

some interesting remarks on the relief of collapse following the operation by injecting warm salt water into the abdominal cavity.

Dr. Hingston—

Two lower maxillæ removed for cancer.
An astragalus enucleated by an accident.

Dr. A. E. McGannon of Brockville—

A rare specimen of ovarian tumor in which both bone and cartilage structure were found.

Dr. Lockhart—

A pedunculated fibroid removed from left labium minor.

Dr. George Brown—

A specimen of intussusception from a boy, aged 10, who died of obstruction of the bowels.

Dr. Finley—

A specimen of plasmodium malarie and one of double hydrosalpinx.

A fibroid heart.

Perforated intestine from typhoid fever patient.

Abscess of the brain; clinical history by Dr. Hutchinson.

Several specimens of miliary tuberculosis; clinical history by Dr. Wilkins.

The heart of a man who had died of angina pectoris; clinical history by Dr. Ross.

Aneurism of the descending aorta; clinical history by Dr. Hamilton.

Specimen from a case of general miliary tuberculosis.

Enchondroma of humerus, which, together with the scapula, had been removed by Dr. Shepherd.

Drs. Finley and Armstrong—

A hand removed for epithelial cancer.

Dr. William Gardner—

Two ovarian tumors.

The uterus and ovaries removed from a young woman, aged 26, in the fourth month of pregnancy, complicated with cancer of the cervix uteri.

A small ovarian tumor filled with papillomata.

A large uterine myoma removed by total extirpation.

A uterus removed for cancer by the vaginal method.

Dr. Lafleur—

Two specimens of perforation of typhoid ulcer.
Hypertrophic cirrhosis of liver.

Atrophic cirrhosis of liver.

Myocarditis; clinical history by Dr. Stewart.

Enchondroma of ilium.

The heart and other organs of a case that had died of mitral stenosis; clinical history was related by Dr. James Stewart.

Sarcoma of testicle.

Tonsils and glands of a case of lymphatic leukaemia; clinical history of case by Dr. Schmidt.

A specimen of malignant endocarditis.

Thrombotic softening of the pons varolii.

Echinococcus cyst of liver.

Cæcum and appendix of a patient who had died of acute suppurative appendicitis.

General tuberculosis in a child seven months old.

Microscopic specimens of cancer of the ovary and peritoneum; clinical history by Dr. Finley.

A retro-pharyngeal tumor; clinical history by Dr. Bell.

Multilocular cyst of ovary (Dr. Bell's case).

Dr. A. Laphorn Smith—

Ovarian cyst with chronic salpingitis, with report of case.

Cancer of the liver, from a patient whose breast he had removed last summer.

A breast recently removed for cancer, with microscopic sections of the latter.

A polypus of the uterus.

Dr. Smith also showed a new portable laparotomy table designed by himself.

Dr. T. F. Robertson of Brockville—

Fibromatous uterus, with detailed history of case.

Dr. J. B. McConnell—

Sections of sarcoma of forehead, schirrus of breast, and epithelioma of rectum.

Exhibited tube cultures of the bacillus of diphtheria.

Dr. Wyatt Johnston—

Specimens of bothriocephalus latus.

Gunshot fractures of skull.

Living Cases Exhibited.

Dr. Shepherd exhibited a man with an enormous enchondroma of ilium. The same case after successful removal of the growth.

Dr. James Stewart exhibited a young man suffering from Friedreich's disease in a very marked degree. He also showed a man suffering from chronic alcoholic poisoning.

Dr. James Bell exhibited a child, five years old, as an example of extensive tuberculosis amenable to surgical treatment. Also an infant on whom he had operated successfully for spina bifida.

Dr. Shepherd showed a woman upon whom he had performed resection of the intestine.

Dr. Hingston exhibited a young woman whose skull he had trephined on account of intense and persistent headache. The report of this case was unfortunately much lacking in detail.

Dr. Armstrong exhibited a man on whom he had operated for appendicitis "during the interval." This was the occasion of a long and most instructive discussion on the subject of appendicitis in all its bearings.

Dr. Bell exhibited a boy for whom he had performed excision of the wrist.
