PROSPECTUS FOR 1873---SIXTH YEAR.

"THE ALDINE."

An illustrated Monthly Journal, universally admitted to the handsomest Periodical in the world.

A Representative and Champion of American Taste.

iNot for Sale in Book or News Stores.

THE ADDNE, while issued with all the regularity has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant characteristic of ordinary periodicals. It is an elegant charactery pure, light and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding humber affords a fresh pleasure to its freeds, the real valu and beauty of THE ADLINE will be most appreciated after it has been bound at the close of the year. While other publications may claim superior cheapness, as compared with givals of a similar class, THE ALDINE is an unique and and original conceptions show and unapproached—absolutely without competition in price orcharacter. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then there are the chromos, besides! Not for Sale in Book or News Stores.

ART DEPARTMENT.

Notwithstanding the Increase in the price of subscription last fall, when THE ALDINE assumed it present moble proportions find representative character, the edition was more than dout led during the past year; proving that the American public appreciate, and will support a sincere effort in the cause of Art. The publisher, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the thmost to develope and improve the work; and the plans for the coming year, as unfolded by the monthly issee, will astonish and delight even the most sangume friends of THE ALDINE. The publishers are authotized to announce designs from many of the most confinent artists of America.

In addition, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest avoiding such as have become familiar, through photoriables, or copies of any kind.

The quarterly linted plates, for 1873, will reproduce four of John Davis' inmittable childs ketches, appropriate to the flour seasons. These plates, appearing in the insee for January, April. July and October, would be alsoe worth the price of a year's subscription.

The popular features of a coplously illustrated (Christinas' aumber will be continued.

To possess such a valuable epitome of the art-world its cost as trifling, will command the subscriptions of athonasad in every section of the country; but, as the mandance of the proportion to the numerical increase of the supporters, the publisher proposes to make a surrance dealer surrance to the proposed in proportion to the numerical increase of the supporters, the publisher proposes to make a surrance dealer surrance to the surrance
