Hardware.—Practically all lines of shelf hardware are experiencing a good demand, and such goods as skates, guns, ammunition, sleigh bells, etc., are moving out very rapidly. The same applies to heavy metals. Regarding the latter the latest reports from Scotland say that the tone of the pig iron market has been easier, with a moderate turnover in warrants. Further sales are reported of Scotch, Cleveland and Hematite for shipment to the United States, delivery extending over several months. Makers are finding difficulty in keeping up their supplies for local wants.

Hides and Skins.—Hides are coming in with some degree of plentifulness, but stocks are not accumulating. The market is in good condition. Tallow is easier.

Live Stock.—In spite of heavy offerings at the cattle market, everything was pretty well cleaned out, the market presenting an improved tone. As regards export cattle, cables from Britain report little improvement, but owing to the steamship space now being limited, buyers were in a hurry to fill requirements speedily. Really gilt-edged stock was snapped up eagerly, one large lot in particular realizing \$5.45 per cwt. The bulk of the offerings, however, went at \$4.65 to \$5.15. The supply of butchers' cattle was limited and prices were well maintained. Good milch cows sold as high as \$60 each. Sheep went 10c. higher.

Provisions.—A good movement is going on in butter. Choice dairy is not in heavy supply and there is rather a keen demand. The cheese market is firmer, in keeping with the advanced prices in outside markets. There is a good demand for strictly fresh-gathered eggs, and prices are 19 to 20c. Splits and seconds obtain from 14 to 18c. For poultry the enquiry is dull, doubtlessly owing to the warm weather. Venison is in plentiful supply, but it does not keep very well, which restricts the demand. Prices quoted are 6 to 6½c. for does, and 7 to 8c. for bucks, with saddles about 9½c. Hops are reported as high as ever, Canadian 1902 crop being held at 25 to 30c. Stocks of hog products are light, and the market has become firmer. Dressed hogs are steady.

Wool.—Scarcely any demand for export exists for fleeces, and business is very dull. For pulled wools the demand from the mills is fair.
