RICES OF IRON AND STEEL BEFORE AND SINCE THE REVIVAL.

From the Annual Report of the U.S. Iron and Steel Association)

The following table will show the lowest prices suched by various iron and steel products since the anic of 1873, the highest prices reached since the sylval in 1879, and the prices prevailing at the middle (May, 1880) Detailed tables of vices for a long series transaction. years will be found elsewhere in this report :-

Antiques.	Lowest Price.	Highest Price Feb., 1880	Price. Nay 15, 1880
ol authracite foun- dry pig trou at Philadelphia Linging Rock car-	Nov 1878 \$10 50	\$43 00	\$25 00
wheel pig from at Cincinnati	\$28.00	63 00	60.00
Philadelphia	\$10.32	89.60	56 00
ron rails at Phila- delphia	\$41.50	68 00	50.00
lu Pennaylvania	\$40.00	85 00	65 00
ld fron rails at Phil- adelphia	\$18 00	44 00	26 00
so I wrought scrap at Philadelphia	\$20,00	42 00	25 00
Cut nails at Pitts- burgh & Wheeling		5 23	3 25

The fluctuations in the price of Connellsville coke ave been greater than in any of the articles above men-lioned. At the close of 1878 and, the beginning of 1879 be price at the cross was as low as 90 certs a too borney is 70 it advanced by successive stages to \$1. and a February and March last it rose still higher to \$3. a law sales being made at even \$3.50. It has since failen to \$2.50. Iron ore advanced in all about 100 per cent lifter the revival, but it has since receded about 25 per and from the present quotations. ent. from the aighest quotations

-Excellent iron ore from the Swandon mines is eing received at Port Hope

-Another oil refining company, with their headuarters at Petrolia, is apoken of.

-Business appears to be looking up at the Spring Hill, N.S., coal mines. The miners wages have been increased from 90 cents to \$1 per day, and no nereased number of men have been engaged. The output of coal from 1st January to 1st of June of this year exceeds by 10,000 tons that for the same period of 1879.

-A gentleman who recently arrived from Cape output of coal this year exceeding that of former years by 60,000 or 70,000 tons. Orders had already been received for as much as can be mined, and the whole resources of the proprietors and men will be atrained to meet the demand

—We are informed, says the Ironton (Obio) Register, that on the Lawrence and Belfont lands they have a manganic ore that has about 9 per cent of manganese which is calculated to make the hest of metal. The velous about 3 feet thick. When first indued it looks like limestone, but on exposure turns to a bright hemaute in appearance. It will have a thorough trial

-The new machine shop which is in course of erection by the Acadia Foundry Company is 105 x 40 feet, height of post 16 feet. It is to have a truss-girder roof covered with sheet from Mr. Donald irant has the contract of the building, Mr. Townsend of the masonry. The work is being pushed forward rapidly, and it is expected that in about a month the machine shop, blacksmith shop and moulding shop will be running full time - Halifax Chronicle.

will be running full time — Halifax Chronicle.

—A New Brunswick paper says: "Vegetiations have at last resoluced results, and the charcoal tron works at Upper Woodst ck and the mines at acknownile have been sold by the former owners Lewis P. Fisher, David Muoro, Henry A. Connell and Frank P. Sharp, to Messrs Charles H. Salisbury and James H. Sturdy the pepresentatives of a large mining a mpany in Rhode Island. The question of right of way has been deaded, and the New Brunswick Railway Company, from the curve in the track below the bridge, are to construct a branch line along the bank of the river, which is very broadle for such purpose, to the works at Upper Woodstock, a distance of one and three-quarter miles. The largest of the furnaces at the works alone is capable of producing 2,500 toes of pig from per year, which mount would be the product of 7,500 tons of ore, averal hundred men will be furnaced with employment a handly githe ore, in working at the mines, and at the more. wersh hundred men will be turnuned with employment is haulir gibe orn in working at the mines, and at the yorks. Work in cleating away for repairs and rebuilding necessary to the resumption of operations have been to the state works under the direction of the B. Walson to the . F. Watson, Jr , C R.
