The bread drivers of the city are the railway commission. Mayor Geary said he had been guid-ed by the attitude of the board of trade, which wanted the siding to help out freight delivery and which, judged rather put out with the Nickle Bread Act as passed by the legislature.

About three weeks ago the drivers organized a union, and last night in the Labor Temple elected officers. There are about 40 members now, with 25 applications for admission.

"Did you pass any resolutions con-demning the Bread Act?" was asked one of the chief officers. "No, we are waiting for the court

"No, we are waiting for the court decision, to see if the legislature pur-pose to retain the present standard weight," he replied. "If the present standard holds, we will have to ask for a larger commission." An achievement no less marvelous, was a flight of Claude Grahamé-White of England, in which he went twice to Boston light and return from the field, a distance of 33 miles, almost a-min-ute for the entire distance, using a Bieriot monoplane. Another ftature was target shoot-ing from an aeroplane with a regula-tion service ammunition rifle by Lleut. J. E. Fickel. He went up with Chas. F. Inquest is Resumed. LONDON, Sept. 12.—The inquest over the remains taken from the cellar of Dr. Crippen's residence was resumed to-day. Arthur Newton, attorney for Crippen, went after the undertaker and his assistant, in an attempt to show that they shoveled the remains into a box, taking little care to keep dirt and stones separate. Both men denied this, saying there were neither stones nor dirt in the coffin when it was taken to the morgue. They admitted, however, that there was a great deal of carbolic acid used, and said they had to use it in order to approach where the body was buried.
