

The need for special facilities for the treatment of mental and shock cases arising out of the war has imposed an unforeseen burden on the medical branch of the military organization of Canada. The Dominion Government will pay to the Province a maintenance charge of so much per day per patient, and the entire resources of the department will be made available for the purpose of securing for those who are sent to the Cobourg Hospital the best treatment known to science. The equipment at Cobourg will include hydro-therapeutic and electro-therapeutic baths and special wards to deal with the different classes of patients.

---
