THE SPRINGHILL STRIKE

NO PROSPECTS OF SETTLEMENT AND THE SITUATION LOOKS GRAPY-MANY MINERS SEEKING EMPLOYMENT ELSEWHERE.

A Springhill despatch to the Herald says:—Tomorrow will complete seven weeks' strike and there is not the least sign of a settlement. The quietness of the town is remarkable, only three or four arrests for drunkenness since July, and no disturbances of any kind. The town's one policeman is having a great time. Altogether the citizens may well be proud of their home, for it is questionable whether any other mining town of seven thousand population could show such a record for order and peace under similar circumstances. One would expect to find conditions the very opposite to those above referred to prevailing in a place like Springhill, unless you are acquainted with the people.

There used to be an impression abroad that the miners here were an unruly, impetuous lot, who cared nothing for the rights of others so long as force would secure for them whatever they desired. Anyone who associates with them for a little while will very soon find those impressions are imaginary only. The stranger is much impressed with the intelligent and earnest way in which the many intricate points in the present disputes are explained.

One thing above all others stands out very plainly, which is that they have every faith and conviction in the justice of their claims, and determination to win is stamped on every face, and seen in every movement. The streets have a deserted appearance any day, a large number having accepted of some other work, or at least all who can do so will, at least engage themselves at different places around the province, thus making it comparatively easy to support a few who are not allowed to leave, and who will be at hand to supervise matters as they arise.

The Electric Light Company have just bought culm coal at Pietou, and say the cost of getting the coal into their premises is lower than the cost when they bought coal at Springhill. The fire-wood business is brisk and preparations for winter supplies are going apace.

The merchants take a very grave view of the situation, and see visions of unpaid bills. The people must be fed, and it is the merchants that have to do this, so that they have to feel the effects of this unfortunate strike as much as anybody. The Cumberland Railway and Coal company's officials and mechanics are busy loading all culm along the tracks and storing it near the fire doors. Evidently they are making every preparation for a winter's stand.

A weak Stomach, causing dyspepsia, a weak Heart with palpitation or intermittent pulse, always means weak Stomach nerves or weak Heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis. will mail samples free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by Royal Pharmacy.

REVIVAL OF RUMOR THAT A NEW ENGLAND COMPANY WANTS TO PURCHASE.

(St. John Sun.)
Boston, September 17.—It is reported here that President Miller of the New York, New Haven & Hartford Railway, which is in control of the Boston and Maine, has made an offer of ten million dollars for the Dominion Atlantic Steamship Line. As the officials here refuse to talk it is impossible to verify the report.

DENIES LINE IS SOLD TO NEW ROAD.

(Boston Daily Tribune.)
Knoxville, N. S., Sept. 18.—General Manager Gillies of the Dominion Atlantic line was interviewed today in reference to the rumored sale of the line to the New Haven road and said there is no foundation whatever for the report. "President Miller will not want our line," he said, "until he has acquired other connecting roads. 'If it for sale' the reporter asked. "Everything is 'for sale' if a high enough bid is made. All I can say now is that ours is not sold. We have a good paying road and something like and we don't think others would like to get possession of it."

TAKE POISON BY MISTAKE

DR. PEPPARD, OF GREAT VILLAGE AND SAMUEL LINDSAY, OF LONDONBERRY STATION, POISONED BY STRYCHNINE ACCIDENTALLY MIXED IN DRINK PUT UP BY THE DOCTOR.

Dr. J. L. Peppard, a prominent physician of Great Village, and Samuel Lindsay, of Londonberry Station, met death by accidental poisoning at the former's home Friday afternoon. The doctor and Mr. Lindsay were engaged harvesting oats. The afternoon was intensely hot and after working for some time both men grew thirsty and went to the doctor's house for a drink of water. As they approached the house the doctor said: "Come into the office and we will have something better than butter-milk." On the shelf were two bottles, one containing strychnine and the other a fruit syrup. The doctor took one of the bottles down and mixed a drink, of which both men partook freely and returned to work. In the hall a few minutes later the doctor, who was driving the horse rake, was seen by his wife to fall from the seat.

Realizing that he had taken poison he called to a boy near by to rush to the house and bring him a drink of mustard and warm water. The boy in the excitement forgot the message and when Mrs. Peppard reached her husband's side he was in the throes of death, and was only able to gasp "I am dying; wrong bottle; how is Lindsay?" and before anything could be done to pass away. In the meantime Lindsay, who was working in another part of the field, became sick and was taken to the house, where he underwent intense suffering until Saturday morning, when he passed away. It is believed that the doctor in mixing the drink for himself and companion took the bottle containing the deadly poison, as they were both alike in size, shape and appearance.

The Mail Order Evil

The fall and winter catalogues of the mail order houses, of Upper Canada, are now being freely distributed over the country. This is one of the growing evils with which the small town and country merchants have to contend. In the past we have repeatedly called attention to the fact that too much money is being sent to the cities, and as far as we know, have had our labor for our pains, other than to create some criticism, which we expect. Every dollar sent to help swell their bank accounts in which build up the town or city in which they do business. Not a dollar of it ever finds its way back again to any of our country towns in a legitimate business way. They pay no taxes to help keep up our schools and roads, contribute nothing towards the support of our churches or poor, neither do they take any farm produce or part of our churches or poor, neither give any long winded credit in exchange for their goods. It is all a "hard money" before you see their goods in stores, and yet our farmers expect annually sent to these departments our merchants to pay them a fancy price for their butter, eggs and poultry, for their lumber, wood and shingles, and then they take the money received from our home merchants and send it to a city department store. There is neither economy nor honor in such a manner of doing business. You can write it down in your hat that, as a rule, the city department store will give you no better value than our own home merchants, and our citizens who patronize them, if they would sit right down and think the matter over seriously, would, we believe, come to the conclusion that they are neither loyal nor patriotic in doing so.

The Windsor Exhibition

Windsor Tribune.—Large entry lists are coming in for the Fruit, Vegetable and Poultry Show to be held here next month. They are chiefly from Kings and Annapolis counties. Hunters had better look sharp or the bulk of the prizes will flow into the two neighboring counties and the pride of the world, the Avon Valley, will be left lamenting. The Windsor School staff is becoming interested, and many of the children are at work on individual and collective exhibits. The Manual Training and Domestic Science departments will also have good collections. It is expected that the schools throughout this and the other counties will send exhibits. The Exhibition Commission held a meeting Tuesday evening in the Board of Trade rooms to further arrangements. The co-operation of every section in Hants is desired in order to make the forthcoming Exhibition the banner county show of the province.

MAINE CROPS ARE DAMAGED.

Thousands of Dollars of Damage Done by Unusually Early and Heavy Frosts.
Portland, Me., Sept. 20.—Reports from many sections of the state record damage to unharvested crops to the extent of thousands of dollars, done by an unusually early and heavy frost early yesterday. Everything in the way of garden truck in many places was killed. Fruit escaped with slight harm. Corn was badly damaged.

That hacking cough continues
Because your system is exhausted and your powers of resistance weakened.
Take Scott's Emulsion.
It builds up and strengthens your entire system.

And Still They Come

NO FEWER THAN 25 BAPTIST MINISTERS RESIDE IN WOLFVILLE.

Rev. Dr. Manning and family will shortly leave for Wolfville, N. S., where they will reside during the winter. Mr. Manning will resume her studies at Acadia College. A rather curious fact in connection with Dr. Manning's removal to Wolfville, is that the twenty-fifth Baptist minister who will reside in Wolfville this winter. This is rather remarkable considering that Wolfville has only a population of a little over a thousand people.

THE EXHIBITION OVER.

One Cause of Its Success, the Perseverance of Exhibitors.
Unquestionably the recent Toronto Exhibition has been a success. One reason for its growth from year to year rests in the increasing earnestness of the exhibitors to make truly artistic displays. For example, the T. Eaton Company prepared a model home of five rooms that attracted thousands to the Manufacturers' building. Every effort was made, not only to display the home-making goods which the company has for sale, but to provide an artistic ensemble. That this was accomplished cannot be doubted. The drawing-room in particular was most beautiful. The walls were paneled in delicate tints, the silken hangings and the soft rug on the floor were in harmony with the upholstery, and the mahogany furniture was exquisite. To complete the picture the company had selected a magnificent Goulay piano of Sheraton design to stand in the corner of the room. The effect was superb. Everyone knows that the Goulay is the finest piano, both in case and in musical excellence, manufactured in Canada to-day, and the Eaton Company will never be found behind the times. It is announced that a similar display will be made by this firm at the Ottawa Exhibition. For their model drawing-room there also an Art Goulay piano has been selected. In fact, no really tasteful drawing-room is complete without this magnificent instrument.

Boy Shot By His Companion

Houlton, Me., Sept. 18.—A double murder, in which two boys were shot by a boy companion while hunting in the woods, took place on Tuesday afternoon in the woods near Lime-stone, a short distance from here, where the boys all live. They are sons of respectable farmers. Guy and Oscar Downing, brothers, were shot by Guy Tardis, who was with his cousin, Fred Tardis. The two parties met in the woods three or four times, and each time quarrels between them grew worse. The dispute was as to the right of each party to hunt in the woods near each other's homes. Finally, Guy Downing stood his rifle against the fence and ordered Fred Tardis to do the same. The former then went up to the latter and seized him by the collar. Oscar Downing started toward Guy Tardis, who fired his gun, the bullet piercing Downing's lung and coming out at the shoulder blade. He dropped dead instantly. Guy Downing then ran, when Guy Tardis fired at him, striking him on the top of the head, through his brain and killing him instantly also. The Tardis boys were arrested and will be arraigned before the magistrate here immediately. The boys were all about 17 or 18 years old.

TERRIFIC GALE OFF NEWFOUNDLAND.

Eleven Vessels Wrecked and Five Lives Lost—Worst Storm in 40 Years.
St. John, Sept. 19.—The worst equinoctial gale recorded here in 40 years, swept the Newfoundland coast today. To-night's reports from fishing towns and settlements showed that five lives had been lost. The storm struck many fishing vessels and eleven schooners and sloops were driven ashore at various points, or foundered at their moorings. A large number of vessels are on their way to Newfoundland from Labrador, where the fishing season closed a few days ago, and it is feared more disasters will be reported.
