The ice in Toronto Bay has moved off tarnp as York Street, and what cemains above is in a state of dissolution Yesterday the schooner-Morning Star started oil from Maitland's Wharf, and with the assistance of a scow in front attempted to force her way through with full sail, but after she had penetrated the ice some distance, the want of wind forced her to go back. The scow Rough and Ready arrived at Upten and Brown's Wharf, at 6.30 p. m., less night, with a full load of cordwood from Pickering.— The Chief Justice Robinson also arrived at Miller's Wharf afterwards. It is evident that in a few days the harbor will be clear of ice. And here it is proper to comark, that the attention of the Harlor Commissioners is due to a bar being formed outside the mouth of the harbor, in front of the new garrison. It will be necessary to set in mo-tion the new steam dredge which last season lay idlo. About a week ago, the river was so clear of ico opposite Quebec, that a ferry boat had bogun to make trips across to l'oins Lovi. At Montroal, the river was still crossed on the ice, on the 11th inst, but it quantity of ice had accumulated at the Vic

toria Bridge works The Peerless, which has been everhauled and newly painted, at Ningara, will start in a low days, on her old route. She is, however, destined for the Toronto and Hamiltop route after the Zimmerman has returned from Oswogo, where she is now undergoing patrons, to give this brief history of its origin

repairs.

The old Chief Justice is expected to run from Toronto to Presqu' Islo.

The Layflower and Champion will rus from Toronto to Oswozo, in gonnection with the Northern Railroad, as last season; the citizens of Oswogo having, it is said, agreed to insure the Company against the recurfurther started, that the citizens of Chicago have granted to the owners of the line \$20,-000 for each of the five boats, in consideraof a tri-weekly line being kept up between that city and Collingwood. Some further efforts it is understood are being exerted, to make the line a daily one. The Railroad Company have chartered the schooner Allies, and it is said some others, to bring fraight down to Collingwood.

The Kalicolah has been sold by Mr. Thompson to a company in Owen Sound, from which place to Collingwood she is to make a daily trip, in addition to going once a week, on Sundays, we believe to Penet-anguishine. The Oxford, which was on this route last year, went ashore near the fishing islands last autumn. The Mazeppa, also or that route last year, is to run during the present season from Goderich to Saugeen The Pleughboy will run from Goderick

On Lake Simcoe, are to run the J. C Morrison and Boaver, both chartered by Capt. Frazer. They will run from Bell Ewart to Orillia as usual. The steamers Canada and America will

form a line between Hamilton, Cape Vincent Brockville and Ogdonaburg.
The American mail, daily line, consisting

of the Cataract, the Bay State, the Northern and the Ningara, will run between Ningara, Toronto, Rochester, Oswego, and Ogdens-

Brockville, instead of Kingston, as in previous years.

The Welland has been purchased by the

town of St. Catharines, to run botwood that place and Toronto, daily. The Maple Leaf and the Highlander will form a line from Toroute to Rochester, onling at intermediate ports. The Highlander has for some time been on the route, and she will be joined by the other next week. The Boston is undergoing repairs at Ila-

milton. New state rooms are being placed on her upper docks. Her destination, and also the Europa is not determined upon. They are now both controlled by Mr. Wilson Browne of Hamilton

The above are all passenger boats. The freight boats remain to be noticed. The Rauger, the Dawn, the Protection, the Osliawa, and a now boat building at Imprairie will be run from Montreal to Toronto and Hamilton by Mesara. 11. & J.: Jones. Holcomb and Honderson's line, on the

same route, cousists of the Western Miller, the Scotland, the George Moffatt; and the Hooker, Jaques & Co's line on the same

route, consists of the Free Trader, Hibernia, Lord Elgin and Proscott.

Another line, on the same route, will consist of the Huren, the Bowmanville, and a new boat building at Kingston. Mr Wilson Brown's City of Hamilton, the

Kentucky and the old Willy Nickel-we forgot her new name-will run from Montreal to Toronto, calling at Kingston. Two new schooners for Toronto are be-

ing built at Oakville, one for Mr. Sydney Hamilton, to be called the Alliance: the other for Joshua Board, Esq., whose name she is to bear. They are of 400 tons each; and both are intended for the coal trade.

The construction of a new Bay steamer The construction of a new Bay steamer by Mr. Quinn, has already been noticed in these columns. Besides this, his old boat, the New York." Citizen, has been longthoned. - Leader.

A BOVE is an engraving of a very elegant Daguerreotype case executed in white I Parisu marble richly carvesi, and designed to be attached to monuments and monumental tones, and to centain a dagger couppe, or other likeness of the deceased. The likeness is placed in a bress case made perfectly air and water-right, and protected from the light and weather by a in a press case made perfect. At any water-light, and protected not light and water-light carred marble covering, which moves upon a prot, as seen in the cut. This brase case is inserted in an aperture made in the back of the marble case, and the whole Is fastened to the monument or grave stone, by means of two, and conceines four, serows. The marble cases are of various sizes and patterns, to correspond with the size of the monument, and the age of the deceased. The smallest are about one-third inner than the above cut, and are elegantly carried. The largest are smallest are about one-third tamer than the above cot, and are elegantly carved. The largest are swalve inches tong and nine inches wide or six times the size of the cut, which is a copy of their pattern. The prices vary from \$2.25 to \$15, according to size. The idea of attaching dagnerico type or other likenesses of deceased persons to the stones erected to percetuate their memories originated with Mr. A. L. Bandwis, of Meriden. Com. who at once got up a variety of elegant and ruttable designs in matthe, and, taving secured a patent for his invention, formed a manufacturing company, which is now in successful operation at Meridan, Come,, and has agencies established in various parts of the United States. The central office of the Company is at No. 335 Broadway. New York, and Mr. A. L. Baldwin, is its agent. Persons who may wish to obtain furth a particulars together with engravings showing the different designs and patterns of the marble cases manufactured by the Mansoleum Daguerreotype Company, can do so by addressing Mr. Baldwin as above, and enclosing a posting stamp. Patent rights for States, Counties and Lowns are for sale by Mr. Baldwin on reasonable and accommodating terms. Orders for cases should also be addressed to him.

With this object in view, we purpose to 188ue,
for the present, one number mouthly, commencting on the 1st October; but we hope considerably to enlarge, or to publish more frequently, as soon as we receive the requisite amount f encouragement. A large proportion of sch number will be filled with original matter 'n the form of short tracts, dialogues, and twles; w'ich, with anecdotes, scraps of information and other selections, all strictly tending to illustrate the principles we wish to advocate, will make up the contents. While we hope to offer matter sufficiently interesting as to make it not without value even to the more highly educated it will be our endeavour to clothe it in such plain and simple language, as to render our little publica-tion a welcome visitor in the farm bouse and the cottage, and a source of pleasure, as well as profit cottage, and a source of peasure, as well as promite both young and old. For the young especially, some portion of our space will always be set apart; and we venture to suggest to clergymen and superintendents of Sunday Schools, the advantage of encouraging their elderly scholars to avail themselves of the reduced terms offered to those who subscribe for a number of copies .-They vill thus be furnishing the young persons committed to their charge with a supply of read-
