REV. SYLVANUS COBB thus writes in the Boston Christian Freeman: - We would by no means recommend any kind of medicine which we did not know to be good - particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and its parents unbroken rest at night. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all Druggists. 25 cents a bottle. Be sure and call for "MRS. WINSLOW'S SOOTHING SYRUP." All others are base and dangerous imitations. Sold by all Druggists. 25 cents a bottle. 2m

Our Fur Traders and Trappers in fitting out here, find Ayer's medicines one of their most profitable articles of traffic. Around Slave Lake and the wild regions of the north, the Indians know their uses and have an abiding faith in them. They say: - "Ayer - great medicine - cure sick man," and his remedies, for the diseases from which they suffer, will often bring forth their stock of skins even quicker than wampum, rum or tobacco. Savages are not fools if they are unsophisticated in some of the arts of civilization. - [Montreal Pilot. 1m

WHAT IS YOUR ILLNESS? - A hundred varieties of disease may be traced to the stomach. For each and all of them, common sense suggests that the medicine which restores that organ to its full vigor, is the true remedy. If common sense demands what that remedy is, experience answers, BRISTOL'S SUGAR-COATED PILLS. Cathartics are plenty, but nine-tenths of them give only temporary relief, and many are dangerous. - It is better to let dyspepsia have its way, than to attempt its cure with mercury. The so-called remedy will destroy the patient more rapidly than the disease. Not so BRISTOL'S SUGAR-COATED PILLS, which owe their efficacy solely to vegetable extracts. If the liver is wrong, they put it right; if the bowels are clogged with obstructions, they remove them; if the stomach is incapable of perfect digestion they impart to it the required tone and vivacity. They are put up in glass vials, and will keep in any climate. In all cases arising from, or aggravated by impure blood, BRISTOL'S SUGAR-COATED PILLS should be used in connection with the Pills. J. F. A CARD FROM THE AMERICAN WATCH COMPANY OF WALTHAM, MASS.

THE Company beg leave to inform the citizens of the new dominion of Canada that they have made arrangements to introduce their celebrated Watches to their notice. They are prepared to prove that their watches are made upon a better system than others in the world. They commenced operations in 1859, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one half of all the watches sold in the United States. Up to the present time, it has been impossible for them to do more than supply the constantly increasing home demand; but recent additions to their works have enabled them to turn their attention to other markets. The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand. In them, all those mysterious and infinitesimal organs which when put together create the watch, are the result of slow and toilsome manual processes, and the result is of necessity a lack of uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative vary. But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Ancres, Lepins and so-called Patent Levers - which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant. He stamps and engraves them with any name or brand that may be ordered - whether London, Paris, Geneva or what not; and many a man who thinks he has a genuine "M. I. Tobias, of Liverpool," (whose only fault is, that he can never regulate it to keep very good time), is really carrying a cheap and poor Swiss imitation. HOW AMERICAN WATCHES ARE MADE.

The American Waltham Watch is made by no such uncertain process - and by no such incompetent workmen. All their operations, from the reception of the raw materials - the brass, the steel, the silver, the gold and the precious stones, to the completion of the Watch, are carried on under one roof, and under one skillful and competent director. But the great distinguishing feature of their Watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine - that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch made should be like it. If any part of any American Waltham Watch should be lost or injured, the owner has only to address the Company, stating the number of his watch and the part wanted, whether it be spring, pinion, jewel, or what not, and by return mail he would receive the desired article, which any watchmaker would adjust to its position. The Company respectfully exhibit their watches on their merits only. They have fully succeeded in overcoming popular prejudice in the States in favor of European watches, and solicit a thorough examination and fair trial for their manufactures elsewhere. They claim to make

A BETTER ARTICLE FOR THE MONEY by their improved mechanical processes than can be made under the old-fashioned handicraft system. - They manufacture watches of every grade, from a good, low priced, and substantial article, in solid silver hunting cases, especially adapted to the wants of the farmer and lumberman, to the finest chronometer for the navigator; and also ladies' watches in plain gold or the finest enamel and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them ARE FULLY WARRANTED by a special certificate given to the purchaser of every watch by the seller, and this warranty is good at all times against the Company or its agents. CHOLERA. A CERTAIN CURE FOR THIS DISEASE MAY BE FOUND IN THE USE OF DAVIS' PAIN KILLER. VEGETABLE PAIN KILLER. MANHATTAN, KANSAS, April 17, 1866.

Gentlemen - I want to say a little more about the Pain Killer. I consider it a very valuable medicine, and always keep it on hand. I have travelled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1859, and with better success than any other medicine. I also used it here for cholera in 1855, with the same good results.

Yours truly, A. HUNTING, M.D.

I regret to say to any that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House has been used with considerable success during this epidemic. If taken in season, it is generally effective in checking the disease.

REV. CHARLES HARDING, Sholapore, India. This certifies that I have used Perry Davis Vegetable Pain Killer, with great success, in cases of cholera infantum, common bowel complaint, bronchitis, coughs, colds, &c., and would cheerfully recommend it as a valuable family medicine. REV. JAS. O. BOOMER.

Messrs. Perry Davis & Son - Dear Sirs - Having witnessed the beneficial effects of your Pain Killer in several cases of Dysentery and Cholera Morbus within a few weeks past, and deeming it an act of benevolence to the suffering, I would most cheerfully recommend its use to such as may be suffering from the aforementioned or similar diseases, as a safe and effectual remedy. REV. EDWARD K. FULLER.

Those using the Pain Killer should strictly observe the following directions: - At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bathe freely across the stomach and bowels, with the Pain Killer clear. Should the diarrhoea and cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked and the patient relieved in the course of a few hours.

N.B. - Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the cholera, that in extreme cases the patient take two (or more) teaspoonfuls, instead of one. The Pain Killer is sold every where by all Druggists and Country Store-keepers. PRICE, 15 cts., 25 cts. and 50 cts. per bottle. Orders should be addressed to PERRY DAVIS & SON, Manufacturers and Proprietors, MONTREAL O. E.
