

## Scope of the Energy Sector and its Place in the Economy

### Summary

#### 1) Energy Sector GDP

Tables 1.1 to 1.7 show real and nominal GDP for the various components of the sector from 1973 to 1984. Employment data at this level of disaggregation are only available for 1983 and 1984.

A description of the SIC for each industry is included at the end of this section.

#### 2) Energy Sector Exports and Imports

Tables 2.1 and 2.2 show exports and imports of energy commodities from 1973 to 1984.

#### 3) Sources of Imports and Destinations of Exports

Where commodities are wholly or primarily sent to or received from the United States no separate table is given. Table 3.1 indicates sources of crude oil imports, table 3.2 shows destinations for coal exports.
