here. Shipments during the last few weeks have been small on account of the withdrawal of two of the steamers iscussion in regard to the propos-ociety, a resolution was unanimous passed to assist the Nictaux society in orming a county society. The secretary for agriculture was hen introduced by the chairman and who are quick to discern and ready chartered to carry apples and the connce and sou equent scarcity of shipping space. praise honest independence and soun judgment. Thus far his official caree has been eminently that of a reform -The investigation into the caus has been eminently that of a reform er and to the next generation the peo-ple's 'Teddy' of today may be known by the not unpleasant alliterative title of 'Roosevelt the Reformer.' There is a grand opportunity for him to win his spurs. of the collision between the Prince Ru-pert and the Princess Louise was con-cluded on Monday. The jury acquit-ted the officers of the Prince Rupert of all blame, and assert that the schooner Princess Louise, was, at the time of the collision, anchored in the channel contrary to law. —Attorney General Longley, acting premier, presented the financial state-ment of the province in the legislature iast week, and stated that the total revenue for the year was \$190,232.83, and the total expenditure. \$188,926.56, leaving a surplus of \$1,303.32. The revenue from mines and minerals was \$437,726.77. contrary to law. -Japan is one of the most progress -Japan is one of the most progress-ive of nations and, in the emulation of Western schemes of government and industry, her people show a degree of common sense that is quite up to the standard of general international rec-ognition. In the arts of peace and war a concurrent advance is being made and so rapidly that history must be searched closely to find a par-allel record. A double decade ago, Japan, to the idea of western civili-zation, was about on a level with -The Bridgetown Larrigan Com Japan, to the idea of western civili-zation, was about on a level with China, in the mire of ignorance and superstition. Twenty years ago a be-ginner in the school of advanced civ-ilization and now planning a World's Fair! It is an astonishing achieve-ment. An intelligent people have grap-pled with the modern ideas of progress and are mastering them in the up-building of a nation that is already pre-eminent in the east and is being counted among the great powers of pany hays been putting in a new en-gine and boiler, forty-five horse power, from the foundry of Burrill, Johnson & Go., Yarmouth. The engine room has been newly fitted up and other im-provements introduced, and there are evidences of a prosperous season ahead. Mr. MacKenzie received yes-terday the gold medal awarded the firm for the excellence of their exhibit at the Halifax exhibition last fall. re-eminent in the east and is being counted among the great powers of the world. The plans for a World's Fair mark the ambition of the nation-al government very distinctly, for these international shows have not yet been numbered to the stage of com-monalities. The establishment of a steel manufacturing plant at a cost of ten million dollars is an evidence of more practical every-day effort to im-prove industrial conditions and fur-nish an example in mining develop--The appeal in the case of Miller vs. Green, which followed the decision of the Supreme Court at Annapolis last October, was dismissed by the full bench at Halifax last week. This prove industrial conditions and fur-nish an example in mining develop-ment that Canada might follow to ad-vantage. If Japan were to wait for foreign capital to develop her miner-al resources, it would be a long wait, but the opening of the public purse to this end guarantees a speedy expan-sion of the industry. Canada has long needed just such a promotion of interests as Japanese statesmen have undertaken, and such a lift would been more in keeping, perhaps, with the public weal than the schemes for individual or corporate aggrandizeindividual or corporate aggrandize-ment that are now associated with

-Mr. Whitney's resignation from the presidency of the Dominion Iron and Steel Company gives strength to the present that the maximum comthe reports that this enterprise in com-mon with the Dominion Coal Company is now virtually financed by Ca-nadian capital. We predict that with the change of officials the same upward tendency will mark the sales of steel stocks on the markets that have -Two prosecutions under the Fruit

-Two prosecutions under the Fruit Marks Act were made before Justice Dennison at Kentville last Wednesday, the first against Robert Coyle for ne-glecting to place his address on the barrels, the second against George Brown of Grand Pre for fraudulent marking. The latter case was, ad-journed for further evidence. We are informed by the inspector that several shippers are still neglecting to mark their barrels properly; as it is intend-ed to enforce the Act strictly in future, any party whose apples are found go-ing aboard the steamers at Halifax not marked with name, address, var-iety and grade of fruit, are liable to be fined. Shippers at least should be interested enough in the enforcement of the law to comply with its require-ments. steel stocks on the markets that have marked sales of coal since a similar change was effected. To Mr. Whitney belongs however, the credit for under-taking great things in our mining de-velopment and it is easy to read that the figures of the prolits of his pro-motions are amply adequate for the risks he incurred in investing in such ernment. Attorney- General Longley replied for the government, stating that the delegation's request would re-ceive the most careful attention of the promising staples. A merging of the oal and steel companies' interests is the next step looked for, and it will overnment. not be an unpopular move with the public unless an attempt is made to nake the local coal con

dividend on the capital invested in the steel industry.

gave an interesting address on Dairy-ing and Beel-Raising which was lis-tened to for over an hour with mark-ed attention and interest. Short addresses were also made by Messrs, Irvin, Pickup and Weathe spoon and others who referred to the pleasure they had in hearing Mr. Chipman's lucid and very interesting We are glad to know that the Gran-ville Centre Agricultural Society is in a very flourishing state and that its monthly meetings are of great inter-est to the agriculturists of that sec-tion of the county. Com. PERSONAL PARAGRAPHS. Miss Bent of Digby is visiting Mrs. W. E. Reed. Mr. F. L. Milner has been in Halifax for several days. Miss Leavitt of Annanolis is th guest of Miss Madge Morse.
